"Textiles, Fashion, and Design Reform in Austria-Hungary Before the First World War "

Rebecca Houze 2017-07-05 Filling a critical gap in Vienna 1900 studies, this book offers a new reading of fin-de-si?e culture in the Austro-Hungarian Monarchy by looking at the unusual and widespread preoccupation with embroidery, fabrics, clothing, and fashion - both literally and metaphorically. The author resurrects lesser known critics, practitioners, and curators from obscurity, while also discussing the textile interests of better known figures, notably Gottfried Semper and Alois Riegl. Spanning the 50-year life of the Dual Monarchy, this study uncovers new territory in the history of art history, insists on the crucial place of women within modernism, and broadens the cultural history of Habsburg Central Europe by revealing the complex relationships among art history, women, and Austria-Hungary. Rebecca Houze surveys a wide range of materials, from craft and folk art to industrial design, and includes overlooked sources-from fashion magazines to World's Fair maps, from exhibition catalogues to museum lectures, from feminist journals to ethnographic collections. Restoring women to their place at the intersection of intellectual and artistic debates of the time, this book weaves together discourses of the academic, scientific, and commercial design communities with middle-class life as expressed through popular culture.

Designing Clothes Veronica Manlow 2018-05-04 Fashion is all around us: we see it, we buy it, we read about it, but most people know little about fashion as a business. Veronica Manlow considers the broader significance of fashion in society, the creative process of fashion design, and how fashion unfolds in an organizational context where design is conceived and executed. To get a true insider's perspective, she became an intern at fashion giant Tommy Hilfger. There, she observed and recorded how a business's culture is built on a brand that is linked to the charisma and style of its leader. Fashion firms are not just in the business of selling clothing along with a variety of sidelines. These companies must also sell a larger concept around which people can identify and distinguish themselves from others. Manlow defines the four main tasks of a fashion firm as creation of an image, translation of that image into a product, presentation of the product, and selling the product. Each of these processes is interrelated and each requires the efforts of a variety of specialists, who are often in distant locations. Manlow shows how the design and presentation of fashion is influenced by changes in society, both cultural and economic. Information about past sales and reception of items, as well as projective research informs design, manufacturing, sales, distribution, and marketing decisions. Manlow offers a comprehensive view of the ways in which creative decisions are made, leading up to the creation of actual styles. She helps to define the contribution fashion firms make in upholding, challenging, or redefining the social order. Readers will find this a fascinating examination of an industry that is quite visible, but little understood.

[Modest Fashion](#) Reina Lewis 2013-05-30 Increasing numbers of women are engaging in the development and discussion of modest dressing; a movement matched by a growing media and popular demand for intelligent commentary about the topic. *Modest Fashion* sets out to meet that need. As a trend, modest dressing is spreading across the world, yet it is rarely viewed as 'fashion'. Studying consumers and producers, retailers and bloggers, *Modest Fashion* provides an up to the minute account of the art of dressing modestly - and fashionably. Leading scholars in the area, along with journalists, fashion designers, entrepreneurs and bloggers discuss the emergence of a niche market for modest fashion among and between Jewish, Christian and Muslim faith groups as well as secular dressers. Crossing creeds and cultures, analysing commentary alongside commerce, the book probes the personal and the political as well as religious, aesthetic and economic implications of contemporary dress practices and the debates that surround them.
