Strategic Approach in Multi-Criteria Decision Making Nolberto Munier 2019-01-29 This book examines multiple criteria decision making (MCDM) and presents the Sequential Interactive Modelling for Urban

Systems (SIMUS) as a method to be used for strategic decision making. It emphasizes the necessity to take into account aspects related to real world scenarios and incorporating possible real life aspects for modelling. The book also highlights the use of sensitivity analysis and presents a method for using criteria marginal values instead of weights, which permits the drawing of curves that depicts the variations of the objective function due to variations of these marginal values. In this way it also gives quantitative values of the objective function allowing stakeholders to perform a comprehensive risk analysis for a solution when it is affected by exogenous variables. Strategic Approach in Multi-Criteria Decision Making: A Practical Guide for Complex Scenarios is divided into three parts. Part 1 is devoted to exploring the history and development of the discipline and the way it is currently used. It highlights drawbacks and problems that scholars have identified in different MCDM methods and techniques. Part 2 addresses best practices to assure quality MCDM process. Part 3 introduces the concept of Linear Programming and the proposed SIMUS method as techniques to deal with MCDM. It also includes case studies in order to help document and illustrate difficult concepts, especially related to demands from a scenario and also in their modelling. The decision making process can be a complex task, especially with multi-criteria problems. With large amounts of information, it can be an extremely difficult to make a rational decision, due to the number of intervening variables, their interrelationships, potential solutions that might exist, diverse objectives envisioned for a project, etc. The SIMUS method has been designed to offer a strategy to help organize, classify, and evaluate this information effectively.

Social Environmental Conflicts in Mexico Darcy Tetreault 2018-03-10 What are the political economic conditions that have given rise to increasing numbers of social environmental conflicts in Mexico? Why do these conflicts arise in some local and regional contexts and not in others? How are social environmental movements constructed and sustained? And what are the alternatives? These are the questions that this book seeks to address. It is organized into three parts. The first provides a panoramic view of social environmental conflicts in Mexico and of alternatives that are being constructed from below in rural areas. It also provides an analysis of the recent reforms to open the country's energy

sector to private and foreign investment. The second is comprised of local-level case studies of conflict (and no conflict) in diverse geographic locations and cultural settings, particularly in relation to the construction of wind farms, hydraulic infrastructure, industrial water pollution, and groundwater overdraft. The third explores alternatives from below in the form of community-based ecotourism and traditional mezcal production. A concluding chapter engages comparative and global analysis.

La lengua de los ahogados Fernando Clemot 2022-01-21 Dieciséis cuentos de un autor maduro en sus obsesiones: la memoria trabajada, la ironía sutil, el talento para narrar desde múltiples perspectivas. Fernando Clemot ya había demostrado en libros anteriores sus capacidades para la novela y el cuento. En "La lengua de los ahogados" se arrima a una prosa poética cambiante, a la que no le falta ni le sobra nada. Nada más que el exceso propio del que trae relatos sobre amor, venganza, infancia y ambigüedad. Uno que sabe alimentar sus cuentos con silencio y rodeos. Fernando Clemot (Barcelona, 1970) es un escritor y docente catalán. Publicó los libros de cuentos "Estancos del Chiado" (2009, Premio Setenil al mejor en España dentro de ese género), "Safaris inolvidables" (2012) y "La lengua de los ahogados" (2016). Suyas son además las novelas "El golfo de los Poetas" (2009), "El libro de las maravillas" (2011), "Polaris" (2015) y "Fiume" (2021). Las obras de Clemot han recibido múltiples premios y se han presentado en certámenes internacionales. Sus relatos aparecen en distintas antologías. Actualmente imparte talleres de escritura creativa en la Universidad Autónoma de Barcelona -cuyos principios sintetizó en "Cómo armar y desarmar un relato" (2014)- y dirige la revista literaria Quimera.

New World Poetics George B. Handley 2010 A simultaneously ecocritical and comparative study, *New World Poetics* plumbs the earthly depth and social breadth of the poetry of Walt Whitman, Pablo Neruda, and Derek Walcott, three of the Americas' most ambitious and epic-minded poets. In Whitman's call for a poetry of New World possibility, Neruda's invocation of an "American love," and Walcott's investment in the poetic ironies of an American epic, the adamic imagination of their poetry does not reinvent the mythical Garden that stands before history's beginnings but instead taps the foundational powers of language before a natural world deeply imbued with the traces of human time. Theirs is a postlapsarian Adam seeking a renewed sense of place in a biocentric and cross-cultural New World through language and nature's capacity for regeneration in the wake of human violence and suffering. The book introduces the environmental history of the Americas and its relationship to the foundation of American and Latin American studies, explores its relevance to each poet's ambition to recuperate the New World's lost histories, and provides a transnational poetics of understanding literary influence and textual

simultaneity in the Americas. The study provides much needed in-depth ecocritical readings of the major poems of the three poets, insisting on the need for thoughtful regard for the challenge to human imagination and culture posed by nature's regenerative powers; nuanced appreciation for the difficulty of balancing the demands of social justice within the context of deep time; and the symptomatic dangers as well as healing potential of human self-consciousness in light of global environmental degradation.

One River, One Love Luis Cernuda 2015 A new translation of *Un río, un amor* (One River, One Love) by Luis Cernuda (1902-1963). Written in France and Spain in 1928-1929, this collection reflects the influences, conflicts and impulses that governed the poet's life then and is faithful to the author's quasi-Surrealist intentions.

Secrecy and Deceit David Martin Gitlitz 2002 *Secrecy and Deceit* documents the religious customs of the Iberian Jews who converted to Catholicism, largely under duress, in the fourteenth and fifteenth centuries. Although many of the converts quickly melded into the Catholic mainstream, thousands of others and their descendents strove to preserve their Jewish culture despite the efforts of the Inquisition to suppress them. The book details crypto-Jewish culture in Spain, Portugal, and their American colonies, principally Mexico, Peru, and Brazil. The author uses Inquisition records, chronicles, rabbinical rulings, letters, eyewitness accounts, religious books, and other historical documents to give the most thorough and accurate picture of crypto-Jews ever cataloged. This book raises questions about living outside a Jewish community and what happens to religions of approximation.
