best. Most were worked in the early 20th century, and some locales hadn't been visited for decades. Because of the importance of these pegmatites to scientists and collectors, and a renewed interest in the industrial minerals they contain, the authors produced this field guidebook. The bulk of this work is a listing of the many pegmatite ...

survival is its highest ever. Early deaths from heart disease are down by over 40%. Avoidable deaths overall are down by 20%. About 160,000 more nurses, doctors and other clinicians are treating millions more patients so that most long waits for operations have been slashed - down from 18 months to 18 weeks. Mixed sex wards and shabby hospital

Climate emergency?

Since the industrial revolution, we've pumped more and more carbon dioxide into the atmosphere, as well as other heat-trapping gases. As a result, we've seen temperatures climb rapidly, and floods, droughts and storms all become more severe. Photo: Kai T. Dragland/NTNU Every fraction of a degree matters Current predictions about the difference
