*Early Childhood Curriculum* Claire McLachlan 2013-01-02 The second edition of *Early Childhood Curriculum* provides a comprehensive and lively introduction to curriculum theories, approaches and issues in early childhood settings. Drawing on contemporary research and case studies, the book employs a cultural-historical framework to illustrate a variety of approaches to early childhood education. In this new edition there is an up-to-date coverage of national curriculum documents, including the Early Years Framework and Te Whariki, a glossary of key terms and learning intentions at the beginning of each chapter. There is also an updated companion website at [www.cambridge.edu.au/academic/earlychildhood](http://www.cambridge.edu.au/academic/earlychildhood). In each chapter, hypothetical transcripts and real-world examples help bring theory to life. The book explores specific domain areas, including science and mathematics; literacy and language; information and communication technology; the arts; and health and well-being. *Early Childhood Curriculum* equips pre-service teachers with the practical skills and tools to promote young children's learning. It is an essential resource for pre-service teachers and practitioners alike.

Language, Learning, and Culture in Early Childhood Ann Anderson 2015-12-07 Complex factors affect young children and their families in today's increasingly diverse world characterized by globalization, the transnational movement of people, and neo-liberal government policies in western and industrialized countries. This book focuses on three of these factors—culture, language and learning—and how they affect children's development and learning in the context of their communities, families and schools. Taking an ecological perspective, it challenges normative and hegemonic views of young children's language, literacy and numeracy development and offers examples of demonstrated educational practices that acknowledge and build on the knowledge that children develop and learn in culturally specific ways in their homes and communities. The authors highlight issues and perspectives that are particular to Indigenous people who have been subjected to centuries of assimilationist and colonialist policies and practices, and the importance of first or home language maintenance and its cognitive, cultural, economic, psychological and social benefits. Links are provided to a package of audio-video resources (<http://blogs.ubc.ca/intersectionworkshop/>) including key note speeches and interviews with leading international scholars, and a collection of vignettes from the workshop from which this volume was produced .

**Organizing and Managing the Language Arts Block** Lesley Mandel Morrow 2003-01-01 This book offers essential guidance to preservice and inservice teachers seeking to create, revise, or add new strategies to the teaching of the language arts block. The focus is on how to implement effective strategies in the context of a well-planned classroom and a smoothly choreographed daily schedule. In a series of vivid case studies, Lesley Mandel Morrow brings to life the methods used by exemplary teachers to create rich, student-friendly learning environments for children in grades K-4. No component of organizing the language arts block is omitted, including setting up and running classroom learning centers, assessing different instructional needs, conducting whole-class and small group meetings, and linking language arts to content area instruction. Enhancing the practical utility of the book are sample daily schedules and classroom management tips for each grade level, along with dozens of reproducible learning activities, lesson plans, and assessment and record-keeping tools.

*Teaching Kids to Be Confident, Effective Communicators* Phil Schlemmer 2011-03-01 Build children's proficiency with oral and written communication, promote social and emotional learning (SEL), and help students work toward standards while developing critical skills they'll need in later grades. This practical and unique resource presents 18 classroom-tested projects, called

"openings," in core curricular areas. Students research topics and present what they have learned to their peers with this kids-teaching-kids approach to differentiated, project-based learning. Projects align with content standards in core curricular areas. Digital content includes the book's reproducible forms (customizable and printable) and three bonus openings.

*Home Learning Environments for Young Children* Cathy Nutbrown 2022-04-07 By bringing together research evidence on effectively supporting parents to engage with their children's early learning, and the role of education professionals in developing partnerships with families, this book focuses on partnerships between professionals and parents to enhance family learning for young children in literacy and other aspects of early learning. The move towards setting, home-based, and online learning has accelerated, and it is important for both students and practitioners to value parents' roles in their young children's learning; to consider how parents can support young children's learning in these scenarios, and how to apply this in practice with children aged birth to five. Through a wealth of case studies from real experience, the authors showcase an inspiring range of inclusive projects and approaches with families, including marginalised groups such as bilingual learners, fostering families, and families identified as 'vulnerable' including imprisoned fathers and children with specific learning needs.

**Early Literacy Work with Families** Cathy Nutbrown 2005-09-15 `The 'Raising Early Achievement in Literacy' or REAL project was the result of a collaboration between the University of Sheffield, Sheffield LEA and schools and centres across the city of Sheffield, starting in 1995. For those interested in developing their own projects in this field it will provide essential information. It contains many examples of work carried out this in this project. Many examples are given that could prompt practitioners to identify ways in which they too could focus their own input with children or help their parent group to interact with their children's developing literacy' - Early Years Update `A "must read" for practitioners, policy makers and researchers interested in the detail and the theory underpinning this important family literacy initiative' - Neil McClelland OBE, Director, National Literacy Trust `The REAL Project is one of the best conceptualized, most intensively documented and successful British family literacy initiatives and the book provides a comprehensive overview of all aspects of this powerful project. It is essential reading for anyone working alongside families to promote children's early development' - Professor Nigel Hall, Institute of Education, Manchester Metropolitan University 'The project described in detail in this book is arguably the most important and well-researched UK initiative for developing early literacy work with parents of young children. ... Readers will find inspirational case studies ... There are illuminating insights into children's perspectives on family literacy, including good news about fathers and boys. ... Don't miss it!' - Marian Whitehead, Nursery World Anyone involved in the field of early-childhood literacy should be familiar with the work of the REAL (Raising Early Achievement in Literacy) Project. Here, leading members

of the project team Cathy Nutbrown, Peter Hannon and Anne Morgan, discuss the research. An essential guide to the subject, this book will be of great practical use to all in the field of early childhood literacy: students, practitioners and course leaders on literacy and early childhood courses. The authors discuss the policy contexts of early-childhood and literacy today and use their experience of the REAL project to discuss and illustrate practical research and evaluation strategies for family literacy workers. They examine the issues from all perspectives: teachers, parents and young children. The book concludes with examples of how the theoretical framework of the REAL Project (ORIM) has been used by other practitioners and an examination of the implications of such work for the future of early-childhood and literacy policy development. The book also includes: - An informative update on research in the field - A description of the family literacy programme - Useful activities for family literacy work - Guidelines for interviewing parents and children - Suggestions for how to evaluate family literacy work - Ideas for practical sessions for professional development for family literacy workers - A Guide to further reading This is an important book and should be read by anyone wishing to keep pace with the field of family literacy in early childhood education.

*Why Kids Can't Spell* Roberta Heembrock 2008-08-29 Why Kids Can't Spell is a resource reference book for parents and educators who have an interest in and a concern for children's spelling ability. The purpose of this book is to

encourage and foster good spelling practices in the home and at school to reflect modern teaching methods. The design of this book uses a scope and sequence format with each chapter building on the previous one. Every chapter includes a discussion on spelling background knowledge. In this section one finds an analysis of children's writing samples, in accordance with J. Richard Gentry and Jean Wallace Gillet's Model of Spelling Development. This is followed by numerous inquiry-based, project based and generative ideas and activities. The activities in this book are practical and easy to prepare, use readily available materials and are meant to facilitate readers' understanding. All chapters are related and therefore, the reader is encouraged to browse and borrow from any chapter. The activities may be modified in order to appropriately challenge and meet individual needs.
