Civilizing Security Ian Loader 2007-04-19 Security has become a defining feature of contemporary public discourse, permeating the so-called 'war on terror', problems of everyday crime and disorder, the reconstruction of 'weak' or 'failed' states and the dramatic renaissance of the private security industry. But what does it mean for individuals to be secure, and what is the relationship between security and the practices of the modern state? In this timely and important book, Ian Loader and Neil Walker outline and defend the view that security remains a valuable public good. They argue that the state is indispensable to the task of fostering and sustaining liveable political communities in the contemporary world and thus pivotal to the project of civilizing security. This is a major contribution by two leading scholars in the field and will be of interest to anyone wishing to deepen their understanding of one the most significant and pressing issues of our times.

Deceived by the New Age Will Baron 1990 When the dazzlish spirit-being appeared to him during his morning meditation, Will Baron thought it was Jesus Christ. He was wrong. Deceived by the New Age is unlike any book you've read about the New Age movement. It is the chilling firsthand account of Will

Baron's life as a New Age Priest. Of shocking encounters with a false Jesus. And of a master plot to infiltrate Christian Churches with "another gospel". More than a testimonial, Deceived is an urgent warning to Christians that the "Mastermind" behind this movement is preparing to unleash the greatest deception ever to confront humankind. Currently residing in southern California, Will Baron believes his mission is to warn people of New Age philosophies and practices that are beginning to infiltrate Christianity. His story has been aired on more than 800 radio stations through syndicated talk shows, numerous televised interview programs, and on Pat Robertson's "700 Club." - Introduction. The New Age Enticement of Christians. Seduced by Psychic Power. Learning the Art of Channeling. The Higher Self Takes Control. The Master Appears. Discipleship to a Spirit Guide. Taken to the Limit. The Stories of Vladimir Nabokov Vladimir Nabokov 2011-02-16 From the writer who shocked and delighted the world with his novels *Lolita*, *Pale Fire*, and *Invitation of a Small Creature*, and so many others, comes a magnificent collection of stories. Written between the 1920s and 1950s, these sixty-five tales--eleven of which have been translated into English for the first time--display all the shades of Nabokov's imagination. They range from sprightly fables to bittersweet tales of loss, from claustrophobic exercises in horror to a connoisseur's samplings of the table of human folly. Read as a whole, *The Stories of Vladimir Nabokov* offers an intoxicating draft of the master's genius, his devious wit, and his ability to turn language into an instrument of ecstasy.

Resetting the Stage Dragan Klaić 2012 Commercial theater is thriving across Europe and the UK, while public theater has suffered under changing patterns of cultural consumption—as well as sharp reductions in government subsidies for the arts. At a time when the rationale behind these subsidies is being widely reexamined, it has never been more important for public theater to demonstrate its continued merit. In *Resetting the Stage*, Dragan Klaić argues convincingly that, in an increasingly crowded market of cultural goods, public theater is best served not by imitating its much larger commercial counterpart, but by asserting its artistic distinctiveness and the considerable benefit this confers on the public.

Voices in the Shadows Celia Hawkesworth 1999-09-01 Women are conspicuously absent from traditional cultural histories of south-east Europe. This book addresses that imbalance by describing the contribution of women to literary culture in the Orthodox/ Ottoman areas of Serbia and Bosnia. The first complete literary history in relation to women's writing in south-east Europe. The author provides a broad chronological account of this contribution, dividing the book into two main parts; the earlier period up until the eighteenth century concentrates on the projections of gender through the medium of oral tradition and the lives of a handful of educated women in medieval Serbia and the few works of literature they left. Hawkesworth also looks at the written literature produced by women, first in the mid-nineteenth century and then at the turn of the century. The second part focuses on the trials and tribulations that affected feminism and women's literature throughout the twentieth century. The

author finishes by highlighting the new women's movement, 1975-1990, a great period for women in Yugoslavia which created a stimulating atmosphere for outstanding pieces of women's journalism, prose and verse, culminating in the creation of new women's studies courses in many universities.

The Myth of Ethnic War V. P. Gagnon, Jr. 2013-05-15 "The wars in Bosnia-Herzegovina and in neighboring Croatia and Kosovo grabbed the attention of the western world not only because of their ferocity and their geographic location, but also because of their timing. This violence erupted at the exact moment when the cold war confrontation was drawing to a close, when westerners were claiming their liberal values as triumphant, in a country that had only a few years earlier been seen as very well placed to join the west. In trying to account for this outburst, most western journalists, academics, and policymakers have resorted to the language of the premodern: tribalism, ethnic hatreds, cultural inadequacy, irrationality; in short, the Balkans as the antithesis of the modern west. Yet one of the most striking aspects of the wars in Yugoslavia is the extent to which the images purveyed in the western press and in much of the academic literature are so at odds with evidence from on the ground."—from *The Myth of Ethnic War* V. P. Gagnon Jr. believes that the Yugoslav wars of the 1990s were reactionary moves designed to thwart populations that were threatening the existing structures of political and economic power. He begins with facts at odds with the essentialist view of ethnic identity, such as high intermarriage rates and the very high percentage of draft-resisters. These statistics do not comport comfortably with the notion that these wars were the result of ancient blood hatreds or of nationalist leaders using ethnicity to mobilize people into conflict. Yugoslavia in the late 1980s was, in Gagnon's view, on the verge of large-scale sociopolitical and economic change. He shows that political and economic elites in Belgrade and Zagreb first created and then manipulated violent conflict along ethnic lines as a way to short-circuit the dynamics of political change. This strategy of violence was thus a means for these threatened elites to demobilize the population. Gagnon's noteworthy and rather controversial argument provides us with a substantially new way of understanding the politics of ethnicity.

The Time of the Goats Luan Starova 2012-12-17 It's the late 1940s in Skopje, Yugoslavia, in the critical year leading to Tito's break with Stalin. Pushed to leave mountain villages to become the new proletariat in urban factories, a flood of peasants crowds into Skopje—and with them, all of their goats. Suffering from hunger, Skopje's citizens welcome the newcomers. But municipal leaders are faced with a dilemma when the central government issues an order calling for the slaughter of the country's goat population. With food so scarce, will they hide the outlawed animals? Or will they comply with the edict and endure the bite of hunger? *The Time of the Goats* is the second novel in Luan Starova's acclaimed multivolume Balkan saga. It follows the main characters from *My Father's Books* and the tragicomic events of their lives in Skopje as the narrator's intellectual father and the head goatherd become friends. As local officials clumsily carry out absurd policies, Starova conveys the bonds of understanding and mutual support that form in Skopje's poorest neighborhoods. At once historical and allegorical, folkloric and fantastic, *The Time of the Goats* draws lyrically on Starova's own childhood.

Shards Ismet Prcic 2011-10-04 A New York Times Notable Book. "Brilliant . . . With verbal glee, Prcic serves up a darkly comic vision of the terrors and misunderstandings of immigration" (Shelf Awareness). Ismet Prcic's brilliant, provocative, and energetic debut novel is about a young Bosnian, also named Ismet Prcic, who has fled his war-torn homeland and is now struggling to reconcile his past with his present life in California. He is advised that in order to make peace with the corrosive guilt he harbors over leaving his family behind, he must "write everything." The result is a great rattlebag of memories, confessions, and fictions: sweetly humorous recollections of Ismet's childhood in Tuzla appear alongside anguished letters to his mother about the challenges of life in this new world. As Ismet's foothold in the present falls away, his writings are further complicated by stories from the point of view of another young man—real or imagined—named Mustafa, who joined a troop of elite soldiers and stayed in Bosnia to fight. When Mustafa's story begins to overshadow Ismet's new-world identity, the reader is charged with piecing together the fragments of a life that has become eerily unrecognizable, even to the one living it. *Shards* is a thrilling read—a harrowing war story, a stunningly inventive coming of age, and a heartbreaking saga of a splintered family. "Fierce, funny and real, it also says much about war, exile, guilt and fear." —Chicago Sun-Times, Favorite Books of 2011

Alain Badiou: Live Theory Oliver Feltham 2008-06-26 Alain Badiou is undoubtedly the most exciting and influential voice in contemporary French philosophy and one of the most important theorists at work today. His impact on continental philosophy and the wider philosophy community, politics and the arts in the last twenty years has been immense. *Alain Badiou: Live Theory* offers a concise and accessible introduction to his work and thought, laying out the central themes of his major works, including his magnum opus, *Being and Event*, and its long-awaited sequel, *Logics of Worlds*. Oliver Feltham explores the fundamental questions through which Badiou's philosophy constantly evolves, identifies the key turning points in his ideas, and makes a clear case for the coherence and powerful singularity of his thought when employed in the analysis of political and artistic situations. Feltham examines the thinkers and theorists with whom Badiou has engaged and who have engaged with him, arguing that Badiou's work is compelling precisely because it opens up new genealogies and new polemics in the intellectual landscape. The book includes a brand new interview with Badiou, in which he discusses his current concerns and future plans. This is the ideal companion to study for students and readers encountering this fascinating thinker for the first time.

The New Heidegger Miguel de Beistegui 2005-09-01 Martin Heidegger's work is pivotal in the history of modern European philosophy. *The New Heidegger* presents a comprehensive and stimulating overview of, and introduction to, the work of one of the most influential and controversial philosophers of our time. Heidegger has had an extraordinary impact on contemporary philosophical and extra-philosophical life: on deconstruction, hermeneutics, ontology, technology and techno-science, art and architecture, politics, psychotherapy, and ecology. *The New Heidegger* takes a thematic approach to Heidegger's work, covering not only the seminal *Being and Time*, but also Heidegger's lesser known works. Lively, clear and succinct, the book requires no prior knowledge of Heidegger and is an essential resource for anyone studying or teaching the work of this major modern philosopher.

Economic Analysis of Institutions and Systems S. Pejovich 2012-12-06 In the late 1980s, the field of comparative economics and NATO faced a similar problem: the threat of obsolescence. A predictable reaction of those who had made major investments in both comparative economics and NATO was to look for a new job. It was time to say: comparative economic systems are dead, long live comparative economic systems. The purpose of this book is to redirect study of what we called comparative economic systems toward analysis of the development of institutions and the effects of alternative institutional arrangements on economic performance. To that end, the book internalizes into a theoretical framework (1) the effects of alternative property rights on the costs of transactions and incentives structures, (2) the effects of the costs of transactions and incentives on economic behavior, and (3) the evidence for refutable implications of those effects. Analysis here focuses on the issues, propositions and conclusions that lend themselves to the only known scientific test: empirical verification. Thus, this book is not about what socialism or capitalism could have been, should have

been, or should be. Nor is it an ode to capitalism. Its purpose is not to assert that capitalism is a better economic system than socialism. The history of this century and the market for institutions have done that. My purpose is to explain what is it that makes the institutions of capitalism better in terms of economic outcome than all other alternatives that have been tried since the beginning of recorded history.

Balkan Family Structure and the European Pattern Maria N. Todorova 2006-05-10 This study, which is an updated, extended, and revised version of the out-of-print 1993 edition, reassesses the traditional stereotype of the place of the Balkans in the model of the European family in the nineteenth century on the basis of new source material and by synthesizing existing research. The work first analyzes family structure and demographic variables as they appear in population registers and other sources, and the impact of these findings on theoretical syntheses of the European family pattern. On most features, such as population structure, marriage and nuptiality, birth and fertility, death and mortality rates, family and household size and structure, as well as inheritance patterns, the Balkans show an enormous deal of internal variety. This variability is put in a comparative European context by matching the quantifiable results with comparable figures and patterns in other parts of Europe. The second section of the book is a contribution to the long-standing debate over the *zadruga*, the complex, collective, joint or extended family in the Balkans. Finally, the book considers ideology and mythology and the ways it has adversely affected scholarship on the family, and broadly on population history.

Spring in Fialta Vladimir Nabokov 2014-03-06 'Spring in Fialta is cloudy and dull'. With his senses wide open, Victor wanders the streets. He meets Nina. Again. For fifteen years, their fleeting, chance encounters have made Nina a faint but constant presence in the margins of his life. As they happen upon one another once again, his mind wanders back into the past and relives each brief memory: their kiss in Russia, when she met his wife, when he met her husband, their affair in Paris. Each time she captivated him, each time she seemed to almost forget him, each time he noticed a lurking sense of apprehension that began to grow.

Women's Emancipation Movements in the Nineteenth Century Sylvia Paletschek 2005-11-14 The nineteenth century, a time of far-reaching cultural, political, and socio-economic transformation in Europe, brought about fundamental changes in the role of women. Women achieved this by fighting for their rights in the legal, economic, and political spheres. In the various parts of Europe, this process went forward at a different pace and followed different patterns. Most historical research up to now has ignored this diversity, preferring to focus on women's emancipation movements in major western European countries such as Britain and France. The present volume provides a broader context to the movement by including countries both large and small from all regions of Europe. Fourteen historians, all of them specialists in women's history, examine the origins and development of women's emancipation movements in their respective areas of expertise. By exploring the cultural and political diversity of nineteenth-century Europe and at the same time pointing out connections to questions explored by conventional scholarship, the essays shed new light on common developments and problems.

Histories of Archaeology Tim Murray 2008-09-04 In recent years there has been an upsurge of interest in the history of the discipline of archaeology. Local, national, and international histories of archaeology that deal with institutions, concepts, categories, and the social and political contexts of archaeological practice have begun to influence the development of archaeological theory. This volume contributes to these developments by reprinting 19 significant papers. Spanning much of the last 200 years and global in coverage and outlook, the papers provide a thorough grounding in the historiography of archaeology, and will enhance understanding of the origins and growth of its theory and practice. A general introduction which is itself a contribution to historiography orients readers by outlining core themes and issues in the field.
