**Tooth and Claw** T. C. Boyle 2011-07-01 This new collection of short stories from T.C. Boyle finds him at his mercurial best. Inventive, wickedly funny, sometimes disturbing, these are stories about drop-outs, deadbeats and kooks. Take the man who shares his apartment with a wildcat won in a drunken bet; the drive-time shock jock hallucinating from sleep deprivation for a publicity stunt; the suburban woman who joins a pack of dogs, eating rabbits and baying at the moon. With a unique deftness of touch and a keen eye for the telling detail, Boyle has mapped the strange underworld of America.

**Body, Self, and Society** Anne E. Becker 2013-11-25 Anne E. Becker examines the cultural context of the embodied self through her ethnography of bodily aesthetics, food exchange, care, and social relationships in Fiji. She contrasts the cultivation of the body/self in Fijian and American society, arguing that the motivation of Americans to work on their bodies' shapes as a personal endeavor is permitted by their notion that the self is individuated and autonomous. On the other hand, because Fijians concern themselves with the cultivation of social relationships largely expressed through nurturing and food exchange, there is a vested interest in cultivating others' bodies rather than one's own.

Thou Shalt Not Be Aware Alice Miller 1998-10-15 Originally published in 1984, *Thou Shalt Not Be Aware* explodes Freud's notions of "infantile sexuality" and helps to bring to the world's attention the brutal reality of child abuse, changing forever our thoughts of "traditional" methods of child-rearing. Dr. Miller exposes the harsh truths behind children's "fantasies" by examining case histories, works of literature, dreams, and the lives of such people as Franz Kafka, Virginia Woolf, Gustave Flaubert, and Samuel Beckett. Now with a new preface by Lloyd de Mause and a new introduction by the author, *Thou Shalt Not Be Aware* continues to bring an essential understanding to the confrontation and treatment of the devastating effects of child abuse.

**Angel Fury** Ella Summers 2020-02-06 Cadence Lightbringer, daughter of a legendary archangel, has always known her gods-endowed magic comes with a price. As an angel in the Legion of Angels, she lives where the Legion commands her to live, trains how the Legion tells her to train, and marries whom the Legion instructs her to marry. Somehow it all sounded simpler in her head. When Cadence is ordered to marry the enigmatic angel Damiel Dragonsire, a man she hardly knows, her whole perfect, predictable life is turned upside down. The wedding, however, is cut short by a dark threat that throws Cadence and Damiel into a world of magic as ancient and deadly as the original Immortals, powerful deities who once ruled the entire known universe. *Angel Fury* is the second book in the *Immortal Legacy* series.

Neuropsychedelica Nicolas Langlitz 2013 *Neuropsychedelica* examines the revival of psychedelic science since the "Decade of the Brain." After the breakdown of this previously prospering area of psychopharmacology, and in the wake of clashes between counterculture and establishment in the late 1960s, a new generation of hallucinogen researchers used the hype around the neurosciences in the 1990s to bring psychedelics back into the mainstream of science and society. This book is based on anthropological fieldwork and philosophical reflections on life and work in two laboratories that have played key roles in this development: a human lab in Switzerland and an animal lab in California. It sheds light on the central transnational axis of the resurgence connecting American psychedelic culture with the home country of LSD. In the borderland of science and religion, *Neuropsychedelica* explores the tensions between the use of hallucinogens to model psychoses and to evoke spiritual experiences in laboratory settings. Its protagonists, including the anthropologist himself, struggle to find a place for the mystical under conditions of late-modern materialism.

James, a radical outsider arguing socialism with anyone who would listen and he ended it in his eighties, writing passionately about the agony of rioting in the streets, war in Asia, and the collapse of a presidency. In between he lived through two world wars, and a depression that shook the foundations of American capitalism. Walter Lippmann (1889-1974) has been hailed as the greatest journalist of his age. For more than sixty years he exerted unprecedented influence on American public opinion through his writing, especially his famous newspaper column "Today and Tomorrow." Beginning with *The New Republic* in the halcyon days prior to Woodrow Wilson and the First World War, millions of Americans gradually came to rely on Lippmann to comprehend the vital issues of the day. In this absorbing biography, Ronald Steel meticulously documents the philosophers and politics, the friendships and quarrels, the trials and triumphs of this man who for six decades stood at the center of American political life. Lippmann's experience spanned a period when the American empire was born, matured, and began to wane, a time some have called "the American Century." No one better captured its possibilities and wrote about them so wisely and so well, no one was more the mind, the voice, and the conscience of that era than Walter Lippmann: journalist, moralist, public philosopher.

**Goethe and World Literature** Fritz Strich 2013-10 This is a new release of the original 1949 edition.

*Aesthetics of Religion* Alexandra K. Grieser 2017-12-18 This volume is the first English language presentation of the innovative approaches developed in the aesthetics of religion. The chapters present diverse material and detailed analysis on descriptive, methodological and theoretical concepts that together explore the potential of an aesthetic approach for investigating religion as a sensory and mediated practice. In dialogue with, yet different from, other major movements in the field (material culture, anthropology of the senses, for instance), it is the specific intent of this approach to create a framework for understanding the interplay between sensory, cognitive and socio-cultural aspects of world-construction. The volume demonstrates that aesthetics, as a theory of sensory knowledge, offers an elaborate repertoire of concepts that can help to understand religious traditions. These approaches take into account contemporary developments in scientific theories of perception, neuro-aesthetics and cultural studies, highlighting the socio-cultural and political context informing how humans perceive themselves and the world around them. Developing since the 1990s, the aesthetic approach has responded to debates in the study of religion, in particular striving to overcome biased categories that confined religion either to texts and abstract beliefs, or to an indisputable *sui generis* mode of experience. This volume documents what has been achieved to date, its significance for the study of religion and for interdisciplinary scholarship.

*The Motherhood Constellation* Daniel N. Stern 2018-02-10 The author addresses the field of infant mental health. He draws on his experience - in both the lab and the clinic - to present an integrated model of treatment for both infants and their parents.

**Writing on Drugs** Sadie Plant 2001-07-06 Through a series of close, fascinating examinations of writing on drugs via, among others, Coleridge on opium, Freud on cocaine, Michaux on mescaline, and Burroughs on all of them, *Writing on Drugs* combines literary criticism with both socio-cultural history and pharmacological science to show how and why drugs have so thoroughly invaded modernity in ways precise and various, profound and unique. Right or wrong, safe or dangerous, Plant illustrates that narcotics, stimulants, and hallucinogens have actually been integral to the cultural life of modern times. They have shaped some of the era's most fundamental philosophies and provided much of its economic wealth. They have even exposed the neurochemistry of the human brain, which, like society itself, has never been drug-free. *Writing on Drugs* fully and compellingly explores the pervasive and ongoing influence of drugs on contemporary thought, word, and deed.

*The Defector* Monika Maron 1988 Rosalind, an historian, discovers one day that her body will no longer allow her to go to work and that she no longer needs to eat or sleep.

Its multi-faceted purpose is not only the portrayal of two extraordinary individuals and a critique of the economic and revolutionary forces they represented, but a documentary play of one of the most colorful and disturbing eras of modern Western society.

**?Ewako?oma Ohci Paskw?awi-mostos K?a-kist?eyimiht** Judith Silverthorne 2015-02 "A long time ago, Our People came from the Northern Woodlands to the Great Plains looking for food," Grandfather said. "They saw that the Buffalo lived in harmony with Mother Earth the same as Our People did." Through the Creator, the buffalo gave themselves as a gift for the sustenance and survival of the Plains Cree people. The largest land animal in North America once thundered across the Great Plains in numbers of 30 to 50 million. They provided shelter, food, clothing, tools, hunting gear, ceremonial objects and many other necessities for those who lived on the Plains. But by 1889, just over a thousand buffalo remained, and the lives of the Plains Cree people changed. The buffalo is honoured to this day, a reminder of life in harmony with nature as it was once lived. This is the story of how the buffalo came to share themselves so freely.

*Themba* Lutz van Dijk 2011-10-31 A hard-hitting, and emotional story set in South Africa, following Themba and his dreams of becoming a famous footballer. Themba grows up dreaming of becoming a football star. One day he leaves the village and travels with his sister to the city in search of their mother. Life is a struggle and Themba has to grow up fast. A lucky break gives him the chance to train as a footballer and play professionally - but Themba has a secret - should he tell the truth about his HIV and risk everything he's ever dreamed of? ~ Themba won an IBBY award - Best Book for Young People. Karin Chubb was Shortlisted for the Marsh Award for Children's Literature in Translation for Themba, a unique award celebrating the high quality and diversity of translated fiction for young readers. The book was also made into an award-winning film. "Beautifully translated from the original ... it is a book full of hope and the more young people who read books like this and who come to understand how other young

children live, the more this hope will spread.” Books, Teens and Magazines “Themba reminds me of my own childhood and youth in a township close to a small village in the Transvaal in South Africa: Like him I wanted to escape poverty, like him I had the hope that our world will be a just world one day – and like him I loved my mother who was working at the time as a maid for a white family. To be very honest: in soccer Themba seems to be simply better than I was.” Archbishop Desmond Tutu “READ OF THE MONTH” Pride magazine “...an inspirational coming of age drama about a young South African boy’s escape from poverty and the pursuit of a dream.” Spring online “It’s a rags to riches story – a story of hope, of dreaming your dreams and achieving them, and it’s also a story of friendship...” The Sunday Independent “It’s a really engaging book, and because Aids is a serious issue, it made us want to carry on reading more about it.” Durning Library teenage reading group “Beautifully translated from the original and it is an easy and straightforward read. However, the storyline is tough – poverty, AIDS and death haunt the pages of the book. The reader learns about the hardship of life for many ordinary South Africans (even after Mandela came to power) and the struggle for those families who have a family member suffering from AIDS. The problems they face do not lie solely in a lack of medication and good nutrition; it also lies in the ignorance of their neighbours and friends and a refusal of many to acknowledge the illness and help the ill. However this is not a depressing book – it is a book full of hope and the more young people who read books like this and who come to understand how other young children live, the more this hope will spread.” Books, Teens and Magazines

**The Kitab Al-Luma Fi 'I-Tasawwuf** Abu Nasr Abdallah al-Tusi 2016-06-07 This volume marks a further step in the tedious but indispensable task, on which I have long been engaged, of providing materials for a history of Sufism, and more especially for the study of its development in the oldest period, beginning with the second and ending with the fourth century of Islam. A list of the titles known to us of mystical books written during these three hundred years would occupy several pages, but the books themselves have mostly perished, although the surviving remnant includes some important works on various branches of Sufistic theory and practice by leaders of the movement. IMPORTANT NOTE: This is a facsimile reprint of the original. The document has been tailored for better presentation however it may contain imperfections such as marks, notations, marginalia and flawed pages. Please visit our website or contact us at Ihya Press if you would like to see the document before purchase.

*The Road of Excess* Marcus Boon 2005-03-15 From the antiquity of Homer to yesterday's Naked Lunch, writers have found inspiration, and readers have lost themselves, in a world of the imagination tinged and oftentimes transformed by drugs. The age-old association of literature and drugs receives its first comprehensive treatment in this far-reaching work. Drawing on history, science, biography, literary analysis, and ethnography, Marcus Boon shows that the concept of drugs is fundamentally interdisciplinary, and reveals how different sets of connections between disciplines configure each drug's unique history. In chapters on opiates, anesthetics, cannabis, stimulants, and psychedelics, Boon traces the history of the relationship between writers and specific drugs, and between these drugs and literary and philosophical traditions. With reference to the usual suspects from De Quincey to Freud to Irvine Welsh and with revelations about others such as Milton, Voltaire, Thoreau, and Sartre, *The Road of Excess* provides a novel and persuasive characterization of the "effects" of each class of drug--linking narcotic addiction to Gnostic spirituality, stimulant use to writing machines, anesthesia to transcendental philosophy, and psychedelics to the problem of the imaginary itself. Creating a vast network of texts, personalities, and chemicals, the book reveals the ways in which minute shifts among these elements have resulted in "drugs" and "literature" as we conceive of them today.

*My Father's Country* Wibke Bruhns 2009-08-11 A huge bestseller in Germany for over a year, *My Father's Country* offers extraordinarily moving and riveting insight into the experience of being German in the last century. On August 26, 1944, Hans Georg Klamroth, officer in the German army and member of the SS, was executed for high treason for his participation in the July 1944 plot to assassinate Hitler. *My Father's Country* is the extraordinary work of Klamroth's daughter, Wibke, born only six years before her father's death. Decades later, Bruhns was watching a TV documentary about the events of July 1944 when images of her father in the court room suddenly appeared on screen. "I stare at this man with the empty face. I don't know him. But I can see myself in him — his eyes are my eyes; I know I resemble him. I know I wouldn't be here without him. And what do I know about him? Nothing at all." Based on an extensive collection of family letters, private diaries, photographs and even menus, *My Father's Country* traces Wibke Bruhns' father's, and more widely, her well-to-do merchant family's, life in the Germany of the late nineteenth and early twentieth centuries. With it, Bruhns not only brings to life the nuances of this world — its culture and its assumptions, politics and beliefs — but also comes to know, finally, the mysterious father she barely remembers.
