German Ecocriticism in the Anthropocene Caroline Schaumann 2017-04-18 This book offers essays on both canonical and non-canonical German-language texts and films, advancing ecocritical models for German Studies, and introducing environmental issues in German literature and film to a broader audience. This volume contextualizes the broad-ranging topics and authors in terms of the Anthropocene, beginning with Goethe and the Romantics and extending into twenty-first-century literature and film. Addressing the growing need for environmental awareness in an international humanities curriculum, this book complements ecocritical analyses emerging from North American and British studies with a specifically German Studies perspective, opening the door to a transnational understanding of how the environment plays an integral role in cultural, political, and economic issues.

Thief's Magic Trudi Canavan 2014-05-20 FORGET WHAT YOU KNOW ABOUT THE NATURE OF MAGIC. In a world where an industrial revolution is powered by magic, Tyen, a student of archaeology, unearths a sentient book called Vella. Once a young sorcerer-bookbinder, Vella was transformed into a useful tool by one of the greatest sorcerers of history. Since then she has been collecting information, including a vital clue to the disaster Tyen's world faces. Elsewhere, in a land ruled by the priests, Rielle the dyer's daughter has been taught that to use magic is to steal from the Angels. Yet she knows she has a talent for it, and that there is a corrupter in the city willing to teach her how to use it -- should she dare to risk the Angels' wrath. But not everything is as Tyen and Rielle have been raised to believe. Not the nature of magic, nor the laws of their lands... and not even the people they trust. AN EPIC NEW FANTASY ADVENTURE BEGINS.

Over a Thousand Hills I Walk with You Hanna Jansen 2014-08-01 Before one fateful April day, Jeanne lived the life of a typical Rwandan girl. She fought with her little sister, went to school, and teased her brother. Then, in one horrifying night, everything changed. Political troubles unleashed a torrent of violence upon the Tutsi ethnic group. Jeanne's family, all Tutsis, fled their home and tried desperately to reach safety. They—along with nearly 1 million others—did not survive. The only survivor of her family's massacre, Jeanne witnessed unspeakable acts. But through courage, wits, and sheer force of will, she survived. Based on a true story, this haunting novel by Jeanne's adoptive mother makes unforgettably real the events of the 1994 Rwandan genocide as one family experienced it. Jeanne's story is a tribute to the human spirit and its capacity to heal.

The Great Influenza John M. Barry 2005-10-04 #1 New York Times bestseller "Barry will teach you almost everything you need to know about one of the deadliest outbreaks in human history."—Bill Gates "Monumental... an authoritative and disturbing morality tale."—Chicago Tribune The strongest weapon against pandemic is the truth. Read why in the definitive account of the 1918 Flu Epidemic. Magisterial in its breadth of perspective and depth of research, *The Great Influenza* provides us with a precise and sobering model as we confront the epidemics looming on our own horizon. As Barry concludes, "The final lesson of 1918, a simple one yet one most difficult to execute, is that...those in authority must retain the public's trust. The way to do that is to distort nothing, to put the best face on nothing, to try to manipulate no one. Lincoln said that first, and best. A leader must make whatever horror exists concrete. Only then will people be able to break it apart." At the height of World War I, history's most lethal influenza virus erupted in an army camp in Kansas, moved east with American troops, then exploded, killing as many as 100 million people worldwide. It killed more people in twenty-four months than AIDS killed in twenty-four years, more in a year than the Black Death killed in a century. But this was not the Middle Ages, and 1918 marked the first collision of science and epidemic disease.

Thinking German Translation Margaret Rogers 2020-04-22 Thinking German Translation is a comprehensive practical course in translation for advanced undergraduate students of German and postgraduate students embarking on Master's translation programmes. Now in its third edition, this course focuses on translation as a decision-making process, covering all stages of the translation process from research, to the 'rewriting' of the source text in the language of translation, to the final revision process. This third edition brings the course up to date, referencing relevant research sources in Translation Studies and technological developments as appropriate, and balancing the coverage of subject matter with examples and varied exercises in a wide range of genres from both literary and specialised material. All chapters from the second edition have been extensively revised and, in many cases, restructured; new chapters have been added—literary translation; research and resources—as well as suggestions for further reading. Offering around 50 practical exercises, the course features material from a wide range of sources, including: business, economics and politics advertising, marketing and consumer texts tourism science and engineering modern literary texts and popular song the literary canon, including poetry A variety of translation issues are addressed, among them cultural differences, genre conventions, the difficult concept of equivalence, as well as some of the key differences between English and German linguistic and textual features. Thinking German Translation is essential reading for all students seriously interested in improving their translation skills. It is also an excellent foundation for those considering a career in translation. A Tutor's Handbook offers comments and notes on the exercises for each chapter, including not only translations but also a range of other tasks, as well as some specimen answers. It is

Technology and Vocational Education for Sustainable Development Margarita Pavlova 2008-12-14 Empowerment is the overarching idea used in this book. The term has a variety of meanings in different sociocultural and political contexts, including "self-strength, control, self-power, self-reliance, own choice, life of dignity in accordance with one's values, capable of fighting for one's rights, independence, own decision making, being free, awakening, and capability" (The World Bank, 2002, p. 10). However, the World Bank report observed that most definitions focus on issues of "gaining power and control over decisions and resources that determine the quality of one's life" (p. 10). This interpretation of empowerment provides a useful starting point for the development of the series of interconnected arguments explored here. Establishment of the basis for understanding, identifying and developing strategies through education necessary for individuals to be able to make choices that influence the quality of their lives is the main aim of this book. There are a number of assumptions and boundaries that frame this analysis. First, the book focuses on "agents"; however, empowerment is often conceptualised in terms of relationships between agency and structure (e. g. , Alsop, Bertelsen, & H- land, 2006). Agency could be defined as "an actor's or group's ability to make purposeful choices - that is, the actor is able to envisage and purposively choose options" (p. 11).

Wild Bird Wendelin Van Draanen 2017-09-05 From the award-winning author of *The Running Dream* and *Flipped* comes a remarkable portrait of a girl who has hit rock bottom but begins a climb back to herself at a wilderness survival camp. 3:47 a.m. That's when they come for Wren Clemmens. She's hustled out of her house and into a waiting car, then a plane, and then taken on a forced march into the desert. This is what happens to kids who've gone so far off the rails, their parents don't know what to do with them anymore. This is wilderness therapy camp. Eight weeks of survivalist camping in the desert. Eight weeks to turn your life around. Yeah, right. The Wren who arrives in the Utah desert is angry and bitter, and blaming everyone but herself. But angry can't put up a tent. And bitter won't start a fire. Wren's going to have to admit she needs

help if she's going to survive. "I read Wild Bird in one long mesmerized gulp. Wren will break your heart—and then mend it." —Nancy Werlin, National Book Award finalist for *The Rules of Survival* "Van Draanen's Wren is real and relatable, and readers will root for her." —VOYA, starred review

The Nimble Reader Roderick McGillis 1996 Practical criticism of three "classic" or soon-to-be-classic children's books - Maurice Sendak's *Where the Wild Things Are*, E. B. White's *Charlotte's Web*, and Chris Van Allsburg's *The Mysteries of Harris Burdick* - provides the substance of the *Nimble Reader*. McGillis employs these texts as well as others to explain the basic tenets and processes of criticism and to discuss criticism's usefulness in enhancing our understanding of children's literature. He skillfully balances theoretical discussions of various types of criticism - archetypal, psycho-analytical, political, structuralist, poststructuralist, reader response, and the New Criticism - with practical analysis of his primary texts and other works. With his engaging choice of texts, emphasis on practical criticism, and inclusion of bibliographies of both children's literature and works on literary theory and criticism, McGillis has succeeded in producing a dual-purpose volume: *The Nimble Reader* not only demonstrates a new approach to children's literature as a serious object of study but also represents one of the clearest presentations of literary theory published to date.

The Man in the Red Coat Julian Barnes 2020-02-18 From the Man Booker Prize-winning author of *The Sense of an Ending*—a rich, witty, revelatory tour of Belle Époque Paris, via the remarkable life story of the pioneering surgeon, Samuel Pozzi. In the summer of 1885, three Frenchmen arrived in London for a few days' intellectual shopping: a prince, a count, and a commoner with an Italian name. In time, each of these men would achieve a certain level of renown, but who were they then and what was the significance of their sojourn to England? Answering these questions, Julian Barnes unfurls the stories of their lives which play out against the backdrop of the Belle Époque in Paris. Our guide through this world is Samuel Pozzi, the society doctor, free-thinker and man of science with a famously complicated private life who was the subject of one of John Singer Sargent's greatest portraits. In this vivid tapestry of people (Henry James, Sarah Bernhardt, Oscar Wilde, Proust, James Whistler, among many others), place, and time, we see not merely an epoch of glamour and pleasure, but, surprisingly, one of violence, prejudice, and nativism—with more

parallels to our own age than we might imagine. *The Man in the Red Coat* is, at once, a fresh portrait of the Belle Époque; an illuminating look at the longstanding exchange of ideas between Britain and France; and a life of a man who lived passionately in the moment but whose ideas and achievements were far ahead of his time.
