**The Talented Tenth** W E B Du Bois 2020-10-13 Taken from "The Talented Tenth" written by W. E. B. Du Bois: The Negro race, like all races, is going to be saved by its exceptional men. The problem of education, then, among Negroes must first of all deal with the Talented Tenth; it is the problem of developing the Best of this race that they may guide the Mass away from the contamination and death of the Worst, in their own and other races. Now the training of men is a difficult and intricate task. Its technique is a matter for educational experts, but its object is for the vision of seers. If we make money the object of man-training, we shall develop money-makers but not necessarily men; if we make technical skill the object of education, we may possess artisans but not, in nature, men. Men we shall have only as we make manhood the object of the work of the schools-intelligence, broad sympathy, knowledge of the world that was and is, and of the relation of men to it-this is the curriculum of that Higher Education which must underlie true life. On this foundation we may build bread winning, skill of hand and quickness of brain, with never a fear lest the child and man mistake the means of living for the object of life.

**A Modest Proposal** Jonathan Swift 2021-08-18 A Modest Proposal Jonathan Swift - To ease poverty in Ireland by eating the children of the poor was the satirical 'solution' suggested by Jonathan Swift in his essay 'A Modest Proposal' (1729). Here Swift unleashes the full power of his ironic armoury and corrosive wit, finding his targets - the British ruling class and avaricious landlords, and the brutalized Irish, complicit in their own oppression - with deadly precision.

Reading Engagement John T. Guthrie 1997 Drawing on the professional literature of many fields, this book provides an interpretation of the available research on motivation and describes instructional approaches in classroom contexts. The book aims to help teacher educators, researchers, and graduate students understand the research literature in motivation and use in their efforts to enhance children's literacy development. After an introduction, "Reading Engagement: A Rationale for Theory and Teaching" (John T. Guthrie and Allan Wigfield), chapters in the book are: (1) "Children's Motivations for Reading and Reading Engagement" (Allan Wigfield); (2) Developing Self-Efficacious Readers and Writers: The Role of Social and Self-Regulatory Processes" (Dale H. Schunk and Barry J. Zimmerman); (3) "Motivation, Volition, and Collaborative Innovation in Classroom Literacy" (Lyn Corno and Judi Randi); (4) "The Pull of the Text and the Process of Involvement in Reading" (Diane Lemonnier Schallert and JoyLynn Hailey Reed); (5) "Teacher Perceptions of Student Motivation and Their Relation to Literacy Learning" (Anne P. Sweet); (6) "The Role of Responsive Teaching in Focusing Reader Intention and Developing Reader Motivation" (Robert B. Ruddell and Norman J. Unrau); (7) "Characteristics of Classrooms That Promote Motivations and Strategies for Learning" (John T. Guthrie and Ann Dacey McCann); (8) "Integrating Science and Literacy Experiences to Motivate Student Learning" (Roger Bruning and Barbara M. Schweiger); (9) "Ownership, Literacy Achievement, and Students of Diverse Cultural Backgrounds" (Kathryn H. Au); (10) "Starting Right: Strategies for Engaging Young Literacy Learners" (Julianne C. Turner); (11) "Incentives and Intrinsic Motivation to Read" (Linda B. Gambrell and Barbara Ann Marinak); and (12) "School Change and Literacy Engagement: Preparing Teaching and Learning Environments" (Carol Minnick Santa). (RS)

**The Patient Self-Determination Act** Lawrence P. Ulrich 2001-07-18 The Patient Self-Determination Act of 1990 required medical facilities to provide patients with written notification of their right to refuse or consent to medical treatment. Using this Act as an important vehicle for improving the health care decisionmaking process, Lawrence P. Ulrich explains the social, legal, and ethical background to the Act by focusing on well-known cases such as those of Karen Quinlan and Nancy Cruzan, and he explores ways in which physicians and other caregivers can help patients face the complex issues in contemporary health care practices. According to Ulrich, health care facilities often address the letter of the law in a merely perfunctory way, even though the Act integrates all the major ethical issues in health care today. Ulrich argues that well-designed conversations between clinicians and patients or their surrogates will not only assist in preserving patient dignity – which is at the heart of the Act—but will also help institutions to manage the liability issues

that the Act may have introduced. He particularly emphasizes developing effective advance directives. Ulrich examines related issues, such as the negative effect of managed care on patient self-determination, and concludes with a seldom-discussed issue: the importance of being a responsible patient. Showing how the Patient Self-Determination Act can be a linchpin of more meaningful and effective communication between patient and caregiver, this book provides concrete guidance to health care professionals, medical ethicists, and patient-rights advocates.

### **Philosophers of the Warring States: A Sourcebook in Chinese Philosophy**

2018-11-30 *Philosophers of the Warring States* is an anthology of new translations of essential readings from the classic texts of early Chinese philosophy, informed by the latest scholarship. It includes the Analects of Confucius, Meng Zi (Mencius), Xun Zi, Mo Zi, Lao Zi (Dao De Jing), Zhuang Zi, and Han Fei Zi, as well as short chapters on the Da Xue and the Zhong Yong. Pedagogically organized, this book offers philosophically sophisticated annotations and commentaries as well as an extensive glossary explaining key philosophical concepts in detail. The translations aim to be true to the originals yet accessible, with the goal of opening up these rich and subtle philosophical texts to modern readers without prior training in Chinese thought.

**Emile** Jean Jacques Rousseau 2019-06-14 *Emile* is a treatise on the nature of education and on the nature of man written by Jean-Jacques Rousseau, who considered it to be the "best and most important of all my writings". Due to a section of the book entitled "Profession of Faith of the Savoyard Vicar," *Emile* was banned in Paris and Geneva and was publicly burned in 1762, the year of its first publication. During the French Revolution, *Emile* served as the inspiration for what became a new national system of education. The work tackles fundamental political and philosophical questions about the relationship between the individual and society— how, in particular, the individual might retain what Rousseau saw as innate human goodness while remaining part of a corrupting collectivity. Its opening sentence: "Everything is good as it leaves the hands of the Author of things; everything degenerates in the hands of man." Rousseau seeks to describe a system of education that would enable the natural man he identifies in *The Social Contract* to survive corrupt society. He employs the novelistic device of *Emile* and his tutor to illustrate how such an ideal citizen might be educated. *Emile* is scarcely a detailed parenting guide but it does contain some specific advice on raising children.[5] It is regarded by some as the first philosophy of education in Western culture to have a serious claim to completeness.

The Great Fire Jim Murphy 2016-08-30 The Great Fire of 1871 was one of most colossal disasters in American history. Overnight, the flourishing city of Chicago was transformed into a smoldering wasteland. The damage was so profound that few people believed the city could ever rise again. By weaving personal accounts of actual survivors together with the carefully researched history of Chicago and the disaster, Jim Murphy constructs a riveting narrative that recreates the event with drama and immediacy. And finally, he reveals how, even in a time of deepest despair, the human spirit triumphed, as the people of Chicago found the courage and strength to build their city once again.

The Last Lecture Randy Pausch 2008-04-08 "We cannot change the cards we are dealt, just how we play the hand."---Randy Pausch A lot of professors give talks titled "The Last Lecture." Professors are asked to consider their demise and to ruminate on what matters most to them. And while they speak, audiences can't help but mull the same question: What wisdom would we impart to the world if we knew it was our last chance? If we had to vanish tomorrow, what would we want as our legacy? When Randy Pausch, a computer science professor at Carnegie

Mellon, was asked to give such a lecture, he didn't have to imagine it as his last, since he had recently been diagnosed with terminal cancer. But the lecture he gave--"Really Achieving Your Childhood Dreams"--wasn't about dying. It was about the importance of overcoming obstacles, of enabling the dreams of others, of seizing every moment (because "time is all you have...and you may find one day that you have less than you think"). It was a summation of everything Randy had come to believe. It was about living. In this book, Randy Pausch has combined the humor, inspiration and intelligence that made his lecture such a phenomenon and given it an indelible form. It is a book that will be shared for generations to come.

*The Handbook of Career Advising* Kenneth F. Hughey 2012-06-07 The Handbook of Career Advising "The Handbook of Career Advising not only provides a general introduction to this important academic advising function, but offers many practical applications that can help students make realistic and timely career decisions. As students face an ever-changing and complex workplace, helping them integrate their academic and career decisions has never been more important. This book is an excellent resource for advisors; it helps them become more cognizant of the critical role they play and will facilitate the development of the knowledge and competencies required to perform this important advising task." Virginia Gordon, associate professor emeritus, The Ohio State University "This book provides a wealth of information for anyone whose work involves helping students discover how intentional choices in curricular and cocurricular educational experiences can prepare them for tomorrow's workplace. The theoretical foundations, information and resources, frameworks for practice, and recommendations for the future included in this book will guide academic advisors as they positively influence students' lives by helping them systematically and enthusiastically approach their career development." Mary Stuart Hunter, assistant vice provost, National Resource Center for The First-Year Experience and Students in Transition, University of South Carolina "The Handbook of Career Advising provides excellent information, resources, and examples of how academic advisors can become more knowledgeable and comfortable in providing career advising. Here, authors address critical issues such as diversity, working with specific student groups, and working with undecided or exploratory students. This book provides examples that illustrate how career and academic advising are significant parts of the teaching and learning process that support student success on our campuses." Casey Self, executive director, Academic Advising, University College, Arizona State University, and 2009 NACADA president
