Nidors (2) Colin Lee Marshall 2018 "Nidors (2) arrives both as a discrete text and as the second entry in a lopsided trilogy. The 'poems' herein sprang their specious little helices from the rebuke for which they were built. However, something of the swarf has escaped via negative poetotaxis and is ready to interrogate the masters in its meat. How will poetry work out its particular roboclasm under the climate of the internet? Skim the phytoplankton of this eutrophic milkshake and leave your notes!"-- back cover.

The Skills of Helping Individuals, Families, Groups, and Communities Lawrence Shulman 2008-02-11 Lawrence Shulman's THE SKILLS OF HELPING INDIVIDUALS, FAMILIES, GROUPS, AND COMMUNITIES WITH CD, 6e, demonstrates how common elements, core processes, and skills exist across all stages of helping and throughout work with all populations--including individuals, families, groups, and communities. It defines, illustrates, and teaches helping skills and provides manageable models for understanding them. The text also looks at the underlying process and its associated set of core skills. Two CD-ROMS accompany the text and are designed to enhance students' learning experience. THE INTERACTIVE SKILLS OF HELPING CD-ROM and WORKSHOP CD-ROM FOR THE SKILLS OF HELPING illustrate the text's core skills and feature video excerpts of an interactive workshop led by Dr. Shulman. Examples depict social workers in action and directly connect theory and research to the realities of working with clients. Neuroethics Steven Marcus 2002 This volume contains the proceedings of a two-day multidisciplinary conference on the ethical implications of brain research organized by Stanford University and the University of California, San Francisco. Leaders in neuroscience, journalism, law, and philosophy, among other fields, engaged in a freewheeling debate on the social and individual effects of the research. Steven Marcus has edited their formal and informal deliberations to present a compelling first-hand account of the proceedings, providing a highly readable front-row seat about the first-ever symposium on neuroethics.

[A Handful of Buttons](#) Carmen Parets Luque 2018-04-03 Not all families are the same. Each family is different, unique and special. This is the beginning of a children's book about family diversity. What types of families are there? And what special thing makes them a family? These are some of the answers we want to offer to encourage tolerance towards others.

I Have the Right to be a Child Alain Serres 2012 Simple language introduces the concepts of children's rights, why children should have rights, and what rights mean to different children in different parts of the world. Suggested level: junior.

Educational Research and Innovation Educating Teachers for Diversity Meeting the Challenge

A Friend Like You Andrea Schomburg 2017-06-01 Squirrel and Bird are very different. One animal likes nuts and the other likes worms! But both of them are happy to try something new. And together they make the very best of friends. A beautiful tale of unlikely friendship brought to life with stunning illustrations from Sean Julian (*Bear Can't Sleep, My Dad!*). *A Friend Like You* is the perfect storybook for encouraging children to enjoy making friends and being brave enough to try new experiences.

Guidelines for the Identification and Management of Substance Use and Substance Use Disorders in Pregnancy World Health Organization 2015-04-20 These guidelines have been developed to enable professionals to assist women who are pregnant, or have recently had a child, and who use alcohol or drugs or who have a substance use disorder, to achieve healthy outcomes for themselves and their fetus or infant. They have been developed in response to requests from organizations, institutions and individuals for technical guidance on the identification and management of alcohol, and other substance use and substance use disorders in pregnant women. They were developed in tandem with the WHO recommendations for the prevention and management of tobacco use and second-hand smoke exposure in pregnancy.

The Primordial Violence Murray A. Straus 2013-09-11 A CHOICE Outstanding Academic Title 2014! Why do parents hit those they love? What effect does it have on children? What can be done to end this pattern? These are some of the questions explored in *The Primordial Violence*. Featuring longitudinal data from over 7,000 U.S. families as well as results from a 32 nation study, the book presents the latest research on the extent to which spanking is used in different cultures and the subsequent effects of its use on children and on society. Evidence that shows the relationship between spanking and the subsequent slowing of cognitive development and increase in antisocial and criminal behavior is shown. Both cross-sectional and longitudinal studies are explored in an accessible fashion. An abundance of high quality research has produced findings that are highly consistent from study to study which show that spanking is a risk factor for aggressive behavior and other social and psychological problems. Because of these findings, the authors argue for policy changes and recommend a drastic reduction in the use of spanking. Policy and practical implications are explored in most chapters. *The Primordial Violence* highlights: The benefits of avoiding spanking such as the development of better interpersonal skills and higher academic achievement; The link between spanking and behavioral problems and crime; The extent to which spanking is declining and why despite the unusually high level of agreement between numerous studies which found harmful effects from spanking, most parents continue to spank. Part 1 documents the worldwide use of spanking and why parents spank. The possible adverse effects of spanking on children's behavior and academic achievement, and the potential for violence and criminal behavior in later life, are explored in Parts 2, 3, and 4. Part 5 examines trends in spanking, and suggests what can be done to lower the percent of parents who spank. Contradictory opinions about whether to spank are explored. The book concludes with a call for change in this aspect of parenting which will have profound benefits, for the children and families involved, and society as a whole. Intended for a general audience of readers who are interested in child development and parenting and for advanced undergraduate and/or graduate courses in child abuse, family violence, juvenile delinquency, criminal

behavior, social development, sociology of the family, or parenting and family relations taught in psychology, human development, family studies, criminology, education, social work, sociology, and social policy.

Liquid Life Zygmunt Bauman 2013-04-18 'Liquid life' is the kind of life commonly lived in our contemporary, liquid-modern society. Liquid life cannot stay on course, as liquid-modern society cannot keep its shape for long. Liquid life is a precarious life, lived under conditions of constant uncertainty. The most acute and stubborn worries that haunt this liquid life are the fears of being caught napping, of failing to catch up with fast moving events, of overlooking the 'use by' dates and being saddled with worthless possessions, of missing the moment calling for a change of tack and being left behind. Liquid life is also shot through by a contradiction: it ought to be a (possibly unending) series of new beginnings, yet precisely for that reason it is full of worries about swift and painless endings, without which new beginnings would be unthinkable. Among the arts of liquid-modern living and the skills needed to practice them, getting rid of things takes precedence over their acquisition. This and other challenges of life in a liquid-modern society are traced and unravelled in the successive chapters of this new book by one of the most brilliant and original social thinkers of our time.

Visions of Compassion Richard J. Davidson 2001-12-06 This book examines how Western behavioral science--which has generally focused on negative aspects of human nature--holds up to cross-cultural scrutiny, in particular the Tibetan Buddhist celebration of the human potential for altruism, empathy, and compassion. Resulting from a meeting between the Dalai Lama, leading Western scholars, and a group of Tibetan monks, this volume includes excerpts from these extraordinary dialogues as well as engaging essays exploring points of difference and overlap between the two perspectives.

Critical Literacy Maxine Greene 1993-03-18 Illustrates the differences and similarities between modernist and postmodernist theories of literacy, and suggests how the best elements of both can be fused to provide a more rigorous conception of literacy that will bring theoretical, ethical, political, and practical benefits. Some of the 14 essays are theoretical, other present case studies of literacy programs for adults and other applications. Annotation copyright by Book News, Inc., Portland, OR

The Book Whisperer Donalyn Miller 2009-03-16 Turn any student into a bookworm with a few easy and practical strategies Donalyn Miller says she has yet to meet a child she can't turn into a reader. No matter how far behind Miller's students might be when they reach her 6th grade classroom, they end up reading an average of 40 to 50 books a year. Miller's unconventional approach dispenses with drills and

worksheets that make reading a chore. Instead, she helps students navigate the world of literature and gives them time to read books they pick out themselves. Her love of books and teaching is both infectious and inspiring. In the book, you'll find: Hands-on strategies for managing and improving your own school library Tactics for helping students walk on their own two feet and continue the reading habit after they've finished with your class Data from student surveys and end-of-year feedback that proves how well the Miller Method works The Book Whisperer includes a dynamite list of recommended "kid lit" that helps parents and teachers find the books that students really like to read.

ESDebate Frits Hesselink 2000 This novel publication includes summaries of the main issues arising from an internet discussion on the changing perspectives on environmental education in the light of the global initiative on sustainable development. Real-life Applications with Membrane Computing Gexiang Zhang 2017-04-05 This book thoroughly investigates the underlying theoretical basis of membrane computing models, and reveals their latest applications. In addition, to date there have been no illustrative case studies or complex real-life applications that capitalize on the full potential of the sophisticated membrane systems computational apparatus; gaps that this book remedies. By studying various complex applications - including engineering optimization, power systems fault diagnosis, mobile robot controller design, and complex biological systems involving data modeling and process interactions - the book also extends the capabilities of membrane systems models with features such as formal verification techniques, evolutionary approaches, and fuzzy reasoning methods. As such, the book offers a comprehensive and up-to-date guide for all researchers, PhDs and undergraduate students in the fields of computer science, engineering and the bio-sciences who are interested in the applications of natural computing models.

Tirant Lo Blanc Martí Joan (de Galba) 1996-08-13 First published in the Catalan language in Valencia in 1490, *Tirant lo Blanc* ("The White Tyrant") is a sweeping epic of chivalry and high adventure. With great precision and verve, Martorell narrates land and sea battles, duels, hunts, banquets, political maneuverings, and romantic conquests. Reviewing the first modern Spanish translation in 1969 (Franco had ruthlessly suppressed the Catalan language and literature), Mario Vargas Llosa hailed the epic's author as "the first of that lineage of God-supplanters—Fielding, Balzac, Dickens, Flaubert, Tolstoy, Joyce, Faulkner—who try to create in their novels an all-encompassing reality."

Looking After Louis Lesley Ely 2005 There's a new boy at school called Louis. He often just sits and stares at the wall. If I ask him what he's looking at he says, 'Looking at' and carries on looking. The book shows how - through imagination, kindness, and a special game of football - Louis's classmates find a way to join him in his world. Then they can include Louis in theirs.

Journey of Hope... Bill Pelke 2003-09-16 The savage murder of 78-year-old Bible teacher Ruth Pelke by four teen-age girls was the beginning of Bill Pelkes Journey of Hope...From Violence to Healing. Initially Bill did not object when 15-year old Paula Cooper was sentenced to death for his grandmothers murder. Through the power of prayer and transformation, he moved from supporting her death sentence, to working to have it overturned, to dedicating his life to the abolition of the death penalty. This is the story

of Bills journey, the obstacles he overcame, and the amazing, loving, forgiving, committed people he met on the way.

Goebbels Peter Longerich 2015-05-05 NAMED ONE OF THE BEST BOOKS OF THE YEAR BY THE TELEGRAPH • From renowned German Holocaust historian Peter Longerich comes the definitive one-volume biography of Adolf Hitler's malevolent minister of propaganda. In life, and in the grisly manner of his death, Joseph Goebbels was one of Adolf Hitler's most loyal acolytes. By the end, no one in the Berlin bunker was closer to the Führer than his devoted Reich minister for public enlightenment and propaganda. But how did this clubfooted son of a factory worker rise from obscurity to become Hitler's most trusted lieutenant and personally anointed successor? In this ground-breaking biography, Peter Longerich sifts through the historical record—and thirty thousand pages of Goebbels's own diary entries—to provide the answer to that question. Longerich, the first historian to make use of the Goebbels diaries in a biographical work, engages and challenges the self-serving portrait the propaganda chief left behind. Spanning thirty years, the diaries paint a chilling picture of a man driven by a narcissistic desire for recognition who found the personal affirmation he craved within the virulently racist National Socialist movement. Delving into the mind of his subject, Longerich reveals how Goebbels's lifelong search for a charismatic father figure inexorably led him to Hitler, to whom he ascribed almost godlike powers. This comprehensive biography documents Goebbels's ascent through the ranks of the Nazi Party, where he became a member of the Führer's inner circle and launched a brutal campaign of anti-Semitic propaganda. Though endowed with near-dictatorial control of the media—film, radio, press, and the fine arts—Longerich's Goebbels is a man dogged by insecurities and beset by bureaucratic infighting. He feuds with his bitter rivals Hermann Göring and Alfred Rosenberg, unsuccessfully advocates for a more radical line of "total war," and is thwarted in his attempt to pursue a separate peace with the Allies during the waning days of World War II. This book also reveals, as never before, Goebbels's twisted personal life—his mawkish sentimentality, manipulative nature, and voracious sexual appetite. A harrowing look at the life of one of history's greatest monsters, Goebbels delivers fresh insight into how the Nazi message of hate was conceived, nurtured, and disseminated. This complete portrait of the man behind that message is sure to become a standard for historians and students of the Holocaust for decades to come. Praise for Goebbels "Peter Longerich . . . has delved into rarely accessed material from his subject's diaries, which span thirty years, to paint a remarkable portrait of the man who became one of Hitler's most trusted lieutenants."—The Daily Telegraph Praise for Heinrich Himmler "There have been several studies of this enigmatic man, but Peter Longerich's massive biography, grounded in exhaustive study of the primary sources, is now the standard work and must stand alongside Ian Kershaw's Hitler, Ulrich Herbert's Best and Robert Gerwarth's Hitler's Hangman: The Life of Heydrich as one of the landmark Nazi biographies. As the author of a celebrated study of the Holocaust, Longerich is better able than his predecessors to situate Himmler within the vast machinery of genocide. And he brings to his task a gift for capturing those mannerisms that are the intimate markers of personality."—London Review of Books "[An] excellent and comprehensive biography."—The New York

It's a Book is another bold and funny story from the creator of the CILIP Kate Greenaway Medal-winning *There Is a Tribe of Kids*, Lane Smith.

Public Reason and Applied Ethics Adela Cortina 2017-05-15 Examining the theoretical and empirical status of applied ethics, this volume demonstrates how a pluralistic and democratic society can deal with ethical issues in the light of its moral conscience. The volume first sets the stage for a conception of applied ethics as applications of transnational civil ethics, based both on a discourse theory of knowledge (Apel, Habermas), and on an activities and capabilities approach (Aristotle, Sen). It then examines how applied ethics relates to important theoretical discussions in philosophy such as constructivism, virtue ethics, hermeneutic and deliberative theory. The contributors discuss applied ethics in light of globalization and identify recurring dilemmas as well as the problem of universal norms. They close by considering two aspects of the institutional point of view - republicanism, and contractarianism and constitutional economics.

analysis of the relationship between education and social cohesion, this book develops a new 'distributional theory' of the effects of educational inequality on social solidarity. Based on extensive analysis of data on inequality and social attitudes for over 25 developed countries.

Social and Emotional Aspects of Learning Sanna Jarvela 2011-02-17 Social and emotional aspects of schooling and the learning environment can dramatically affect one's attention, understanding, and memory for learning. This topic has been of increasing interest in both psychology and education, leading to an entire section being devoted to it in the third edition of the International Encyclopedia of Education. Thirty-three articles from the Encyclopedia form this concise reference which focuses on such topics as social and emotional development, anxiety in schools, effects of mood on motivation, peer learning, and friendship and social networks. Saves researchers time in summarizing in one place what is otherwise an interdisciplinary field in cognitive psychology, personality, sociology, and education Level of presentation focuses on critical research, leaving out the extraneous and focusing on need-to-know information Contains contributions from top international researchers in the field Makes MRW content affordable to individual researchers
