Coll. F - Le fait culturel en classe de FLE (Ebook) Evelyne Argaud 2021-02-26 Comment peut-on apprendre et enseigner une culture étrangère ? L'évolution des besoins sociétaux a renouvelé en profondeur la didactique des langues et des cultures. Celle-ci se conçoit désormais dans la perspective d'une éducation plurilingue et interculturelle. Le rôle de l'enseignant s'en trouve modifié et son travail complexifié. Comment, dans ce nouveau cadre, repenser la notion de culture et l'enseignement des faits culturels ? Comment aborder dans la classe de langue une dimension culturelle omniprésente, quels que soient les documents utilisés ? L'ouvrage présenté ici propose un large choix de possibilités didactiques parmi lesquelles l'enseignant pourra sélectionner celles qui conviendront à sa situation d'enseignement. Il a pour vocation de l'aider à déterminer des objectifs d'apprentissage, à sélectionner des supports et des pratiques pédagogiques, à réfléchir aux modes d'évaluation. Des fiches pédagogiques viennent illustrer les différentes démarches possibles, en fonction des publics concernés, des compétences à travailler et des finalités visées.

Political Economy and Sociolinguistics David Block 2018-02-08 Shortlisted for the BAAL Book Prize 2019 This book explores how political economy intersects with sociolinguistics, specifically how neoliberalism, inequality and social class mediate language in society issues. After the preface, in which the author sets the scene for the content of the book, Chapter 1 is an extensive, though selective, review of sociolinguistics research which has been framed as political economic in orientation. The chapter concludes that such research generally contains little in the way of thorough and in-depth coverage of the key ideas and conceptual frameworks said to undergird it. With this consideration in mind, Chapters 2, 3 and 4 are organised around in-depth discussions of, respectively, political economy as a general disciplinary frame; neoliberalism as the variegated variety of capitalism dominant in the world today; and stratification, inequality and social class, as phenomena intrinsic to capitalism, which in the neoliberal era have come to the fore as key issues. Drawing directly on the background provide in Chapters 2-4, Chapters 5 and 6 explore two distinct political economy-informed lines of research, on the one hand, the 'neoliberal citizen', and on the other hand, 'discursive class warfare'. The book ends with an epilogue addressing issues arising around political economy in sociolinguistics.

Building with Earth Gernot Minke 2021-12-06 Earth, in common use for architectural construction for thousands of years, has in the past thirty years attracted renewed attention as a healthy, environment-friendly and economical building material. What needs to be considered in this context? The manual *Building with Earth*, which has been translated into many languages, describes the building technology of this material. The physical properties and characteristic values are explained in a hands-on manner: With proper moisture protection, earth buildings are very durable, and in particular the combination with wood or straw allows a wide spectrum of design options. Numerous built examples demonstrate the range of applications for this fully recyclable material.

Lewis argues that you don't need a great memory or "the language gene" to learn a language quickly, and debunks a number of long-held beliefs, such as adults not being as good of language learners as children.
