Visions of the end in Medieval Spain John Williams 2017-04-25 Never before have all twenty-nine illustrated copies of the Beatus Commentaries on the Apocalypse been brought together for comparative analysis in a single volume. John Williams, renowned expert on the Commentaries, offers here his updated considerations on the material, revising and summing up a lifetime of study on these strikingly illuminated manuscripts. Dating from the early to central Middle Ages, the Spanish phenomenon of the Commentary on the Apocalypse responded to differing monastic needs within the shifting context of the Middle Ages. The volume also presents an in-depth study of the recently discovered Geneva Beatus. One of only three Commentaries written outside the Iberian Peninsula, this manuscript closely follows a Spanish model but was written in a Beneventan script and painted in a style dramatically different from the original.

Writing Beyond Pen and Parchment Ricarda Wagner 2019-10-21 What can stories of magical engraved rings or prophetic inscriptions on walls tell us about how writing was perceived before print transformed the world? *Writing beyond Pen and Parchment* introduces readers to a Middle Ages where writing is not confined to manuscripts but is inscribed in the broader material world, in textiles and tombs, on weapons or human skin. Drawing on the work done at the Collaborative Research Centre “Material Text Cultures,” (SFB 933) this volume presents a comparative overview of how and where text-bearing artefacts appear in medieval German, Old Norse, British, French, Italian and Iberian literary traditions, and also traces the paths inscribed objects chart across multiple linguistic and cultural traditions. The volume’s focus on the raw materials and practices that shaped artefacts both mundane or fantastical in medieval narratives offers a fresh perspective on the medieval world that takes seriously the vibrancy of matter as a vital aspect of textual culture often overlooked.

Magic Ernesto De Martino 2015 The work of Ernesto de Martino is relatively unknown outside of Italian intellectual circles, but with a growing interest in his ethnographic and theoretical work, he is now widely considered to be one of the great anthropologists and historians of religion of the early twentieth century. **Magic: A theory from the south** (first published in Italian as *Sud e Magia*) is de Martino's stunning ethnography of ceremonial magic in southern Italy (Luciana/Basilicata), an intimate "other" to Western European civilization. Rigorous and detailed analyses of evil eye, possession, witchcraft, religious belief, "binding," exorcism, and various magical practices lead de Martino to question the historical, ideological, ritual, psychological, and pragmatic grounds of the arts of enchantment. The question here is not whether magic is irrational or rational, but why it came to be perceived as a problem of knowledge in the first place. De Martino's response is contextualized within his wider, pathbreaking theorization of ritual, as well as his politically sensitive reading of the south's subaltern culture in its historical encounter with Western science. In addition to the ethnography, De Martino's historical anthropology traces the development of "jettatura" in Enlightenment Naples as a paradigm of the complex dynamics between hegemonic and subaltern cultures. Far ahead of its time, this first English edition (annotated and translated by Dorothy Louise Zinn) stands to be as relevant as ever as anthropologists (among others) continue to theorize modernity's continued tryst with magical thinking. 1st Edition Publication Data: [1959] 2001. *Sud e magia*. The Worlds of Langston Hughes Vera M. Kutzinski 2012-10-15 The poet Langston Hughes was a tireless world traveler and a prolific translator, editor, and marketer. Translations of his own writings traveled even more widely than he did, earning him adulation throughout Europe, Asia, and especially the Americas. In *The Worlds of Langston Hughes*, Vera Kutzinski contends that, for writers who are part of the African diaspora, translation is more than just a literary practice: it is a fact of life and a way of thinking. Focusing on Hughes's autobiographies, translations of his poetry, his own translations, and the political lyrics that brought him to the attention of the infamous McCarthy Committee, she shows that translating and being translated—and often mistranslated—are as vital to Hughes's own poetics as they are to understanding the historical network of cultural relations known as literary modernism. As Kutzinski maps the trajectory of Hughes's writings across Europe and the Americas, we see the remarkable extent to which the translations of his poetry were in conversation with the work of other modernist writers. Kutzinski spotlights cities whose role as meeting places for modernists from all over the world has yet to be fully explored: Madrid, Havana, Buenos Aires, Mexico City, and of course Harlem. The result is a fresh look at Hughes, not as a solitary author who wrote in a single language, but as an international figure at the heart of a global intellectual and artistic formation.

Exploring Bach's B-minor Mass Yo Tomita 2013-10-17 The B-minor Mass has always represented a fascinating challenge to musical scholarship. Composed over the course of Johann Sebastian Bach's life, it is considered by many to be the composer's greatest and most complex work. The fourteen essays assembled in this volume originate from the International Symposium 'Understanding Bach's B-minor mass' at which scholars from eighteen countries gathered to debate the latest topics in the field. In revised and updated form, they comprise a thorough and systematic study of Bach's Opus Ultimum, including a wide range of discussions relating to the Mass's historical background and contexts, structure and proportion, sources and editions, and the reception of the work in the late eighteenth and early nineteenth centuries. In the light of important new developments in the study of the piece, this collection demonstrates the innovation and rigour for which Bach scholarship has become known.

The Chants of the Vatican Gradual Dominic Johner 2016-11-15 In response to many requests for a book descriptive and explanatory of the Gregorian Mass chants, the monks of St. John's Abbey, Collegeville, Minn., undertook the translation from the German of Dom Johner's work under the above title. In the foreword the author indicates the scope of his work. He writes: "The present work is intended chiefly to serve as an aid to the prayerful rendition of the variable chanted parts of the Mass. At the same time it aims to be a guide for the worthy and artistic rendition of those chants which have been handed down to us from an age of strong faith and noble taste." Chant is essentially a form of worship offered by the faithful and as such is an integral part of the liturgy. It is intimately connected with the very source of all Liturgy, the Eucharistic Sacrifice, and attempts to interpret and express in music the sentiments which the text expresses in words. Individual consideration is given to the texts of the Introit, Gradual, Alleluia-verse, Tract, Sequence, Offertory, and Communion. These texts are given in Latin and in English, and are arranged in parallel columns. They are studied in their historical and liturgical setting, and their sentiments of joy and sorrow, hope and fear, gratitude and penance, are pointed out and developed. In this sense also the intimate relationship existing between these various texts is indicated; all are integrated into a unified whole and referred to the life of Christ and His Church. Following this short meditation, the author analyses the musical score accompanying the text, and attempts to show how Gregorian Chant interprets these various sentiments and gives adequate expression to them in short, how Gregorian Chant is the perfect yet simple medium of translating religious emotion into the language of music. An indispensable condition for the intelligent use of this book as a guide for interpretation is the simultaneous use of the Vatican Gradual, since musical notation has not been included in the present work. However, only a minimum and very elementary knowledge of Gregorian Chant is necessary for the fruitful use and understanding of the book. Further knowledge is given in a very significant Introduction, which describes the structure and expressiveness of the variable Mass Chants. The original German, as also the English manuscript, have been made the basis for a very successful summer school course in the study of Gregorian Chant. The book might adequately be described as "a study in the appreciation of Gregorian Chant."

La cultura del vino Oriol Segarra 2012-07-16 La cultura del vino es el libro idóneo para cualquier aficionado al vino, con más o menos conocimientos, que quiera iniciarse en su fabuloso mundo y en su cultura de una forma profunda, rigurosa y extensa, pero desde un punto de vista ameno, práctico y divertido, pensado para aficionados. El libro proporciona un equilibrio perfecto entre los complejos manuales de experto que aburren a un aficionado y los libros demasiado superficiales y oportunistas, tocando todos los temas importantes y llegando al porqué de las cosas, pero partiendo desde cero y sin ahondar en las áridas extensiones técnicas de los manuales, atlas o guías muy extensas. Oriol Segarra ha dedicado parte de su vida a la investigación de todo lo relacionado con la cultura del vino hasta convertirse en un referente destacado. Esta obra es el resultado de sus conocimientos y de su afán de compartirlos con todo aquel que, como él, se sienta, atraído por este aspecto de la cultura tan rico en matices como interesante y profundo.

The Trotula Monica H. Green 2001-03-19 The Trotula was the most influential compendium on women's medicine in medieval Europe. Scholarly debate has long focused on the traditional attribution of the work to the mysterious Trotula, said to have been the first female professor of medicine in eleventh- or twelfth-century Salerno, just south of Naples, then the leading center of medical learning in Europe. Yet as

Monica H. Green reveals in her introduction to this first edition of the Latin text since the sixteenth century, and the first English translation of the book ever based upon a medieval form of the text, the Trotula is not a single treatise but an ensemble of three independent works, each by a different author. To varying degrees, these three works reflect the synthesis of indigenous practices of southern Italians with the new theories, practices, and medicinal substances coming out of the Arabic world. Arguing that these texts can be understood only within the intellectual and social context that produced them, Green analyzes them against the background of historical gynecological literature as well as current knowledge about women's lives in twelfth-century southern Italy. She examines the history and composition of the three works and introduces the reader to the medical culture of medieval Salerno from which they emerged. Among her findings is that the second of the three texts, "On the Treatments for Women," does derive from the work of a Salernitan woman healer named Trota. However, the other two texts—"On the Conditions of Women" and "On Women's Cosmetics"—are probably of male authorship, a fact indicating the complex gender relations surrounding the production and use of knowledge about the female body. Through an exhaustive study of the extant manuscripts of the Trotula, Green presents a critical edition of the so-called standardized Trotula ensemble, a composite form of the texts that was produced in the mid-thirteenth century and circulated widely in learned circles. The facing-page complete English translation makes the work accessible to a broad audience of readers interested in medieval history, women's studies, and premodern systems of medical thought and practice.
