The Dumb House John Burnside 2010-12-15 As a child, Luke's mother often tells him the story of the Dumb House, an experiment on newborn babies raised in silence, designed to test the innateness of language. As Luke grows up, his interest in language and the delicate balance of life and death leads to amateur dissections of small animals – tiny hearts revealed still pumping, as life trickles away. But as an adult, following the death of his mother, Luke's obsession deepens, resulting in a haunting and bizarre experiment on Luke's own children.

Literature as Cultural Ecology Hubert Zapf 2016-04-21 Drawing on the latest debates in ecocritical theory and sustainability studies, *Literature as Cultural Ecology: Sustainable Texts* outlines a new approach to the reading of literary texts. Hubert Zapf considers the ways in which literature operates as a form of cultural ecology, using language, imagination and critique to challenge and transform cultural narratives of humanity's relationship to nature. In this way, the book demonstrates the important role that literature plays in creating a more sustainable way of life. Applying this approach to works by writers such as Emily Dickinson, Edgar Allan Poe, Herman Melville, William Faulkner, Toni Morrison, Zakes Mda, and Amitav Ghosh, *Literature as Cultural Ecology* is an essential contribution to the contemporary environmental humanities.

Mysterious illnesses affect the inhabitants of the post-industrial village of Innertown, and a pervasive sense of malaise hangs everywhere. So when teenage boys disappear into the poisoned woods surrounding the village's abandoned chemical plant, no one notices, or if they do, they don't say a thing. Not even the town's only cop, whose leads have long since died.
