The Terrors of Ice and Darkness Christoph Ransmayr 1996-05 A brilliant interweaving of journeys and voyages--geographical, historical, psychological--The Terrors of Ice and Darkness is the riveting account of a narrator obsessed with a certain Josef Mazzini, a young Italian "lost in the arctic winter of 1981" who is himself obsessed with the Imperial Austro-Hungarian North Pole Expedition of 1873: "At first it was nothing more than a game to try to reduce the circumstances of his disappearance to some sort of explanation, any explanation. But every clue yielded a new unanswered question. Quite involuntarily I found myself taking one step after the other. . . . Cumulus clouds mirrored in a shop window became calving glaciers, patches of old snow in city parks became great floes of ice. The Arctic Ocean lay at my window. Much the same thing must have happened to Mazzini." Painstakingly retracing Mazzini's steps, the narrator simultaneously reconstructs the dramatic and fantastic story of the nineteenth-century journey, using actual letters and diaries of the members of that harrowing expedition. These documents--sometimes surprisingly poetic and moving--combine in the narrator's imagination to evoke as never before the awful beauty of the world's farthest northern reaches. In a novel as crystalline as the polar ice, as penetrating as the arctic cold, Christopher Ransmayr spins an adventure tale both spellbinding and paradoxical in its

subversive undermining of conventional notions of heroism and exploration.

Ernst Lissauer Arne Offermanns 2018-11-19 Ernst Lissauer (1882-1937), Autor des berühmten „Haßgesangs gegen England“, gehört zu den stark assimilierten deutschen ‚Juden‘, die unter dem Antisemitismus mehr als Deutsche denn als Juden litten. Lissauer empfand sich zeitlebens ausschließlich als ‚deutsch‘, trat jedoch für ein ‚Deutschtum‘ ein, das auf Kultur, Geschichte und Territorium statt ‚Rasse‘ beruhte. Seine Wertvorstellungen und Ideale weisen gleichwohl große Nähe zu denen deutsch-völkischer Kreise auf. Die religiösen Vorstellungen des Dichters waren geprägt von den Ideen Arthur Bonus‘, der eine „Germanisierung des Christentums“ propagierte. Die Studie erschließt seine Weltanschauung und Identitätskonstruktion, die Position Lissauers zwischen ‚Deutschtum‘ und ‚Judentum‘ sowie Grundtendenzen des Werks, das im Umfeld der Neuromantik und des frühen Expressionismus zu verorten ist. Dazu dient auch die kommentierte Edition des Briefwechsels mit Walter A. Berendsohn, dem „Nestor“ der deutschen Exilliteraturforschung, aus den Jahren 1935-1937.

Ben Nevis Ken Crocket 2009 Ben Nevis proposes a unique challenge to climbers, both in terms of height and adverse weather conditions. This book charts the history of human interaction with the mountain.

Disseminating Jewish Literatures Susanne Zepp 2020-10-12 The multilingualism and polyphony of Jewish literary writing across the globe demands a collaborative, comparative, and interdisciplinary investigation into questions regarding methods of researching and teaching literatures. *Disseminating Jewish Literatures* compiles case studies that represent a broad range of epistemological and textual approaches to the curricula and research programs of literature departments in Europe, Israel, and the United States. In doing so, it promotes the integration of Jewish literatures into national philologies and the implementation of comparative, transnational approaches to the reading, teaching, and researching of literatures. Instead of a dichotomizing approach, *Disseminating Jewish Literatures* endorses an exhaustive, comprehensive conceptualization of the Jewish literary corpus across languages. Included in this volume are essays on literatures in Arabic, English, French, German, Hebrew, Hungarian, Italian, Polish, Portuguese, Russian, Spanish, and

Turkish, as well as essays reflecting the fields of Yiddish philology and Latin American studies. The volume is based on the papers presented at the Gentner Symposium funded by the Minerva Foundation, held at the Freie Universität Berlin in June 2018.

Ethics, Society, Politics Hajo Greif 2013-10-30 A real book on ethics, as Wittgenstein had it, if one could conceive it in the first place, would be the book to destroy all other books. Yet there is an increasing number of real-world discourses in which ethical values are mobilized as justifications for socio-political action while, in turn, moral problems are becoming a topic of political negotiation. Although it will be difficult to find systematic accounts of an absolute good or of absolute values in these debates, it is equally difficult to imagine them not being deeply informed by such considerations. Rather than merely adding to the corpus of applied ethics on the one hand or remaining in seemingly Wittgensteinian silence about ethics on the other, many contributions to this volume explore the reach of what can be said in ethical terms, while others provide critical discussions of what is being said in various fields of applied ethics and political philosophy under real-world power relations. This volume collects invited contributions from the 35th International Wittgenstein Symposium 2012 in Kirchberg am Wechsel, Austria. Authors include: Alice Crary, Peter Dabrock, Rom Harré, Agnes Heller, Jaakko Hintikka, Peter Koller, Anton Leist, Chantal Mouffe, Julian Nida-Rümelin, Hans Sluga, David Stern, Gianni Vattimo.

The Emergence of Neuroscience and the German Novel Sonja Boos 2021-09-29 The Emergence of Neuroscience and the German Novel: Poetics of the Brain revises the dominant narrative about the distinctive psychological inwardness and introspective depth of the German novel by reinterpreting the novel's development from the perspective of the nascent discipline of neuroscience, the emergence of which is coterminous with the rise of the novel form. In particular, it asks how the novel's formal properties—stylistic, narrative, rhetorical, and figurative—correlate with the formation of a neuroscientific discourse, and how the former may have assisted, disrupted, and/or intensified the medical articulation of neurological concepts. This study poses the question: how does this rapidly evolving field emerge in the context of nineteenth century cultural practices and what were the conditions for its emergence in the German-speaking world specifically? Where did neuroscience begin and how did it broaden in scope? And most crucially, to what degree does it owe its existence to literature?

Bureaucratic Fanatics Benjamin Lewis Robinson 2019-05-20 Is justice only achievable by means of bureaucratization or might it first arrive with the end of bureaucracy? Bureaucratic Fanatics shows how this ever more contentious question in contemporary politics belongs to the political-theological underpinnings of bureaucratization itself. At the end of the 18th century, a new and paradoxical kind of fanaticism emerged - rational fanaticism - that propelled the intensive biopolitical management of everyday life in Europe and North America as well as the extensive colonial exploitation of the earth and its peoples. These excesses of bureaucratization incited in turn increasingly fanatical forms of resistance. And they inspired literary production that provocatively presented the outrageous contours of rationalization. Combining political theory with readings of Kleist, Melville, Conrad, and Kafka, this genealogy of bureaucratic fanaticism relates two extreme figures: fanatical bureaucrats driven to the ends of the earth and to the limits of humanity by the rationality of the apparatuses they serve; and peculiar fanatics who passionately, albeit seemingly passively, resist the encroachments of bureaucratization.

The Mysterious Island Jules Verne 2010-10-01 Although The Mysterious Island is technically a sequel to Vernes' enormously popular Twenty Thousand Leagues Under the Sea, this novel offers a vastly different take on similar thematic motifs. As with all of Verne's best-known works, The Mysterious Island is a masterpiece of the action-adventure genre, with a heaping dash of science fiction influence thrown in for good measure.

Mental Neuroimplants Hans J Markowitsch 2020-02-27 Mental Neuroimplants provides a new take on personality development through brain research - a book for the general reader and practitioner alike. It shows how mental health is influenced by basic neuroscientific rules, and how these can be stabilised and strengthened using a new approach: Mental Neuroimplants. Individual positive emotional worlds can directly impact the brain and - in turn - the psychological health of the person in question. This study shows how this can directly improve quality of life. The authors emphasise that the individual's lifestyle can lead to long-term physical and environmentally induced changes - which can even be effective across generations. The central message of this book is to raise awareness; how using psychological neuroimplants can have a positive impact on numerous areas of life including emotion, health and material prosperity. Hans J. Markowitsch was Professor of Physiological Psychology at the University of Bielefeld, Germany. He studied psychology and biology at the University of Konstanz, had professorships for biopsychology and physiological psychology at the Universities of Konstanz, Bochum, and Bielefeld. He was offered chairs of psychology and neuroscience at both Australian and Canadian Universities. His research centres on the neural and mental bases of memory disorders and on interactions between memory, emotion and consciousness. He is author, co-author or editor of about 30 books and has written

around 700 scientific articles. Margit M. Schreier has been working since 1999 as an Independent Management Consultant. She founded the brand NIKU in Germany and the USA. She studied Rightsizing and Upgrading Management at the Georg Simon Ohm Management Institute of the Nuremberg University for Applied Sciences. After many years of personal interest and research in neurosciences, she decided to combine her insights in NIKU. Anniversaries Uwe Johnson 2018-10-16 A landmark of 20th Century literature about New York in the late 1960s, now in English for the first time. Late in 1967, Uwe Johnson set out to write a book that would take the unusual form of a chapter for every day of the ongoing year. It would be the tale of Gesine Cresspahl, a thirty-four-year-old single mother who is a German émigré to Manhattan's Upper West Side, and of her ten-year-old daughter, Marie—a story of work and school, of friends and lovers and the countless small encounters with neighbors and strangers that make up big-city life. An everyday tale, but also a tale of the events of the day, as gleaned by Gesine from *The New York Times*: Johnson could hardly foresee the convulsions of 1968, but some of the news—the racial unrest roiling America, the escalating war in Vietnam—was sure to be news for some time yet to come. Finally, it would be a tale told by Gesine to Marie about Gesine's childhood in a small north German town, of her independent and enterprising father, of her troubled mother, of Nazi Germany (Gesine was born the year Hitler came to power) and World War II and Soviet retribution and the grimly regulated realities of Communist East Germany. An ambitious historical novel as well as a wonderfully observed New York novel, *Anniversaries* would take in the unsettled world of the present along with the twentieth century's disastrous past, while vividly depicting the struggle of a loving, though hardly uncomplicated mother and a bright, indomitably curious girl to understand and care for each other and to shape a human world. Gesine and Marie are among the most memorable and engaging characters in literature, and *Anniversaries*, at once monumental and intimate, sweeping and full of incident, stylistically adventurous and endlessly absorbing, is quite simply one of the great books of our time.

Die Liga der Paladine K.B. Stock 2016-12-20 Die Jagd der Polizei nach den im Band "Die Firma des Piloten" entkommenen Falcone-Vettern geht 2013 mit Unterstützung der Wagner Air Charter (WAC) in diesem Fortsetzungsband in die letzte Runde, auch wenn zunächst nicht klar ist, wie die aktuellen mit den vergangenen Fällen zusammenhängen. Und trotz geschäftlich hoher Belastungen heiraten Michael u. Anna Wagner zu Weihnachten 2013. Gleichzeitig findet die noch ausstehende kirchliche Hochzeit von Waltraud Wagner u. Matthias Debus statt. Ab Anfang 2014 wird der Personentransport per Hubschrauber zu einer weiteren einträglichen Einnahmequelle der WAC. Ferner stehen für die Besatzung des firmeneigenen EC-635 gelegentliche Hilfeinsätze für die bayerische Polizei u. die bayerische Bergrettung an. Aber dann geschehen ab April 2014 seltsame Dinge. Den Anfang macht der vermisste Hubschrauber eines dubiosen italienschstämmigen Rosenheimer Geschäftsmanns, der im österreichischen Karwendelgebirge auf der Jagd nach einem bei Kriegsende verschollenen Schatz in seinem gelandeten Privathubschrauber erschossen wird. Nachforschungen zeigen rasch, dass es dabei um einen Schatz geht, den SS-Angehörige zu Kriegsende in Sicherheit bringen wollten und hinter dem jetzt u.a. eine rechtsradikale Geheimorganisation namens 'Die Liga der Paladine' her ist. In diesem Kontext tauchen auch völlig unerwartet die Falcone-Vettern wieder auf der Bühne des Geschehens auf. Nur wenige Monate später holt den ehemaligen Polizisten und jetzigen Unternehmer Michael Wagner das seinerzeit an seinen Eltern verübte Verbrechen nochmals ein. Denn eine junge Frau, die von seinem Partner Matthias als VIP-Fluggast von Siegsdorf bei Traunstein nach Graz geflogen werden soll, wird am vereinbarten Abholpunkt entführt, wobei Michaels mitfliegender Ex-Kollege, Hauptkommissar Markus Leitner, durch Schüsse der Kidnapper schwer verletzt wird. Und am Ort der gewaltsamen Entführung finden sich erneut DNA-Spuren, die mit denen der Mörder seiner Eltern übereinstimmen.
