Polish Avant-Garde in Berlin Malgorzata Stolarska-Fronia 2020-02-03 This book presents a historical panorama of the Polish avant-garde in Berlin from 19th century historical avant-garde until the recent art. Looking at specific artistic strategies and development of modernist paradigm both in the pre- and post-Second World War period from the perspective of the migration experience, this book offers a deep insight into mechanisms, relations and identity programmes of particular artists or groups. It also reveals the dynamics of eventual cultural exchange or alternative forms of artistic transformation and message that Polish artists imprinted in the Berlin's art scene. Whether

historical avant-garde or the neo-avant-garde, the component of novelty inscribed in the term itself ceases to be a sheer, one-dimensional slogan and reveals a whole range of cultural projections that artist-migrants are both creators and the subject of. Here the notion of exoticism, wilderness, but also critical and ironical approach often constitute the perception of Polish art in the Berlin milieu.

The Photomontages of Hannah Höch Hannah Höch 1996 Here, in the first comprehensive survey of her work by an American museum, authors Peter Boswell, Maria Makela, and Carolyn Lanchner survey the full scope of Hoch's half-century of experimentation in photomontage - from her politically charged early works and intimate psychological portraits of the Weimar era to her later forays into surrealism and abstraction.

English in Cameroon Hans-Georg Wolf 2001-01-01 The multilingual situation in Cameroon and the status of English as a co-official language constitute a unique and fascinating case for sociolinguistic investigation. Drawing from first-hand material, the author investigates several aspects of this complex configuration, including the historical development of English in Cameroon, the various languages and lingua franca areas, the linguistic policy, the de facto status of English and the situation in the anglophone provinces. The speech community of the Anglophones is highlighted as a rare example of an ethnicity tied to the second language. Apart from important sociolinguistic findings, the work includes a novel, corpus-based analysis of Cameroon English. Certain lexical phenomena are explained by the cognitive coding of culture - particularly the African cultural model of community, which also underlies the self-perception of the Anglophones - a perspective hitherto neglected in the study of the New Englishes.

Approaches to Organic Form F.R. Burwick 2012-12-06 Frederick Burwick's modest but comprehensive and insightful introduction is preface enough to these sensible essays in the history and philosophical criticism of ideas. If we want to understand how some inquiring and intelligent thinkers sought to go beyond mechanism and vitalism, we will find Burwick's labors of assembling others and reflecting on his own part to be as stimulating as anywhere to be found. And yet his initial cautious remark is right: 'approaches', not 'attainments'. The problems associated with clarifying 'matter' and 'form' are still beyond any consensus as to their solution. Even more do we recognize the many forms and meanings of 'form', and this is so even for 'organic form'. That wise scientist-philosopher-engineer Lancelot Law Whyte struggled in a place neighboring to Burwick's, and his essay of thirty years ago might be a scientist's preface to Burwick and his colleagues: see Whyte's *Accent on Form* (N. Y., Harper, 1954) and his *Symposium of 1951 Aspects of Form* (London, Percy Lund Humphries 1951; and Indiana University Press 1961), itself arranged in

Le Tumulte Noir Jody Blake 1999-01-01 Jody Blake demonstrates in this book that although the impact of African-American music and dance in France was constant from 1900 to 1930, it was not unchanging. This was due in part to the stylistic development and diversity of African-American music and dance, from the prewar cakewalk and ragtime to the postwar Charleston and jazz. Successive groups of modernists, beginning with the Matisse and Picasso circle in the 1900s and concluding with the Surrealists and Purists in the 1920s, constructed different versions of la musique and la danse negre. Manifested in creative and critical works, these responses to African-American music and dance reflected the modernists' varying artistic agendas and historical climates.
