[The Jews in Australia](#) Suzanne D. Rutland 2006-01-23 Jews form only a tiny proportion of the Australian population, yet they have made outstanding contributions and have influenced Australian society immeasurably. Stories such as that of Sir John Monash, Australian commander-in-chief during World War I, whose legacy continues through Monash University, show how Jews have reached the highest echelons of Australian society. The Jews in Australia explores what makes the Australian Jewish community different from other Jewish communities around the world. It traces the community's history from its convict origins in 1788 through to today's vibrant Jewish culture in Australia, and highlights the

social and cultural impact the Jews have had on Australia. As well as looking at the emergence of a specific faith tradition in Australia, the book also explores how Jews, as Australia's first ethnic group, have integrated into multicultural Australia.

The One Of Hearts Michael Mathiesen 2021-06-05 When I look around at the world, I see events that are strikingly obvious should not be happening. There are so many crazy people, ideas, concepts and events going on right now all over the world at a time when we have to be rational and objective so that we can take ourselves out of the rush to extinction that all of these crazy people are sending us. I concluded we must, therefore, be in the Bizarro Universe. I started to think about the events in my life that made it change from a perfectly 'Normal' life, to the one I am sharing with all of you and realized that somewhere along the line, probably when I lost the love of my life, through no fault of my own, that this was the turning point and it propelled me into this 'Bizarro Universe'. The more I thought about it, the more the book you are about to read came into focus for me. I had studied lots of Quantum Physics and Astronomy in my life, so I came up with this theory you are about to learn about here. The biggest piece of evidence, was when I realized that in a standard deck of playing cards there are no 'ONES'. They all start from the 'TWOs'. Why is that? I pondered and then realized that it's just exactly what you would expect in this Bizarre Universe, the NON RATIONAL ONE, the one we are all forced into by bad events in our lives. This, of course, would mean that there is also another universe out there, where my twin and your twin are living in which everything is correct, happy and the planet is not threatened with Extinction because everyone is doing the right things to reduce their carbon footprint, reduce crime, reduce political unrest, social injustice, etc. This made me realize that there must be bridges between the 'Good Universe', the one we were all meant for and the 'Bad Universe' otherwise how would we get here. Then, these bridges took shape in the form of the DNA Molecule. The rest, you'll have to read about and ponder because right now, since you are living in the 'Bad Universe', the Bizarro Universe, you probably think all of this is crazy talk. But, in the universe where your twin is living a much more elevated type of life, your twin thinks this book is sheer genius and I've already won the Nobel Prize for it. In this irrational and strange universe - never.
