Korean Jaehoon Yeon 2019-06-25 Korean: A Comprehensive Grammar is a reference to Korean grammar, and presents a thorough overview of the language, concentrating on the real patterns of use in modern Korean. The book moves from the alphabet and pronunciation through morphology and word classes to a detailed analysis of sentence structures and semantic features such as aspect, tense, speech styles and negation. Updated and revised, this new edition includes lively descriptions of Korean grammar, taking into account the latest research in Korean linguistics. More lower-frequency grammar patterns have been added, and extra examples have been included throughout the text. The unrivalled depth and range of this updated edition of Korean: A Comprehensive Grammar makes it an essential reference source on the Korean language.

Surf Like a Girl Carolina Amell 2019-09-10 Whether they're threading a barrel or shredding a swell, these amazing women are making enormous waves in the world of surfing. If you thought surfing was a male-dominated sport, think again. The thirty women surfers profiled in this thrilling collection can rip a wave with the best of them. Hailing from all over the world, each surfer is featured in spectacular photography and with their own inspirational words. There's American professional surfer Lindsay Steinriede on how her father's death has inspired her career; French board shaper Valerie Duprat on how she got her start "sculpting foam"; Conchita Rossler, founder of Mooana Retreat in Portugal, on connecting mind, body, and spirit; and Australian photographer Cait Miers on empowering women. You'll also meet surfers who are over sixty, who surf while pregnant, who captain boats, teach yoga, and make movies. Breathtaking photography captures these women from every angle, on and off the waves, in some of the world's most visually stunning locations. The perfect gift for surfing enthusiasts, this unique compilation of stunning pictures and hard-won wisdom proves that the thrill of catching a wave, riding it, and kicking out belongs to everyone.

health advocates. Collectively, they address such questions as: Are GM foods safe and healthy for us? Will GM food really solve world hunger? Who really controls the power structure of food production? Are GM foods ecologically safe and sustainable? Why is it so difficult to get GM foods labeled in the US? What kinds of regulations and policies should be instituted? How is seed biodiversity, or lack thereof, affecting developing countries? Should animals be genetically modified for food? How are other countries handling GM crops? Ultimately, this definitive book encourages us to think about the social, environmental, and moral ramifications of where this particular branch of biotechnology is taking us, and what we should do about it.

Support and aspiration Great Britain: Department for Education 2011-03-09 This report unveils proposals for the biggest programme of reform in the education and health support for children with special educational needs (SEN) and disabilities in 30 years. The Government wants to fundamentally reform the SEN system to address problems including: parents having to battle to get the support their child needs; SEN statements not joining up education, health and care support; children falling between the gaps in services or having to undergo multiple assessments; multiple layers of paperwork and bureaucracy adding delays to getting support, therapy and vital equipment; confusing and adversarial assessment process, with the perceived conflict of interest where the local authority must provide SEN support as well as assess children's needs; too many children are being over-identified as SEN, preventing them from achieving their potential because teachers have lower expectations of them. The Government proposes to: include parents in the assessment process and introduce a legal right, by 2014, to give them control of funding for the support their child needs; replace statements with a single assessment process and a combined education, health and care plan so that health and social services is included in the package of support; ensure assessment and plans run from birth to 25 years old; replace the existing complicated School Action and School Action Plus system with a simpler new school-based category to help teachers focus on raising attainment; overhaul teacher training and professional development; inject greater independence from local authorities in assessments; give parents a greater choice of school and

Professor Stewart's Cabinet of Mathematical Curiosities Ian Stewart 2010-09-03 School maths is not the interesting part. The real fun is elsewhere. Like a magpie, Ian Stewart has collected the most enlightening, entertaining and vexing 'curiosities' of maths over the years... Now, the private collection is displayed in his cabinet. There are some hidden gems of logic, geometry and probability -- like how to extract a cherry from a cocktail glass (harder than you think), a pop up dodecahedron, the real reason why you can't divide anything by zero and some tips for making money by proving the obvious. Scattered among these are keys to unlocking the mysteries of Fermat's last theorem, the Poincaré Conjecture, chaos theory, and the P/NP problem for which a million dollar prize is on offer. There are beguiling secrets about familiar names like Pythagoras or prime numbers, as well as anecdotes about great mathematicians. Pull

out the drawers of the Professor's cabinet and who knows what could happen...
