Facing the Frozen Ocean Bear Grylls 2013-06-06 'An epic story of hardship, friendship and faith.' Daily Telegraph Shortlisted for the William Hill Sports Book of the Year Award, this is the compelling account of the most recent adventure of the bestselling author of Facing Up. It started out as a carefully calculated attempt to complete the first unassisted crossing of the frozen north Atlantic in an open rigid inflatable boat, but it became a terrifying battle against storm-force winds, crashing waves and icebergs as large as cathedrals. Starting from the remote north Canadian coastline, Bear Grylls and his crew crossed the infamous Labrador Sea, pushed on through ice-strewn waters to Greenland and then found themselves isolated in a perfect storm 400 miles from Iceland. Compelling, vivid and inspirational, Facing the Frozen Ocean will appeal to all Bear Grylls' many readers and win him many more.

Equality of Opportunity for Sexual and Gender Minorities Clifton Cortez 2021-12-02 Despite legal and social advances in the past two decades, sexual orientation and gender identity (SOGI) people continue to face widespread discrimination and violence in many countries. This discrimination and violence lead to exclusion, which adversely impacts their lives, as well as the communities and economies in which they live. A major barrier to addressing this stigma and sexual orientation and gender identity-based exclusion is the lack of SOGI-specific data. Robust, quantitative data on differential development experiences and outcomes of sexual and gender minorities--especially those in developing countries--is

extremely thin. This paucity of data jeopardizes the achievement of the Sustainable Development Goals and countries' commitment to the principle of 'leaving no one behind' in the effort to end poverty and inequality. 'Equality of Opportunity for Sexual and Gender Minorities' assesses the unique challenges that sexual and gender minorities face in six important areas: (i) Criminalization and SOGI (ii) Access to education (iii) Access to the labor market (iv) Access to public services and social protection (v) Civil and political inclusion (vi) Protection from hate crimes. This report covers numerous policy recommendations to prevent and eliminate discriminatory practices in all of the areas covered. It also seeks to influence legislative changes and support research on institutions and regulations that can ultimately lead to poverty reduction and shared prosperity. At the same time, it acknowledges that the mere existence of inclusive laws and regulations does not ensure that sexual and gender minorities are free from discrimination--the enforcement of those laws is crucial. This publication, the first in a series of studies, will be expanded from the 16 countries included here to a wider set of countries for more in-depth quantitative analysis and to identify possible correlations with socioeconomic outcomes. It will seek to deepen knowledge, facilitate peer learning of good practices, and encourage reforms to increase the inclusion of sexual and gender minorities.

Landscape's Revenge Caio Yurgel 2018-11-05 Landscape, as it appears and is described throughout the works of Bernardo Carvalho and Robert Walser, provides an excellent—yet virtually unexplored—pathway to the authors' literary projects. The landscape functions here as a synthetic and unifying figure that triggers, at first, through the analysis of its description per se, the main and most evident elements of the authors' works. However, when sustained as a methodological figure beyond the scope of its own description, the landscape soon reveals a darker, far more fascinating and far less explored side of the authors' oeuvres: a vengeful, seemingly defeatist resentment against the status quo, which gives way to the more latent and biting elements of the authors' prose, such as irony, the unheimlich, an anti-heroic agenda, the apocalyptic aesthetics of a disaster-prone fictional world, as well as an understanding of history and literature through the figures of failure and marginality. By drawing from diverse critical traditions from Latin-America and Europe, this comparative text seeks to unravel, in all of its complexity and scope, the fictional stage upon which Walser's and Carvalho's characters narrate, with their dying breath, a world that is slowly undoing itself.

A Comparative History of Literatures in the Iberian Peninsula Fernando Cabo Aseguinolaza 2010-05-26 A Comparative History of Literatures in the Iberian Peninsula is the second comparative history of a new subseries with a regional focus, published by the Coordinating Committee of the International Comparative Literature Association. As its predecessor for East-Central Europe, this two-volume history distances itself from traditional histories built around periods and movements, and explores, from a comparative viewpoint, a space considered to be a powerful symbol of inter-literary relations. Both the geographical pertinence and its symbolic condition are obviously discussed, when not even contested. Written by an international team of researchers who are specialists in the field, this history is the first attempt at applying a comparative approach to the plurilingual and multicultural literatures in the Iberian Peninsula. The aim of comprehensiveness is abandoned in favor of a diverse and extensive array of key issues for a comparative agenda. A Comparative History of Literatures in the Iberian Peninsula undermines the primacy claimed for national and linguistic boundaries, and provides a geo-cultural account of literary inter-systems which

cannot otherwise be explained.

Volcanic Unrest Joachim Gottsmann 2018-12-18 This open access book summarizes the findings of the VUELCO project, a multi-disciplinary and cross-boundary research funded by the European Commission's 7th framework program. It comprises four broad topics: 1. The global significance of volcanic unrest 2. Geophysical and geochemical fingerprints of unrest and precursory activity 3. Magma dynamics leading to unrest phenomena 4. Bridging the gap between science and decision-making Volcanic unrest is a complex multi-hazard phenomenon. The fact that unrest may, or may not lead to an imminent eruption contributes significant uncertainty to short-term volcanic hazard and risk assessment. Although it is reasonable to assume that all eruptions are associated with precursory activity of some sort, the understanding of the causative links between subsurface processes, resulting unrest signals and imminent eruption is incomplete. When a volcano evolves from dormancy into a phase of unrest, important scientific, political and social questions need to be addressed. This book is aimed at graduate students, researchers of volcanic phenomena, professionals in volcanic hazard and risk assessment, observatory personnel, as well as emergency managers who wish to learn about the complex nature of volcanic unrest and how to utilize new findings to deal with unrest phenomena at scientific and emergency managing levels. This book is open access under a CC BY license.

bookdown Yihui Xie 2016-12-12 bookdown: Authoring Books and Technical Documents with R Markdown presents a much easier way to write books and technical publications than traditional tools such as LaTeX and Word. The bookdown package inherits the simplicity of syntax and flexibility for data analysis from R Markdown, and extends R Markdown for technical writing, so that you can make better use of document elements such as figures, tables, equations, theorems, citations, and references. Similar to LaTeX, you can number and cross-reference these elements with bookdown. Your document can even include live examples so readers can interact with them while reading the book. The book can be rendered to multiple output formats, including LaTeX/PDF, HTML, EPUB, and Word, thus making it easy to put your documents online. The style and theme of these output formats can be customized. We used books and R primarily for examples in this book, but bookdown is not only for books or R. Most features introduced in this book also apply to other types of publications: journal papers, reports, dissertations, course handouts, study notes, and even

novels. You do not have to use R, either. Other choices of computing languages include Python, C, C++, SQL, Bash, Stan, JavaScript, and so on, although R is best supported. You can also leave out computing, for example, to write a fiction. This book itself is an example of publishing with bookdown and R Markdown, and its source is fully available on GitHub.

Aldaya 2012-08-21 People use lots of water for drinking, cooking and washing, but significantly more for producing things such as food, paper and cotton clothes. A Suitable Boy Vikram Seth 2013-06-26 Acclaimed as one of the greatest novels of the last century, Vikram Seth's *A Suitable Boy* remains, twenty years after publication, one of the most entrancing and spellbinding works of fiction yet written. It also recounts India's troubles shaping its own destiny as the country marches towards its first great General Election. It is a story that readers the world over can neither put down nor ever forget. 'Fiction on a grand scale. By the time you reach the last page you will have absorbed a splendid story, full of the tangle and perfume of India.' Sunday Telegraph 'Vivid, evocative and beautifully written.' Literary Review 'No one, surely, could wish this novel shorter. The greatness of the novel, its

Evening Standard 'Seth is the best writer of his generation.' The Times
