When Breath Becomes Air Paul Kalanithi 2016-01-12 #1 NEW YORK TIMES BESTSELLER • PULITZER PRIZE FINALIST • This inspiring, exquisitely observed memoir finds hope and beauty in the face of insurmountable odds as an idealistic young neurosurgeon attempts to answer the question What makes a life worth living? NAMED ONE OF PASTE'S BEST MEMOIRS OF THE DECADE • NAMED ONE OF THE BEST BOOKS OF THE YEAR BY The New York Times Book Review • People • NPR • The Washington Post • Slate • Harper's Bazaar • Time Out New York • Publishers Weekly • BookPage Finalist for the PEN Center USA Literary Award in Creative Nonfiction and the Books for a Better Life Award in Inspirational Memoir At the age of thirty-six, on the verge of completing a decade's worth of training as a neurosurgeon, Paul Kalanithi was diagnosed with stage IV lung cancer. One day he was a doctor treating the dying, and the next he was a patient struggling to live. And just like that, the future he and his wife had imagined evaporated. When Breath Becomes Air chronicles Kalanithi's transformation from a naïve medical student "possessed," as he wrote, "by the question of what, given that all organisms die, makes a virtuous and meaningful life" into a neurosurgeon at Stanford working in the brain, the most critical place for human identity, and finally into a patient and new father confronting his own mortality. What makes life worth living in the face of death? What do you do when the future, no longer a ladder toward your goals in life, flattens out into a perpetual present? What does it mean to have a child, to nurture a new life as another fades away? These are some of the questions Kalanithi wrestles with in this profoundly moving, exquisitely observed memoir. Paul Kalanithi died in March 2015, while working on this book, yet his words live on as a guide and a gift to us all. "I began to realize that coming face to face with my own mortality, in a sense, had changed nothing and everything," he wrote. "Seven words from Samuel Beckett began to repeat in my head: 'I can't go on. I'll go on.'" When Breath Becomes Air is an unforgettable, life-affirming reflection on the challenge of facing death and on the relationship between doctor and patient, from a brilliant writer who became both.

Dying for a Living Kory M. Shrum 2014-03-04 And you thought dying once would be hard... On the morning before her 67th death, it is business as usual for agent Jesse Sullivan: meet with the mortician, counsel soon-to-be-dead clients, and have coffee while reading the latest regeneration theory. Jesse dies

for a living, literally. Because of a neurological disorder, Jesse can serve as a death surrogate, dying so others don't have to. Although each death replacement is different, the result is the same: a life is saved, and Jesse resurrects days later with sore muscles, new scars, and another hole in her memory. But when Jesse is murdered and becomes the sole suspect in a federal investigation, more than her freedom and sanity are at stake. She must catch the killer herself--or die trying. *Dying for a Living* is the first book in Kory M. Shrum's gripping urban fantasy series. If you like page-turning action, tough as nails heroines, and perfectly-paced suspense, then you'll love this "hilarious" and "supernaturally fantastic" ride.

Rage Against the Dying Light Jan Surasky 2015-01-02 Of all the woman warriors in myth and legend, few are more storied than Boudicca, the fierce, redheaded queen who, in the first century A.C.E. led the most celebrated Celtic rebellion in history. But here, for the first time, Jan Surasky imagines Boudicca's enthralling story of bravery and triumph from the Celtic point of view. In her extensively researched, vividly told novel, Boudicca bursts to life as never before in all her bold passion, brazen courage and heroic glory. After a carefree childhood, Boudicca is wed in a politically matched marriage to a much older king. Then, her world turns dark. Romans invade, breaking a pact that would have saved her tribe from doom, wreaking havoc, taking slaves, publicly humiliating Boudicca, and assaulting her two young daughters. Betrayed and outraged, she leads thousands of warriors into an epic battle to avenge her daughters and rid her beloved island of Roman tyranny. Grand in scope and intimate in detail, *Rage Against the Dying Light* resonates with the queen's indomitable spirit. Thanks to Jan Surasky's beautifully written novel, Boudicca takes her place alongside no lesser woman warrior than Joan of Arc herself.

The Dying of the Light Michael Dibdin 2012-06-06 One of England's most acclaimed younger mystery writers, the creator of Detective Aurelio Zen, gives us a brilliant and haunting variation on the classic drawing-room murder novel. The setting is Eventide Lodge, where the guests have gathered for tea.

Colonel Weatherby is reading by the fire. Mrs. Hargreave III is whiling away her time at patience. And Miss Rosemary Travis and her friend, Dorothy, are wondering which of their housemates will be the next to die. For even as Michael Dibdin's elderly sleuths debate clues and motives, it becomes clear that Eventide Lodge is not a genteel country inn but a place of ghastly cruelties and humiliations. A place where the logic of murder is . . . almost comforting. At once affectionate homage and audacious satire, *The Dying of the Light* will delight any aficionado of Patricia Highsmith, Peter Dickinson, or Ruth Rendell.

The Art of Dying Peter Fenwick 2008-08-26 A new book to help the dying, their loved ones and their health care workers better understand the dying process and to come to terms with death itself. The Art of Dying is a contemporary version of the medieval Ars Moriendi--a manual on how to achieve a good death. Peter Fenwick is an eminent neuropsychiatrist, academic and expert on disorders of the brain. His most compelling and provocative research has been into the end of life phenomena, including near-death experiences and deathbed visions of the dying person, as well as the experiences of hospice and palliative care workers and relatives of dying people. Dr. Fenwick believes that consciousness may be independent of the brain and so able to survive the death of the brain, a theory which has divided the scientific community. The "problem with death" is deeply rooted in our culture and the social organization of death rituals. Fenwick believes that with serious engagement and through further investigation of these phenomena, he can help change attitudes so that we in the West can face up to death, and embrace it as a significant and sacred part of life. We have become used to believing that we have to shield each other from the idea of death. Fear of death means we view it as something to be fought every step of the way. Aimed at a broad popular readership, The Art of Dying looks at how other cultures have dealt with death and the dying process (The Tibetan "death system", Swedenborg, etc.) and compares this with phenomena reported through recent scientific research. It describes too the experiences of health care workers who are involved with end of life issues who feel that they need a better understanding of the dying process, and more training in how to help their patients die well by overcoming the common barriers to a good death, such as unfinished business and unresolved emotions of guilt or hate. From descriptions of the phenomena encountered by the dying and those around them, to mapping out ways in which we can die a "good death", this book is an excellent basis for helping people come to terms with death.

Heat and Light Jennifer Haigh 2016-05-03 Acclaimed New York Times bestselling author Jennifer Haigh returns to the Pennsylvania town at the center of her iconic novel *Baker Towers* in this ambitious, achingly human story of modern America and the conflicting forces at its heart—a bold, moving drama of hope and desperation, greed and power, big business and small-town families. Forty years ago, Bakerton coal fueled the country. Then the mines closed, and the town wore away like a bar of soap. Now Bakerton has been granted a surprise third act: it sits squarely atop the Marcellus Shale, a massive deposit of natural gas. To drill or not to drill? Prison guard Rich Devlin leases his mineral rights to finance his dream of farming. He doesn't count on the truck traffic and nonstop noise, his brother's skepticism or the paranoia of his wife, Shelby, who insists the water smells strange and is poisoning their frail daughter. Meanwhile his neighbors, organic dairy farmers Mack and Rena, hold out against the drilling—until a passionate environmental activist disrupts their lives. Told through a cast of characters whose lives are increasingly bound by the opposing interests that underpin the national debate, *Heat and Light* depicts a community blessed and cursed by its natural resources. Soaring and ambitious, it zooms from drill rig to shareholders' meeting to the Three Mile Island nuclear reactor to the ruined landscape of the "strippings," haunting reminders of Pennsylvania's past energy booms. This is a dispatch from a forgotten America—a work of searing moral clarity from one of the finest writers of her generation, a courageous and necessary book.

One Friday in April: A Story of Suicide and Survival Donald Antrim 2021-10-12 One of TIME's 100 Must-Read Books of 2021 One of BuzzFeed's Best Books of 2021 One of Vulture's Best Books of 2021 Named one of the Most Anticipated of Books of 2021 by the Los Angeles Times, Literary Hub, and The Millions A searing and brave memoir that offers a new understanding of suicide as a distinct mental illness. As the sun lowered in the sky one Friday afternoon in April 2006, acclaimed author Donald Antrim found himself on the roof of his Brooklyn apartment building, afraid for his life. In this moving memoir, Antrim vividly recounts what led him to the roof and what happened after he came back down: two hospitalizations, weeks of fruitless clinical trials, the terror of submitting to ECT—and the saving call from David Foster Wallace that convinced him to try it—as well as years of fitful recovery and setback. Through a clear and haunting reckoning with the author's own story, *One Friday in April* confronts the limits of our understanding of suicide. Donald Antrim's personal insights reframe suicide—whether in thought or in action—as an illness in its own right, a unique consequence of trauma and personal isolation, rather than the choice of a depressed person. A necessary companion to William Styron's classic *Darkness Visible*, this profound, insightful work sheds light on the tragedy and mystery of suicide, offering solace that may save lives.

Natural Causes Barbara Ehrenreich 2018-04-10 A New York Times bestseller! From the celebrated author of *Nickel and Dimed*, Barbara Ehrenreich explores how we are killing ourselves to live longer, not better. A razor-sharp polemic which offers an entirely new understanding of our bodies, ourselves, and our place in the universe, *NATURAL CAUSES* describes how we over-prepare and worry way too much about what is inevitable. One by one, Ehrenreich topples the shibboleths that guide our attempts to live a long, healthy life -- from the importance of preventive medical screenings to the concepts of wellness and mindfulness, from dietary fads to fitness culture. But *NATURAL CAUSES* goes deeper -- into the fundamental unreliability of our bodies and even our "mind-bodies," to use the fashionable term. Starting with the mysterious and seldom-acknowledged tendency of our own immune cells to promote deadly cancers, Ehrenreich looks into the cellular basis of aging, and shows how little control we actually have over it. We tend to believe we have agency over our bodies, our minds, and even over the manner of our deaths. But the latest science shows that the microscopic subunits of our bodies make their own "decisions," and not always in our favor. We may buy expensive anti-aging products or cosmetic surgery, get preventive screenings and eat more kale, or throw ourselves into meditation and spirituality. But all

these things offer only the illusion of control. How to live well, even joyously, while accepting our mortality -- that is the vitally important philosophical challenge of this book. Drawing on varied sources, from personal experience and sociological trends to pop culture and current scientific literature, *NATURAL CAUSES* examines the ways in which we obsess over death, our bodies, and our health. Both funny and caustic, Ehrenreich then tackles the seemingly unsolvable problem of how we might better prepare ourselves for the end -- while still reveling in the lives that remain to us.

They hoped that the worst thing they would have to deal with in this new world would be the walkers, come to rip and tear and kill. They were wrong. There are worse things than zombies. A refuge for the last remnants of the United States has gone silent and dark, while another has succumbed to the basest parts of human nature. Yet all is not lost, for in the farthest and coldest corner of the globe, marooned in an icy prison, a scientist has made a stunning breakthrough. The Dying of the Light Robert Goolrick 2018-07-03 From the author of the bestselling *A Reliable Wife* comes a dramatic, passionate tale of a glamorous Southern debutante who marries for money and ultimately suffers for love—a southern gothic as written by Dominick Dunne. It begins with a house and ends in ashes . . . Diana Cooke was "born with the century" and came of age just after World War I. The daughter of Virginia gentry, she knew early that her parents had only one asset, besides her famous beauty: their stately house, Saratoga, the largest in the commonwealth, which has hosted the crème of society and Hollywood royalty. Though they are land-rich, the Cookes do not have the means to sustain the estate. Without a wealthy husband, Diana will lose the mansion that has been the heart and soul of her family for five generations. The mysterious Captain Copperton is an outsider with no bloodline but plenty of cash. Seeing the ravishing nineteen-year-old Diana for the first time, he's determined to have her. Diana knows that marrying him would make the Cookes solvent and ensure that Saratoga will always be theirs. Yet Copperton is cruel as well as vulgar; while she admires his money, she cannot abide him. Carrying the weight of Saratoga and generations of Cookes on her shoulders, she ultimately succumbs to duty, sacrificing everything, including love. Luckily for Diana, fate intervenes. Her union with Copperton is brief and gives her a son she adores. But when her handsome, charming Ashton, now grown, returns to Saratoga with his college roommate, the real scandal and tragedy begins. Reveling in the secrets, mores, and society of twentieth-century genteel Southern life, *The Dying of the Light* is a romance, a melodrama, and a cautionary tale told with the grandeur and sweep of an epic Hollywood classic.

The Dying Light Henry Porter 2009-08-06 Foreseeing the Prism/GCHQ story, a chilling thriller of the police-state that the UK is about to become...from GUARDIAN journalist and novelist Henry Porter, 'one of the masters of the genre' [SUNDAY TELEGRAPH] At his funeral the bells of the church were rung open rather than half-muffled, as is usual for the dead. Kate Lockhart has come along with corporate leaders, ministers and intelligence chiefs to a beautiful town in the Welsh Marches to mourn her soul mate, David Eyam, the brightest government servant of his generation. All that remains of Eyam are the burnt fragments of a man killed far from home in a horrific explosion. Eyam has left a devastating legacy which certain people at the funeral are desperate to suppress - but Kate Lockhart is equal to Eyam's legacy. She becomes the focus of the state's paranoiac power and leads the local resistance to it, directed from beyond the grave by Eyam. And the state is no match for the genius of the dead... A chilling - and incredibly prescient, in the aftermath of the Snowden news story - thriller from the bestselling author of *A SPY'S LIFE*.
