Short- and Long-Term Modality Effect in Multimedia Learning Alessia Ruf 2016-01-11 In a multimethod laboratory study Alessia Ruf compared multimodal learning in system-paced and self-paced environments over time. The results show that overall participants achieved the highest learning success in short- and long-term when they learned with visual texts and controlled the learning time by themselves. These results reveal a general impression of the modality effect, show possibilities to improve e-learning systems and give recommendations for further research.

Digital Environments Urte Undine Frömming 2017-03-31 Digital technology permeates the physical world. Social media and virtual reality, accessed via internet capable devices - computers, smartphones, tablets and wearables - affect nearly all aspects of social life. The contributions to this volume apply innovative forms of ethnographic research to the digital realm. They examine the emergence of new forms of digital life, such as political participation through comments on East Greenlandic news blogs, the personal use of video broadcasting applications, the rise of transnational migrant networks facilitated by social media, or the effects of Facebook, Twitter, and Instagram on global conflicts.

Die Karrieresau Adel Abdel-Latif 2017-02-23 SPIEGEL-BESTSELLER Adel Abdel-Latif hatte es geschafft. Mit gerade mal 34 Jahren wurde er als Radiologe an die führende Schweizer Privatklinikgruppe berufen. Aber damit gab er sich nicht zufrieden. Er verspürte den dringenden Wunsch, sich zu verändern, neue Wege zu gehen und nochmals so richtig durchzustarten. Hierfür entwickelte er ein Erfolgskonzept, das ihn zum visionären Firmengründer, innovativen Unternehmer und Weltmeister im Kickboxen werden ließ. Heute berät er als "Ghost Negotiator", für die Gegenseite unsichtbar, weltweit erfolgreich Global Players in schwierigen Verhandlungssituationen. In seinem neuen Buch zeichnet er seinen Weg nach und nimmt den Leser mit auf eine Reise zu Selbstbestimmung, finanzieller Unabhängigkeit und einem aufregenden Leben.

Advanced Multicarrier Technologies for Future Radio Communication Hanna Bogucka 2017-08-14 "This book addresses the advantages and the limitations of modern multicarrier technologies and how to meet the challenges they pose using non-contiguous multicarrier technologies and novel algorithms that enhance spectral efficiency, interference robustness, and reception performance. It explores techniques using non-contiguous subcarriers which allow for flexible spectrum aggregation while achieving high spectral efficiency and flexible transmission and reception at lower OSI layers. These include non-contiguous orthogonal frequency division multiplexing (NC-OFDM), its enhanced version, non-contiguous

filter-bank-based multicarrier (NC-FBMC), and generalized multicarrier. Following an overview of current multicarrier technologies for radio communication, the authors examine particular properties of these technologies that allow for more efficient usage within key directions of 5G. They examine the principles of NC-OFDM and discuss efficient transmitter and receiver design. They present the principles of FBMC modulation and discuss key challenges for FBMC communications while comparing performance results with traditional OFDM. They move on from there to a fascinating discussion of GMC modulation within which they clearly demonstrate how that technology encompasses all of the advantages of previously discussed techniques, as well as all imaginable multi- and single-carrier waveforms. Essays on Judaism in the Pre-Hellenistic Period Joseph Blenkinsopp 2017-03-06 The essays deal with developments during the period from the liquidation of the Judean state to the conquests of Alexander the Great. This was a critical time in the Near East and the Mediterranean world in general. It marked the end of the great Semitic empires until the rise of Islam in the seventh century A.D., decisive changes in religion, with appeal to a creator-deity in Deutero-Isaiah, Babylonian Marduk cult, and Zoroastrianism. For the survivors of the Babylonian conquest in a post-collapse society the issue of continuity, with different groups claiming continuity with the past and possession of the traditions, there developed a situation favourable to the emergence of sects. The most pressing question, however, was what to do faced with the overwhelming power of empire, first Babylonian, then Persian. Finally, with the extinction of the native dynasty and the entire apparatus of a nation-state, the temple became the focus and emblem of group identity.

NO is Short for Next Opportunity Martin Limbeck 2014-11-18 "A no does not mean that you should give up; on the contrary, a no means you should keep at it." -Martin Limbeck Selling is easy if you can offer

the lowest price or a top brand that everyone wants. But what if you don't? What if the client says no? In sales, rejection comes with the territory. You will hear no, and you will hear it frequently. It's normal. What's important is what you do with that no . . . The right attitude toward selling is your key to success. Passion, pride, and perseverance are your most important assets. NO Is Short for Next Opportunity will inspire you to develop the proper mindset for selling and to seal more deals. "This book is not an option for anyone who has ever heard the word 'no'-buy it and read it today and start getting 'yes' tomorrow." - Jeffrey Gitomer, author of The Little Red Book of Selling "This book will keep you going and growing throughout your career. I recommend it." -Mark Sanborn, author of The Fred Factor and You Don't Need a Title to Be a Leader "This book is bigger than sales. It's a book about lifelong success. Your success." - Randy Gage, author of the New York Times bestseller Risky Is the New Safe "Read Martin Limbeck's book and you will learn how to get past the no and realize your true potential." -Ron Karr, author of Lead, Sell or Get Out of the Way "Compelling, complete, and courageous, this book will show you how to sell successfully to others and how to overcome the objections of even your most important client-you. I got new ideas and a new sense of hope from the very first page!" -Monica Wofford, CSP, CEO, Contagious Companies Inc. and author of Make Difficult People Disappear

Lives of the Stoics Ryan Holiday 2020-09-29 Instant New York Times Advice & Business Bestseller, USA Today Bestseller, and Wall Street Journal #1 Bestseller! A New York Times Noteworthy Pick and a "stellar work" by Publishers Weekly From the bestselling authors of The Daily Stoic comes an inspiring guide to

the lives of the Stoics, and what the ancients can teach us about happiness, success, resilience and virtue. Nearly 2,300 years after a ruined merchant named Zeno first established a school on the Stoa Poikile of Athens, Stoicism has found a new audience among those who seek greatness, from athletes to politicians and everyone in between. It's no wonder; the philosophy and its embrace of self-mastery, virtue, and indifference to that which we cannot control is as urgent today as it was in the chaos of the Roman Empire. In *Lives of the Stoics*, Holiday and Hanselman present the fascinating lives of the men and women who strove to live by the timeless Stoic virtues of Courage. Justice. Temperance. Wisdom. Organized in digestible, mini-biographies of all the well-known--and not so well-known--Stoics, this book vividly brings home what Stoicism was like for the people who loved it and lived it, dusting off powerful lessons to be learned from their struggles and successes. More than a mere history book, every example in these pages, from Epictetus to Marcus Aurelius--slaves to emperors--is designed to help the reader apply philosophy in their own lives. Holiday and Hanselman unveil the core values and ideas that unite figures from Seneca to Cato to Cicero across the centuries. Among them are the idea that self-rule is the greatest empire, that character is fate; how Stoics benefit from preparing not only for success, but failure; and learn to love, not merely accept, the hand they are dealt in life. A treasure of valuable insights and stories, this book can be visited again and again by any reader in search of inspiration from the past.

[A World Without Email](#) Cal Newport 2021-03-02 New York Times bestseller! From New York Times bestselling author Cal Newport comes a bold vision for liberating workers from the tyranny of the inbox--and unleashing a new era of productivity. Modern knowledge workers communicate constantly. Their days are defined by a relentless barrage of incoming messages and back-and-forth digital conversations--a state of constant, anxious chatter in which nobody can disconnect, and so nobody has the cognitive bandwidth to perform substantive work. There was a time when tools like email felt cutting edge, but a thorough review of current evidence reveals that the "hyperactive hive mind" workflow they helped create has become a productivity disaster, reducing profitability and perhaps even slowing overall economic growth. Equally worrisome, it makes us miserable. Humans are simply not wired for constant digital communication. We have become so used to an inbox-driven workday that it's hard to imagine alternatives. But they do exist. Drawing on years of investigative reporting, author and computer science professor Cal Newport makes the case that our current approach to work is broken, then lays out a series of principles and concrete instructions for fixing it. In *A World without Email*, he argues for a workplace in which clear processes--not haphazard messaging--define how tasks are identified, assigned and reviewed. Each person works on fewer things (but does them better), and aggressive investment in support reduces the ever-increasing burden of administrative tasks. Above all else, important communication is streamlined, and inboxes and chat channels are no longer central to how work unfolds. The knowledge sector's evolution beyond the hyperactive hive mind is inevitable. The question is not whether a world without email is coming (it is), but whether you'll be ahead of this trend. If you're a CEO seeking a competitive edge, an entrepreneur convinced your productivity could be higher, or an employee exhausted by your inbox, *A World Without Email* will convince you that the time has come for bold changes, and will walk you through exactly how to make them happen.

Around Abhinavagupta Eli Franco 2016 Abhinavagupta is undoubtedly the most famous Kashmirian medieval intellectual: his decisive contributions to Indian aesthetics, Saiva theology, and metaphysics, and to the philosophy of the subtle and original Pratyabhijna system, are well known. Yet so far his works have often been studied without fully taking into account the specific historical, social, artistic, religious, and philosophical context in which they are embedded. The purpose of this book is to show that this intellectual background is no less exceptional than Abhinavagupta himself. (Series: Leipzig Studies on the Culture and History of South and Central Asia / Leipziger Studien zu Kultur und Geschichte Sud- und Zentralasiens, Vol. 6) [Subject: History, Abhinavagupta, India Studies, Religious Studies]

Short-Term Mission Team Essentials - Together on the Journey Ann Borquist 2020-10-27 "We will never forget you!" These words reverberate in the hearts of sisters and brothers in Christ around the world from Brazil and Bolivia, to Thailand, D.R. Congo, and Bulgaria, then back to Phoenix, Westfield, Cincinnati, San Juan and Portland. Each short-term mission (STM) team goes out with a desire to bless and encourage, certainly not to harm or offend. However, the sad truth is that teams that arrive in their host country with little or no cross-cultural ministry preparation may inadvertently create dependency, and they can even destroy relationships that will take years to restore. How can your STM team become a channel of blessing instead of confusion and animosity? Well-prepared STM teams can be living bridges of understanding, compassion and love between different parts of the Body of Christ. God wants to use STM experiences to teach team members as well as their hosts about God's grace, provision, protection and faithfulness. How can you learn to walk with God and one another on the journey with your hosts, your home church and with each team member? STM teams have the potential to make a real difference, whether in a remote rural community in Rwanda, a neighborhood in Bulgaria or a women's shelter in Mexico. At the same time, the lessons the team learns from their host country sisters and brothers will help them to reach out in creative, powerful ways back at home, bringing fresh meaning to Phil. 1:3: "I thank my God every time I remember you."

A Little History of Philosophy Nigel Warburton 2011-10-25 Philosophy begins with questions about the nature of reality and how we should live. These were the concerns of Socrates, who spent his days in the ancient Athenian marketplace asking awkward questions, disconcerting the people he met by showing them how little they genuinely understood. This engaging book introduces the great thinkers in Western philosophy and explores their most compelling ideas about the world and how best to live in it. In forty brief chapters, Nigel Warburton guides us on a chronological tour of the major ideas in the history of philosophy. He provides interesting and often quirky stories of the lives and deaths of thought-provoking philosophers from Socrates, who chose to die by hemlock poisoning rather than live on without the freedom to think for himself, to Peter Singer, who asks the disquieting philosophical and ethical questions that haunt our own times. Warburton not only makes philosophy accessible, he offers inspiration to think, argue, reason, and ask in the tradition of Socrates. A Little History of Philosophy presents the grand sweep of humanity's search for philosophical understanding and invites all to join in the discussion.

Perennial Seller Ryan Holiday 2017-07-18 The book that Inc. says "every entrepreneur should read" and an FT Book of the Month selection... How did the movie *The Shawshank Redemption* fail at the box office but go on to gross more than \$100 million as a cult classic? How did *The 48 Laws of Power* miss the bestseller lists for more than a decade and still sell more than a million copies? How is Iron Maiden still filling stadiums worldwide without radio or TV exposure forty years after the band was founded? Bestselling author and marketer Ryan Holiday calls such works and artists perennial sellers. How do they endure and thrive while most books, movies, songs, video games, and pieces of art disappear quickly after initial success? How can we create and market creative works that achieve longevity? Holiday explores this mystery by drawing on his extensive experience working with businesses and creators such as Google, American Apparel, and the author John Grisham, as well as his interviews with the minds behind some of the greatest perennial sellers of our time. His fascinating examples include: • Rick Rubin,

producer for Adele, Jay-Z, and the Red Hot Chili Peppers, who teaches his artists to push past short-term thinking and root their work in long-term inspiration. • Tim Ferriss, whose books have sold millions of copies, in part because he rigorously tests every element of his work to see what generates the strongest response. • Seinfeld, which managed to capture both the essence of the nineties and timeless themes to become a modern classic. • Harper Lee, who transformed a muddled manuscript into To Kill a Mockingbird with the help of the right editor and feedback. • Winston Churchill, Stefan Zweig, and Lady Gaga, who each learned the essential tenets of building a platform of loyal, dedicated supporters. Holiday reveals that the key to success for many perennial sellers is that their creators don't distinguish between the making and the marketing. The product's purpose and audience are in the creator's mind from day one. By thinking holistically about the relationship between their audience and their work, creators of all kinds improve the chances that their offerings will stand the test of time.

The Art of the Good Life Rolf Dobelli 2017-11-07 Since antiquity, people have been asking themselves what it means to live a good life. How should I live? What constitutes a good life? What's the role of fate? What's the role of money? Is leading a good life a question of mindset, or is it more about reaching your goals? Is it better to actively seek happiness or to avoid unhappiness? Each generation poses these questions anew, and somehow the answers are always fundamentally disappointing. Why? Because we're constantly searching for a single principle, a single tenet, a single rule. Yet this holy grail--a single, simple path to happiness--doesn't exist. Rolf Dobelli--successful businessman, founder of the TED-style ideas conference Zurich Minds, bestselling author, and all-around seeker of big ideas--has made finding a shortcut to happiness his life's mission. He's synthesized the leading thinkers and the latest science in happiness to find the best shortcuts to satisfaction in The Art of the Good Life, his follow up to the international bestseller The Art of Thinking Clearly (which has sold more than 2.5 million copies in 40 languages all around the globe). The Art of the Good Life is a toolkit designed for practical living. Here you'll find fifty-two happiness hacks--from guilt-free shunning of technology to gleefully paying your parking tickets--that are certain to optimize your happiness. These tips may not guarantee you a good life, but they'll give you a better chance (and that's all any of us can ask for).

After Merit Charles Raith II 2016-07-11 In this study Charles Raith II fills a gap in Reformation-era scholarship by analyzing Calvin's teaching on works and reward in light of medieval theological developments surrounding the doctrine of merit. While significant analysis has been given to Calvin's doctrine of justification, its relation to sanctification, the notion of union with Christ, and the role of participation, there is as yet no sustained analysis of how these teachings are shaped by the most hostile and pervasive of his polemics, namely, his confrontation with a merit-based framework for understanding Christian salvation. This volume, however, interprets Calvin's own theological constructions as contextually determined by the reigning polemics of his day. In addition, previous scholarship on these topics has largely failed to properly contextualize Calvin's own thought against the background of scholastic theological developments—developments that Calvin both accepts and rejects in the formulation of his own theology. *After Merit* addresses these gaps by (1) analyzing Calvin's tracts, scriptural commentaries and Institutes to demonstrate Calvin's unique disdain for the doctrine of merit among the early Reformers and the pervasiveness of this polemic within his theological program; (2) reviewing the scholastic developments surrounding the doctrine of merit from the High to Late Middle Ages as background to Calvin's thought; (3) highlighting Calvin's principle problems with the doctrine of merit: the competitive-causal schema between divine and human causality, merit as a basis for justification, and good works as "deserving" of reward; and (4) unpacking Calvin's theology of justification, sanctification, the worth of works, and the role of works in salvation as an alternative to the "opponents" doctrine of merit. The volume concludes by reflecting on the reception of Calvin's theology of works and reward in later Reformed thought.

The Lost Art of Connecting: The Gather, Ask, Do Method for Building Meaningful Business Relationships

Susan McPherson 2021-03-23 Uncover a new way to network and build relationships that last! Networking is often considered a necessary evil for all working professionals. With social media platforms like LinkedIn, Twitter, Instagram, and Facebook at our disposal, reaching potential investors or employers is much easier. Yet, these connections often feel transactional, agenda-driven, and dehumanizing, leaving professionals feeling burnt out and stressed out. Instead, we should connect on a human level and build authentic relationships beyond securing a new job or a new investor for your next big idea. To build real and meaningful networking contacts, we need to go back to basics, remembering that technology is a tool and not a means and end. We need to tap into our humanity and learn to be more intentional and authentic. As a “serial connector” and communications expert, Susan McPherson has a lifetime of experience building genuine connections in and out of work. Her methodology is broken down into three simple steps 1. Gather: Instead of waiting for the perfect networking opportunity to come to you, think outside the box and create your own opportunity. Host your own dinner party, join a local meet-up group, or volunteer at your neighborhood food pantry. Anyone from your local barista to a fellow parent at your daughter’s elementary school can lead to another connection that you just might need. 2. Ask: Instead of leading with our own rehearsed elevator pitches asking for help, ask to help, opening the door to share resources, experience, contacts, and perspectives that add diversity to your own vision. 3. Do: Turn new connections into meaningful relationships by taking these newly formed relationships deeper. Follow

through on the promises you made, keep in touch, and learn to move past small talk by embracing your vulnerability and having conversations that matter. Woven together with helpful tips and useful advice on making the most out of every step, the book draws on the real-life success stories of friends, and clients, as well as McPherson's own experience as a renowned "serial connector." Filled with humor, humility, and wisdom, *The Lost Art of Connecting* is the handbook we all need to foster personal and professional relationships that blur the lines between work and play—and enrich our lives in every way.

London's Polish Borders Michal P. Garapich 2016-07-26 The figure of the Polish plumber or builder has long been a well-established icon of the British national imagination, uncovering the UK's collective unease with immigration from Central and Eastern Europe. But despite the powerful impact the UK's second largest language group has had on their host country's culture and politics, very little is known about its members. This painstakingly researched book offers a broad perspective on Polish migrants in the UK, taking into account discursive actions, policies, family connections, transnational networks, and political engagement of the diaspora. Born out of a decade of ethnographic studies among various communities of Polish nationals living in London, Michal P. Garapich documents the changes affecting both Polish migrants and British society, offering insight into the inner tensions and struggles within what is often assumed to be a uniform and homogeneous category. From Polish financial sector workers to the Polish homeless population, this groundbreaking book provides a street-level account of cultural and social determinants of Polish migrants as they continually rework their relation to class and ethnicity.

The Autobiography of Eleanor Roosevelt Eleanor Roosevelt 2014-10-21 A candid and insightful look at an era and a life through the eyes of one of the most remarkable Americans of the twentieth century, First Lady and humanitarian Eleanor Roosevelt. The daughter of one of New York's most influential families, niece of Theodore Roosevelt, and wife of President Franklin Delano Roosevelt, Eleanor Roosevelt witnessed some of the most remarkable decades in modern history, as America transitioned from the Gilded Age, the Progressive Era, and the Depression to World War II and the Cold War. A champion of the downtrodden, Eleanor drew on her experience and used her role as First Lady to help those in need. Intimately involved in her husband's political life, from the governorship of New York to the White House, Eleanor would eventually become a powerful force of her own, heading women's organizations and youth movements, and battling for consumer rights, civil rights, and improved housing. In the years after FDR's death, this inspiring, controversial, and outspoken leader would become a U.N. Delegate, chairman of the Commission on Human Rights, a newspaper columnist, Democratic party activist, world-traveler, and diplomat devoted to the ideas of liberty and human rights. This single volume biography brings her into focus through her own words, illuminating the vanished world she grew up, her life with her political husband, and the post-war years when she worked to broaden cooperation and understanding at home and abroad. The Autobiography of Eleanor Roosevelt includes 16 pages of black-and-white photos.

A tool for self-assessment and transformation, answering these five questions will fundamentally change the way you work, helping you lead your organization to an exceptional level of performance. Peter Drucker's five questions are: What is our Mission? with Jim Collins Who is our Customer? with Phil Kotler What does the Customer Value? with Jim Kouzes What are our Results? with Judith Rodin What is our Plan? with V. Kasturi Rangan These essential questions, grounded in Peter Drucker's theories of management, will take readers on a exploration of organizational and personal self-discovery, giving them a means to assess how to be--how to develop quality, character, mind-set, values and courage. The questions lead to action. By asking these questions, readers can focus on why they are doing what they are doing in their work, and how to do it better. Designed for today's busy professionals, this brief, clear and accessible book will challenge readers to ask these provocative questions and it will stimulate spirited discussions and action within any organization, inspiring positive change and new levels of excellence, helping all to envision the future of theirs' or any organization.

Pleasure Activism adrienne maree brown 2019-03-19 How do we make social justice the most pleasurable human experience? How can we awaken within ourselves desires that make it impossible to settle for anything less than a fulfilling life? Editor adrienne maree brown finds the answer in something she calls "Pleasure Activism," a politics of healing and happiness that explodes the dour myth that changing the world is just another form of work. Drawing on the black feminist tradition, including Audre Lourde's invitation to use the erotic as power and Toni Cade Bambara's exhortation that we make the revolution irresistible, the contributors to this volume take up the challenge to rethink the ground rules of activism. Writers including Cara Page of the Astraea Lesbian Foundation For Justice, Sonya Renee Taylor, founder of This Body Is Not an Apology, and author Alexis Pauline Gumbs cover a wide array of

subjects—from sex work to climate change, from race and gender to sex and drugs—they create new narratives about how politics can feel good and how what feels good always has a complex politics of its own. Building on the success of her popular Emergent Strategy, brown launches a new series of the same name with this volume, bringing readers books that explore experimental, expansive, and innovative ways to meet the challenges that face our world today. Books that find the opportunity in every crisis!

Prosperity Without Greed Sahra Wagenknecht 2017-05-11 It is time to leave capitalism behind. We live in a system of economic feudalism that has nothing to do with a free market economy. The innovations we need for the solution of our truly important problems are not forthcoming. How can it be that technological developments financed by the taxpayer end up enriching private companies even if their activities violate public interests? We should reward talent and real performance and promote start-ups with good ideas. Based on a clear analysis and concrete proposals, Sahra Wagenknecht launches a discussion on new forms of ownership and sketches the outlines of an innovative and just economy.
