English for Specific Purposes Tom Hutchinson 1987-01-29 English for Specific Purposes offers the teacher a new perspective on this important field. The main concern is effective learning and how this can best be achieved in ESP courses. The authors discuss the evolution of ESP and its position today; the role of the ESP teacher; course design; syllabuses; materials; teaching methods, and evaluation procedures. It will be of interest to all teachers who are concerned with ESP. Those who are new to the field will find it a thorough, practical introduction while those with more extensive experience will find its approach both stimulating and innovative.

Deep Learning for Coders with fastai and PyTorch Jeremy Howard 2020-06-29 Deep learning is often viewed as the exclusive domain of math PhDs and big tech companies. But as this hands-on guide demonstrates, programmers comfortable with Python can achieve impressive results in deep learning with little math background, small amounts of data, and minimal code. How? With fastai, the first library to provide a consistent interface to the most frequently used deep learning applications. Authors Jeremy Howard and Sylvain Gugger, the creators of fastai, show you how to train a model on a wide range of tasks using fastai and PyTorch. You'll also dive progressively further into deep learning theory to gain a complete understanding of the algorithms behind the scenes. Train models in computer vision, natural language processing, tabular data, and collaborative filtering Learn the latest deep learning techniques that matter most in practice Improve accuracy, speed, and reliability by understanding how deep learning models work Discover how to turn your models into web applications Implement deep learning algorithms from scratch Consider the ethical implications of your work Gain insight from the foreword by PyTorch cofounder, Soumith Chintala

Michael Chekhov and Sanford Meisner Anjalee Deshpande Hutchinson 2020-07-17
Michael Chekhov and Sanford Meisner: Collisions and Convergence in Actor Training offers a comprehensive analysis of the Sanford Meisner Acting Technique in comparison to the Michael Chekhov Acting Technique. This compilation reveals the connections as well as the contradictions between these two very different approaches, while highlighting meaningful bridges and offering in-depth essays from a variety of sources, including master teachers with years of experience and new and rising stars in the field. The authors provide philosophical arguments on actor training, innovative approaches to methodology, and explorations into integration, as well as practical methods of application for the classroom or rehearsal room, or scaffolded into a curriculum. Michael Chekhov and Sanford Meisner: Collisions and Convergence in Actor Training is an excellent resource for professors teaching Introductory, Intermediate or Advanced Acting Technique as well as acting program directors and department chairs seeking new, impactful research on actor training.
