For the Public's Health Institute of Medicine 2012-08-30 The Robert Wood Johnson Foundation asked the Institute of Medicine (IOM) to examine three topics in relation to public health: measurement, the law, and funding. IOM prepared a three report series-one report on each topic-that contains actionable recommendations for public health agencies and other stakeholders with roles in the health of the U.S. population. For the Public's Health: Investing in a Healthier Future, the final book in the series, assesses the financial challenges facing the governmental public health infrastructure. The book provides recommendations about what is needed for stable and sustainable funding, and for its optimal use by public health agencies. Building on the other two volumes in the series, this book makes the argument that adequate and sustainable funding for public health is necessary to enable public health departments across the country to inform and mobilize action on the determinants of health, to play other key roles in protecting and promoting health, and to prepare for a range of potential threats to population health. The final book in the For the Public's Health series will be useful to federal, state, and local governments; public health agencies; clinical care organizations; and community-based organizations.

Encyclopedia of Library and Information Science Allen Kent 1992-06-24 "The Encyclopedia of Library and Information Science provides an outstanding resource in 33 published volumes with 2 helpful indexes. This thorough reference set--written by 1300 eminent, international experts--offers librarians, information/computer scientists, bibliographers, documentalists, systems analysts, and students, convenient access to the techniques and tools of both library and information science. Impeccably researched, cross referenced, alphabetized by subject, and generously illustrated, the Encyclopedia of Library and Information Science integrates the essential theoretical and practical information accumulating in this rapidly growing field."

The Value of Academic Libraries Megan Oakleaf 2010 This report provides Association of College and Research Libraries (ACRL) leaders and the academic community with a clear view of the current state of the literature on value of libraries within an institutional context, suggestions for immediate "Next Steps" in the demonstration of academic library value, and a "Research Agenda" for articulating academic library value. Its focus is to help librarians understand, based on professional literature, the current answer to the question, "How does the library advance the missions of the institution?" This report is also of interest to higher educational professionals external to libraries, including senior leaders, administrators, faculty, and student affairs professionals.

Variations in Organization Science Joel A. C. Baum 1999-05-14 Variations in Organization Science celebrates Donald T Campbell's many contributions to organization science, presenting new variations

which stem directly from his work. Contributing authors review and extend Campbell's theories in four major areas: blind variation, selection and retention especially inside firms; multilevel co-evolution in organizational parts and wholes; process level analysis and modeling epistemology and methodology. The book includes an unusual appendix, Donald T Campbell's curriculum vitae.

Through the End of the Cretaceous in the Type Locality of the Hell Creek Formation in Montana and Adjacent Areas Gregory P. Wilson 2014-01-21 "The chapters represent a surge of field and laboratory research activity, illustrating the impacts of new and refined methods and tools. This volume explores geologic and biologic history preserved in the strata bounding the Cretaceous-Paleogene boundary"--Provided by publisher.

Roles and Responsibilities of Libraries in Increasing Consumer Health Literacy and Reducing Health Disparities Beth St. Jean 2020-11-30 This volume brings together librarians, LIS students, educators, and researchers, to discuss the many ways that information professionals and libraries serve as agents of securing health information justice.

Library Journal Melvil Dewey 1900 Includes, beginning Sept. 15, 1954 (and on the 15th of each month, Sept.-May) a special section: School library journal, ISSN 0000-0035, (called Junior libraries, 1954-May 1961). Also issued separately.
