Tolley's Practical Risk Assessment Handbook Mike Bateman 2006-08-14 Risk assessment has become the backbone of health and safety management in the UK and elsewhere. Employers have a legal duty to prove that risk assessments have been carried out and to ensure that appropriate precautions have been implemented. He covers both the general techniques and the assessment of specific risks, such as hazardous substances (COSHH), noise, manual handling, Display Screen Equipment (DSE) workstations, Personal Protective Equipment (PPE), fire, asbestos and work at height. The book is

practical in its approach to risk assessment rather than being overly legalistic or academic and tells the reader how to go about risk assessment, not just what the legislation requires. It contains numerous checklists, forms and worked examples for a variety of hazards and industries. This edition has been fully updated to take into account the impact of the following requirements on risk assessments: Work at Height Regulations 2005 – full new chapter Control of Noise at Work Regulations 2005 Regulatory Reform (Fire Safety) Order (RRFSO) 2006 Mike Bateman runs his own health and safety consultancy and specialises in risk assessments. assume that readers are fully conversant with electrical theory. It assumes just a basic knowledge and introduces technical matter with brief easy-to-understand explanations. His Guide is a recognised brand, has consistently been a bestseller and regarded as THE guide to the Wiring Regulations. This 4th Edition covers Amendment 3:2015, regarded as 'potentially life-saving', which comes into effect July 2015. As in earlier editions, all useful relevant details derived from other IET publications such as Guidance Notes, Wiring Matters, which might otherwise be overlooked by electricians, are included. Importantly the Guide also benefits from the most up-to-date, hands-on expertise provided by the co-author, Andrew Hay-Ellis, whose credentials are second-to-none. He is an established author of vocational electrical books and, amongst other functions, is a Chief Examiner at City & Guilds.
