Evaluation of the Curriculum Upgrading Program Gaudencia Achieng' Ndeda 2013 Gaudencia Ndeda shows how in 2005 the Government of Kenya launched the Sessional Paper No.1 on Policy Framework for Education, Training and Research which provided for the upgrading of the national polytechnics to offer degree programs in their areas of expertise without dropping their traditional tertiary programs. It therefore became necessary to upgrade the existing Diploma in Technology curricula offered in these institutions in order to make them compatible with global requirements of Technical, Vocational Education and Training (TVET) both at diploma and at degree levels. The Kenya Polytechnic University

College established a program to improve and upgrade the existing Diploma in Technology syllabi and to develop new degree syllabi to address the need to expand access to higher education, bridge the gap between science, technology, innovation and provide a way for diploma students to access higher education in their area of specialization. The book will help the lecturers and principals in high institutions for decision making in similar undertakings.

Differentiation and Articulation in Tertiary Education Systems Njuguna Ng'ethe 2008-01-01 This title explores an area of tertiary education that is currently understudied; this is the extent and nature of differentiation and articulation in African tertiary education systems. The overall finding is that the binary system is dominant, characterised by universities and polytechnics as distinct types of institutions. Differentiation is clearly evident in Africa. However, though varied in nature and extent, the differentiation is mostly horizontal as opposed to vertical. Articulation, on the other hand, seems to be in its infancy as some universities, in their admission requirements, d.

The Routledge Handbook of Tourism and Hospitality Education Dianne Dredge 2014-10-03 Tourism is much more than an economic sector, it is also a social, cultural, political, and environmental force that drives societal change. Understanding, responding to, and managing this change will inevitably require knowledge workers who are able to address a range of problems associated with tourism, travel, hospitality, and the increasingly complex operating environment within which they exist. The purpose of this Handbook is to provide an insightful and authoritative account of the various issues that are shaping the higher educational world of tourism, hospitality and events education and to highlight the creative, inventive and innovative ways that educators are responding to these issues. It takes as its central focus a dynamic curriculum space shaped by internal and external factors from global to local scales, a variety of values and perspectives contributed by a range of stakeholders, and shifting philosophies about education policy, pedagogy and teaching practice. A benchmark for future curriculum design and development, it critically reviews the development of conceptual and theoretical approaches to tourism and hospitality education. The Handbook is composed of contributions from specialists in the field, is interdisciplinary in coverage and international in scope through its authorship and content. Providing a systematic guide to the current state of knowledge on tourism and hospitality education and its future direction this is essential reading for students, researchers and academics in Tourism, Hospitality, Events, Recreation and Leisure Studies.

Capacity Building for a Reforming African Power Sector African Energy Policy Research Network 2002 Capacity building for the power sector is an important national responsibility, which Governments in Africa need to seriously address. The inability of Governments to mobilize the required level of investment and commitment to the development and retention of a wide array of skills needed by the power sector is, in part, responsible for many of the difficulties that are faced by the region's electricity industry. Under the aegis of the AFREPREN Capacity Building Theme Group, a regional study and four country studies (Zimbabwe, Mauritius, Ethiopia and South Africa) addressed the capacity building question in the African power sector. This volume presents the findings of the studies. The studies analyse issues of manpower recruitment, training and retention in national power utilities. They also highlight the challenges and implications of capacity building initiatives in a reforming electricity industry and propose innovative options for capacity building in the region's power sector.

A Comparative Analysis of Higher Education Systems 2014-01-01 "This is a well crafted, timely book that comes at a time when so much is happening in higher education contexts across the world. Clearly, it is in response to these global (and selectively local) trends that Kariwo, Gounko and Nungu bring together an impressive lineup of both established and emerging scholars who achieve a comprehensive and critically constructed perspective on tertiary education systems. Collectively, the chapters in this work shall expand the epistemic boundaries of the area and its affiliated disciplines, and the book as a whole will greatly benefit interested scholars, students, education policy makers and the public at large.
