Consuming Habits Jordan Goodman 2005-07-26 This pioneering collection of original essays explores the rich analytical category of psycho- active substances from challenging historical and anthropological perspectives. Psychoactive substances have been central to the formation of civilizations and the growth of the world economy. Consuming Habits describes how and why: tea and coffee replaced beer on the breakfast tables of 18th century Europe in Islamic emirates at the turn of the century kola nuts formed part of tax payments, and were given as gifts by so-called `big men' In 1902 opera singers had their doctors prescribe them cocaine to aid singing the original version of `coca-cola' was described as a `brain tonic.' This pioneering collection of original essays explores the rich analytical category of psychoactive

substances from challenging historical and anthropological perspectives.

The Fasting Cure Upton Sinclair 2008-07 Upton Sinclair was not only a prolific and much admired author, but also a follower of Bernarr MacFadden's Physical Culture movement (see his Physical Culture Cook Book, 1901) and a member of the editorial staff of Physical Culture Magazine. Dedicated to MacFadden, this 1911 volume advocates the benefits of systematic fasting in producing long-lasting health benefits.

The Baltic Origins of Homer's Epic Tales Felice Vinci 2005-12-20 Compelling evidence that the events of Homer's Iliad and Odyssey took place in the Baltic and not the Mediterranean • Reveals how a climate change forced the migration of a people and their myth to ancient Greece • Identifies the true geographic sites of Troy and Ithaca in the Baltic Sea and Calypso's Isle in the North Atlantic Ocean For years scholars have debated the incongruities in Homer's Iliad and Odyssey, given that his descriptions are at odds with the geography of the areas he purportedly describes. Inspired by Plutarch's remark that Calypso's Isle was only five days sailing from Britain, Felice Vinci convincingly argues that Homer's epic tales originated not in the Mediterranean, but in the northern Baltic Sea. Using meticulous geographical analysis, Vinci shows that many Homeric places, such as Troy and Ithaca, can still be identified in the geographic landscape of the Baltic. He explains how the dense, foggy weather described by Ulysses befits northern not Mediterranean climes, and how battles lasting through the night would easily have been possible in the long days of the Baltic summer. Vinci's meteorological analysis reveals how a decline of the "climatic optimum" caused the blond seafarers to migrate south to warmer climates, where they rebuilt their original world in the Mediterranean. Through many generations the memory of the heroic age and the feats performed by their ancestors in their lost homeland was preserved and handed down to the following ages, only later to be codified by Homer in the Iliad and the Odyssey. Felice Vinci offers a key to open many doors that allow us to consider the age-old question of the Indo-European diaspora and the origin of the Greek civilization from a new perspective.

111 Places in Birmingham That You Shouldn't Miss Ben Waddington 2021-10-21 * The ultimate insider's guide to Birmingham for locals and experienced travelers* Features interesting and unusual places not found in traditional travel guides* Part of the international 111 Places/111 Shops series with over 650 titles and 3.8 million copies in print worldwide* Appeals to both the local market (more than 1.1 million people call Birmingham home) and the tourist market (more than 41 million people visit Birmingham every year!)* Fully illustrated with 111 full-page color photographs>Welcome to Birmingham, a super-diverse city with an ever-shifting identity. This is the quiet medieval market town that overnight became the center of the industrial revolution, over the centuries rolling out leather wares, jewelry, steam engines, motor cars, fountain pens, gun smithery, toys, chocolate, heavy metal music and nanotechnology. The city's drive to successively reinvent itself as motor city, conference capital and shopping destination reflects that initial burst of energy. The result is a city of many layers, bold planning experiments, overlapping fragments and pockets of creative endeavor which can be tough to navigate without a guide. However, its many treasures coruscate more brilliantly for being lost. This book tells the story many would miss through the art, places, buildings, people and the dynamic mix of cultures that reveal the Birmingham

identity, from the smallest architectural details to epic civic structures. Only here can you chill on a bench with local heroes Black Sabbath, will you be greeted at the museum by the fallen angel Lucifer, chance upon a golden Burmese peace pagoda, time travel in the Shakespeare Library and find the world's oldest surviving instance of railway architecture.

Anthropogenic Pollution of Aquatic Ecosystems Donat-P. Häder 2021-09-30 This book provides examples of pollutants, such as accidental oil spills and non-degradable plastic debris, which affect marine organisms of all taxa. Terrestrial runoff washes large amounts of dissolved organic materials from agriculture and industry, toxic heavy metals, pharmaceuticals, and persistent organic pollutants which end up into rivers, coastal habitats, and open waters. While this book is not intended to encyclopaedically list all kinds of pollution, it rather exemplifies the problems by concentrating on a number of serious and prominent recent developments. The chapters in this book also discuss measures to decrease and remove aquatic pollution to mitigate the stress on aquatic organisms. Aquatic ecosystems provide a wide range of ecological and economical services. In addition to providing a large share of the staple diet for a fast growing human population, oceans absorb most of the anthropogenically emitted carbon dioxide and mitigate climate change. As well as rising temperatures and ocean acidification, pollution poses increasing problems for aquatic ecosystems and organisms reducing its functioning and services which are exposed to a plethora of stress factors.

Invisible Walls Hella Pick 2021-03-18 'Memoirs of such richness are rare . . . a joy' JAMES NAUGHTIE 'A remarkable personal journey, by one of the great political correspondents of our world - eloquent, enlightening, exhilarating' PHILIPPE SANDS A trailblazer for women in journalism, Hella Pick arrived in Britain in 1939 as a child refugee from Austria. Over nearly four decades she covered the volatile global scene, first in West Africa, followed by America and long periods in Europe. In her thirty-five years with the Guardian she reported on the end of Empire in West Africa, the assassination of President Kennedy, Martin Luther King's march from Selma to Montgomery, the Vietnam peace negotiation in Paris, the 1968 student revolt in France, the birth of the Solidarity movement in Poland, and the closing stages of the Cold War. A request for coffee on board a Soviet ship anchored in Malta led to a chat with Mikhail Gorbachev. A request for an interview with Willy Brandt led to a personal friendship that enabled her to come to terms with Germany's Nazi past. Her book is also a clarion call for preserving professionalism in journalism at a time when social media muddy the waters

between fact and fiction, and between reporting and commentary. **INVISIBLE WALLS** tells the dramatic story of how a Kindertransport survivor won the trust and sometimes the friendship of world leaders, and with them a wide range of remarkable men and women. It speaks frankly of personal heartache and of a struggle over her Jewish identity. It is also the intensely touching story of how, despite a gift for friendship and internationally recognised achievements as a woman journalist, a continuing sense of personal insecurity has confronted her with a series of invisible walls.

Frozen Tombs of Siberia Сергей Иванович Руденко 1970 Sergei Ivanovich Rudenko was a prominent Russian/Soviet anthropologist and archaeologist who discovered and excavated the most celebrated of Scythian burials, Pazyryk in Siberia. During the excavation of Pazyryk tombs, he discovered the world's most spectacular tattooed mummy said to belong to the Pazyryk Culture which flourished between the 7th and 3rd centuries BC. Herodotus and other ancient writers referred to the Altay as "the golden mountain". It was there that the impregnable citadel of the Scythians (or Sacae) lay hidden for centuries. Rudenko, however, was cautious enough not to assign his findings to the Scythians. He attributed the kurgan finds to the formidable Iron Age horsemen and warriors, whom he dubbed the "Pazyryks." Although they left no written records, Pazyryk artifacts are distinguished by a sophisticated level of artistry and craftsmanship. The Pazyryk tombs discovered by Rudenko were in an almost perfect state of preservation. They contained skeletons and intact bodies of horses and embalmed humans, together with a wealth of artifacts including saddles, riding gear, a chariot, rugs, clothing, jewelry, musical instruments, amulets, tools, and an "apparatus for inhaling hemp smoke." Also found in the tombs were fabrics from Persia and China, which the Pazyryks must have obtained on journeys covering thousands of miles.

Diseases of the Will Mariana Valverde 1998-10-28 While associated with comfort and pleasure, alcohol has been and is a 'problem' substance, both for medical and political authorities and for many drinkers. In this broad-ranging and innovative historical-sociological investigation, Valverde explores the ways in which both authorities and individual consumers have defined and managed the pleasures and dangers of alcoholic beverages. The author explores the question of free will versus determinism and how it has been challenged by ideas about addiction, morality and psychology during the last 150 years. The book draws on sources from the US, UK, Canada and elsewhere, and covers topics including nineteenth century 'dipsomania', the history of inebriate homes, Alcoholics Anonymous, fetal alcohol education and liquor control. It will appeal to readers in legal studies, criminology, sociology,

psychology, social theory and the history of medicine.

111 Places in Yorkshire That You Shouldn't Miss Ed Glinert 2021-10-21 * The ultimate insider's guide to Yorkshire for locals and experienced travelers* Features interesting and unusual places not found in traditional travel guides* Part of the international 111 Places/111 Shops series with over 650 titles and 3.8 million copies in print worldwide* Appeals to both the local market (more than 5.3 million people call Yorkshire home) and the tourist market (more than 1.3 million people visit Yorkshire every year!)* Fully illustrated with 111 full-page color photographsThey call Yorkshire God's own country. This is because England's biggest county is also England's most epic and most historically exciting. It has everything: unimaginably beautiful countryside, derelict castles, cliff-hugging coastlines, brutally bleak moors, quirkily quaint villages, wondrously winding waterways and industrial monsters of cities. Many of the most interesting episodes in English history have happened here: the Wars of the Roses, the English Civil War, the birth of the industrial revolution, the rise of the Labour movement. But when people think of Yorkshire they also think of the unusual and the unsung: Bettys delightful tea rooms, cricket at Scarborough, the windswept steps of Whitby Abbey, the steam railway of the Railway Children, Mother Shipton's Cave, and racing at Doncaster and York. Yorkshire has also given birth to some of the greatest and most talented figures in English history: Brian Clough, Harold Wilson, John Wycliffe, William Wilberforce, the Brontë Sisters, David Hockney and Barbara Hepworth.

Before the Door of God Jay Hopler 2015-10-27 This title traces the development of devotional English-language poetry from its origins in ancient hymnody to its current 21st-century incarnations. The poems in this volume demonstrate not only that devotional poetry - poetry that speaks to the divine - remains in vigorous practice, but also that the tradition reaches back to the very origins of poetry in English.

The Hunger Pastor (German Classics) Wilhelm Raabe 2015-01-07 Wilhelm Raabe's novel entitled *Der Hungerpastor* (1864) is a classic example of the so-called "poetic realism" to which many - primarily bourgeois - German writers were devoted between 1850 and 1890. --- Wilhelm Raabe (1831 - 1910) became famous following the publication of his first novel, *Die Chronik der Sperlingsgasse* (*The Sparrow Lane Chronicle*), in 1856. His late works are known for their social criticism, while earlier novels, such as *The Hunger Pastor*, were intended to be primarily educational. --- With the figure of Hans Unwirrsch in *The Hunger Pastor*, Raabe completely lives up to his motto - "Look up to the stars. Pay attention to the streets." The budding pastor, who was born into poverty, "hungers" for knowledge and a respected place in society, but he constantly stumbles over obstacles that his own life, as well as the lives of his family and friends, place before him. --- Raabe's rambling style makes his works difficult reading for many contemporary readers. In this version of *The Hunger Pastor*, several chapters have therefore been summarized by the translator, while the most important ones are published in their original length. --- Despite some anti-Semitic elements, which were commonly found in the works of some 19th century bourgeois writers in Germany, *The Hunger Pastor* is and remains a German literature classic.

Flesh of the Gods Peter T. Furst 1990

The Heart of Africa Georg August Schweinfurth 1878 Schweinfurth was a German botanist and ethnologist, sent in 1868 by the Humboldt-Stiftung of Berlin on "an important scientific mission to the interior of East Africa." He travelled from Khartoum up the White Nile to Bahr-el-Ghazal and then through the regions inhabited by the Diur, Dinka, Bongo and Niam-Niam peoples; "crossing the Congo-Nile watershed he entered the country of the Mangbetu ... and discovered the river Uele ... which by its westward flow he knew was independent of the Nile." This discovery was "his greatest geographical achievement." He also did much to elucidate the hydrography of the Bahr-el-Ghazal system. "Of greater importance were the very considerable additions he made to the knowledge of the inhabitants and of the flora and fauna of Central Africa. He described in detail the cannibalistic practices of the Mangbetu, and his discovery of the pygmy Akka settled conclusively the question as to the existence of dwarf races in tropical Africa."--Wikipedia.
