*Coloproctology* Alexander Herold 2008-08-15 EMM: Coloproctology presents the state-of-the-art in coloproctology. The topics covered include anatomy, physiology, anal disorders, dermatology, functional disorders, inflammatory bowel disease, benign and malignant tumours, endoscopy, emergencies and pain syndromes. All chapters give a comprehensive overview of aetiology, incidence, epidemiology, diagnostics, medical and surgical treatment, complications and individual special considerations. This work presents surgical trainees with a comprehensive and condensed guide to the core knowledge required for the European Board of Surgery Qualification (EBSQ) examination. The manual will also be of assistance to practising coloproctologists across Europe and beyond who have an interest in continued professional development. Written by an international team of experts who have each made noteworthy contributions in their field, the coverage of most aspects of coloproctology in an easy-to-follow format also makes this manual valuable to other specialists.

*Fire Season* Philip Connors 2011-04-05 “Fire Season both evokes and honors the great hermit celebrants of nature, from Dillard to Kerouac to Thoreau—and I loved it.” —J.R. Moehring, author of *The Tender Bar* “[Connors’s] adventures in radical solitude make for profoundly absorbing, restorative reading.” —Walter Kirn, author of *Up in the Air* Phillip Connors is a major new voice in American nonfiction, and his remarkable debut, *Fire Season*, is destined to become a modern classic. An absorbing chronicle of the days and nights of one of the last fire lookouts in the American West, *Fire Season* is a marvel of a book, as rugged and soulful as Matthew Crawford’s bestselling *Shop Class as Soulcraft*, and it immediately places Connors in the august company of Edward Abbey, Annie Dillard, Aldo Leopold, Barry Lopez, and others in the respected fraternity of hard-boiled nature writers.

**Expanded Hemodialysis** C. Ronco 2017-09-14 Despite constant significant advances, cardiovascular as well as more general outcomes of hemodialysis treatment remain unsatisfactory. The introduction of

innovative 'high retention onset' membranes has led to the development of a new treatment modality called 'expanded hemodialysis' (HDx), which is the focus of this book. This new therapy is likely to benefit end-stage kidney disease patients, thanks to enhanced removal of molecules retained by current dialysis techniques. HDx is simple to set up and application does not require special hardware or specific nursing skills. This book contains emerging evidence and fascinating new hypotheses on HDx. It is highly recommended for all physicians and healthcare professionals who are caring for dialysis patients and are seeking innovation and improved care solutions. It will also be of considerable interest to students and fellows.

The Paradox of Choice Barry Schwartz 2009-10-13 Whether we're buying a pair of jeans, ordering a cup of coffee, selecting a long-distance carrier, applying to college, choosing a doctor, or setting up a 401(k), everyday decisions—both big and small—have become increasingly complex due to the overwhelming abundance of choice with which we are presented. As Americans, we assume that more choice means better options and greater satisfaction. But beware of excessive choice: choice overload can make you question the decisions you make before you even make them, it can set you up for unrealistically high expectations, and it can make you blame yourself for any and all failures. In the long run, this can lead to decision-making paralysis, anxiety, and perpetual stress. And, in a culture that tells us that there is no excuse for falling short of perfection when your options are limitless, too much choice can lead to clinical depression. In *The Paradox of Choice*, Barry Schwartz explains at what point choice—the hallmark of individual freedom and self-determination that we so cherish—becomes detrimental to our psychological and emotional well-being. In accessible, engaging, and anecdotal prose, Schwartz shows how the dramatic explosion in choice—from the mundane to the profound challenges of balancing career, family, and individual needs—has paradoxically become a problem instead of a solution. Schwartz also shows how our obsession with choice encourages us to seek that which makes us feel worse. By synthesizing current research in the social sciences, Schwartz makes the counter intuitive case that eliminating choices can greatly reduce the stress, anxiety, and busyness of our lives. He offers eleven practical steps on how to limit choices to a manageable number, have the discipline to focus on those that are important and ignore the rest, and ultimately derive greater satisfaction from the choices you have to make.

But Grace Park and Shawn Matthews have their own problems. Grace is sheltered and largely oblivious, living in the Valley with her Korean-immigrant parents, working long hours at the family pharmacy. She’s distraught that her

sister hasn't spoken to their mother in two years, for reasons beyond Grace's understanding. Shawn has already had enough of politics and protest after an act of violence shattered his family years ago. He just wants to be left alone to enjoy his quiet life in Palmdale. But when another shocking crime hits LA, both the Park and Matthews families are forced to face down their history while navigating the tumult of a city on the brink of more violence.

Thumbing across the scorched Texas desert, Jack Reacher has nowhere to go and all the time in the world to get there. Cruising the same stretch of two-lane blacktop is Carmen Greer. For Reacher, the lift comes with a hitch. Carmen's got a wild story to tell—all about her husband, her family secrets, and a hometown that's purely gothic. She's also got a plan. Reacher's part of it. And before the sun sets, this ride could cost them both their lives.

**The Echo Maker** Richard Powers 2007-04-01 Winner of the National Book Award From the Pulitzer Prize-winning author of *The Overstory* and the Oprah's Book Club selection *Bewilderment* comes Richard Powers's *The Echo Maker*, a powerful novel about family and loss. "Wise and elegant . . . The mysteries unfold so organically and stealthily that you are unaware of his machinations until they come to stunning fruition . . . Powers accomplishes something magnificent." —Colson Whitehead, *The New York Times* Book Review On a winter night on a remote Nebraska road, twenty-seven-year-old Mark Schluter has a near-fatal car accident. His older sister, Karin, returns reluctantly to their hometown to nurse Mark back from a traumatic head injury. But when Mark emerges from a coma, he believes that this woman—who looks, acts, and sounds just like his sister—is really an imposter. When Karin contacts the famous cognitive neurologist Gerald Weber for help, he diagnoses Mark as having Capgras syndrome. The mysterious nature of the disease, combined with the strange circumstances surrounding Mark's accident, threatens to change all of their lives beyond recognition. In *The Echo Maker*, Richard Powers proves

himself to be one of our boldest and most entertaining novelists.

**Unconventional Warfare (Special Forces, Book 1)** Chris Lynch 2018-11-27 Discover the secret missions behind America's greatest conflicts. Danny Manion has been fighting his entire life. Sometimes with his fists. Sometimes with his words. But when his actions finally land him in real trouble, he can't fight the judge who offers him a choice: jail... or the army. Turns out there's a perfect place for him in the US military: the Studies and Observation Group (SOG), an elite volunteer-only task force comprised of US Air Force Commandos, Army Green Berets, Navy SEALs, and even a CIA agent or two. With the SOG's focus on covert action and psychological warfare, Danny is guaranteed an unusual tour of duty, and a hugely dangerous one. Fortunately, the very same qualities that got him in trouble at home make him a

natural-born commando in a secret war. Even if almost nobody knows he's there. National Book Award finalist Chris Lynch begins a new, explosive fiction series based on the real-life, top-secret history of US black ops.

New case studies from across the globe have been added to inspire readers with real-life examples of how to make an ecohouse work.

**The Linnet Bird** Linda Holeman 2005-05-17 “For you, I will write of it all—part truth, part memory, part nightmare—my life, the one that started so long ago, in a place so far from here . . .” India, 1839: Linny Ingram, the respectable young wife of a British colonial officer, settles down to write her life story. In the claustrophobic, mannered world of British India, Linny seems the perfect society wife: pretty, gracious, subservient. But appearances can be deceptive. Linny Ingram was born Linny Gow, an orphan raised in the cold, gray slums of Liverpool. Sold into prostitution by her stepfather when she was only eleven, Linny is a born survivor and an accomplished chameleon and manipulator. Through a stroke of luck and considerable scheming, she manages to re-create herself as a proper Victorian young lady, middle-class and seemingly respectable. By befriending a merchant’s daughter, Linny secures a place with her new companion on a ship bound for India, where they will join “the fishing fleet”—young women of good birth but no fortune who sail to India in search of a husband. India, with its exotic colors, sights, and smells, is a world away from the cold back alleys of Linny’s childhood. But even there, she is haunted by her past, and by the constant threat of discovery. To secure her place in society, she marries Somers Ingram, a wealthy British officer with secrets of his own. Soon Linny discovers that respectability and marriage bring a new kind of imprisonment, as well as the same menace and violence that she thought she had

escaped. But Linny is not about to surrender easily. In the lush tropics of India she finds not only the means for rebellion but also the love and freedom she never had in England. We had been at sea almost four months. Swallows swooped near the railings, indicating land nearby. Mrs. Cavendish likened these busy, twittering creatures to the dove with its olive branch. She was right, and within another day villages were spotted along the coast. The water became noisy with dozens of tiny rocking boatloads of Indians. Bumboat men, Mrs. Cavendish called them, shouting to be heard over the cries of the villagers as they boasted of their merchandise, hoping to sell coconuts, bananas, or tamarinds. I hung over the railing, watching as the natives threw ropes with baskets attached over the ship's side. Some of the crew called down to them in a strange tongue that I couldn't identify, putting coins into the baskets. The baskets were lowered, and then came up again, filled with whatever the sailors had requested. I longed to try the strange-looking fruit, but Mrs. Cavendish, with a slight shake of her head, indicated that it would be beneath us to purchase anything in this way. During the last few days, as we grew ever closer to our destination, excitement grew in me. At first I attributed it to the beauty of the water and sun, the flying fish sending little droplets of water onto the smooth sea, but then realized it was something else. I detected a difference in the atmosphere, and whether it was the air itself or the degree of heat I couldn't say. Perhaps the smells carried in the wind contributed to the unexplained breathlessness I experienced. My nose filled with the strange smells of an unfamiliar populace, the scents of unknown vegetation. I felt as heady as I had when twirled in my first quadrille. —from *The Linnet Bird*

Machine Medical Ethics Simon Peter van Rysewyk 2014-09-05 The essays in this book, written by researchers from both humanities and science, describe various theoretical and experimental approaches to adding medical ethics to a machine, what design features are necessary in order to achieve this, philosophical and practical questions concerning justice, rights, decision-making and responsibility in medical contexts, and accurately modeling essential physician-machine-patient relationships. In medical settings, machines are in close proximity with human beings: with patients who are in vulnerable states of health, who have disabilities of various kinds, with the very young or very old and with medical professionals. Machines in these contexts are undertaking important medical tasks that require emotional sensitivity, knowledge of medical codes, human dignity and privacy. As machine technology advances, ethical concerns become more urgent: should medical machines be programmed to follow a code of medical ethics? What theory or theories should constrain medical machine conduct? What design features are required? Should machines share responsibility with humans for the ethical consequences of medical actions? How ought clinical relationships involving machines to be modeled? Is a capacity for empathy and emotion detection necessary? What about consciousness? This collection is the first book that addresses these 21st-century concerns.

*Take No Names* Daniel Nieh 2022-07-05 A riveting thriller about a fugitive in search of a quick payday in Mexico City who finds himself in the crosshairs of a dangerous international scheme Victor Li is a man without a past. To his new employer, Mark, he's just an anonymous hired hand to help with the dirty work. Together, they break into storage units that contain the possessions of the recently deported, pocketing whatever is worth selling. Only Victor and his sister, Jules, know that he's a wanted man. Amid the backpacks and suitcases, Victor makes the find of a lifetime: a gem rare and valuable enough to change his fortunes in an instant. But selling it on the sly? Nearly impossible. Thankfully, its former owner, a woman named Song Fei, also left a book of cryptic notes—including the name of a gemstone dealer in Mexico City. When Victor and Mark cross the southern border, they quickly realize that this gem is wrapped up in a much larger scheme than they imagined. In Mexico City, shadowy international interests are jockeying for power, and they may need someone with Victor's talents—the same ones that got him in

trouble in the first place. On the heels of his knockout debut Beijing Payback, Daniel Nieh delivers Take No Names, a white-knuckled and whip-smart thriller that races to an electrifying finish.

*The Collection Plate* Kendra Allen 2021-07-06 A deeply wrought and joyful debut poetry collection from an exciting new voice Looping exultantly through the overlapping experiences of girlhood, Blackness, sex, and personhood in America, award-winning essayist and poet Kendra Allen braids together personal narrative and cultural commentary, wrestling with the beauty and brutality to be found between mothers and daughters, young women and the world, Black bodies and white space, virginity and intrusion, prison and freedom, birth and death. Most of all, *The Collection Plate* explores both how we collect and erase the voices, lives, and innocence of underrepresented bodies—and behold their pleasure, pain, and possibility Both formally exciting and a delight to read, *The Collection Plate* is a testament to Allen’s place as the voice of a generation—and a witness to how we come into being in the twenty-first century.

*Endoscopy in Inflammatory Bowel Disease* Richard Kozarek 2014-11-03 This book conjoins the latest advances on the use of endoscopy to diagnose, monitor, and treat patients with inflammatory bowel disease. Chapters include the historical use of rigid sigmoidoscopy, non-interventional imaging procedures, and the correlation of pathology and endoscopic visualization. This is the first book to include individual chapters in gastroenterology, colorectal surgery, and IBD texts, the preeminent role of endoscopic imaging in the management of chronic ulcerative colitis, and Crohn's disease. It also includes chapters on capsule endoscopy and balloon and overtube-assisted enteroscopy to define the presence and activity of Crohn's enteritis and additional chapters defining the use of random biopsies versus chromoendoscopy, and computer enhanced imaging to define possible dysplasia development. The book also includes access to online videos, making it the ultimate verbal and visual tool for all medical professionals interested in the advances in the field over the last several decades. Endoscopy in

Inflammatory Bowel Disease is a concise text that is of great value to practicing endoscopists, gastroenterologists, general or colorectal surgeons, physicians in training, and all medical professionals caring for patients with inflammatory bowel disease.

Leave the World Behind Rumaan Alam 2020-10-06 A Read with Jenna Today Show Book Club Pick! From the bestselling author of Rich and Pretty comes a suspenseful and provocative novel keenly attuned to the complexities of parenthood, race, and class. Leave the World Behind explores how our closest bonds are reshaped—and unexpected new ones are forged—in moments of crisis. Amanda and Clay head out to a remote corner of Long Island expecting a vacation: a quiet reprieve from life in New York City, quality time with their teenage son and daughter, and a taste of the good life in the luxurious home they've rented for the week. But a late-night knock on the door breaks the spell. Ruth and G. H. are an older couple—it's their house, and they've arrived in a panic. They bring the news that a sudden blackout has swept the city. But in this rural area—with the TV and internet now down, and no cell phone service—it's hard to know what to believe. Should Amanda and Clay trust this couple—and vice versa? What happened back in New York? Is the vacation home, isolated from civilization, a truly safe place for their families? And are they safe from one other?

**You or Someone Like You** Chandler Burr 2009-06-09 “Chandler Burr’s challenging first novel is many things: a glimpse into Hollywood culture, an argument about religious identity, a plea for the necessity of literature. This is a roman that needs no clefs.” —Washington Post New York Magazine calls You or Someone Like You, “The highbrow humanist name-dropping book of the summer.” The remarkable first novel by Chandler Burr, the New York Times scent critic and author of The Perfect Scent, is funny, smart, and provocative—an extraordinarily ambitious work of fiction that succeeds on many different levels. It is a

book David Ebershoff, (author of *The 19th Wife*) enthusiastically recommends “for anyone who defiantly clings to the belief that a book can change our lives.”
