Spanish Graphic Narratives Collin McKinney 2020-11-30 Spanish Graphic Narratives examines the most recent thematic and critical developments in Spanish sequential art, with essays focusing on comics published in Spain since 2007. Considering Spain's rich literary history, contentious Civil War (1936–39), oppressive Francisco Franco regime (1939–75), and progressive contemporary politics, both the recent graphic novel production in Spain and the thematic focal points of the essays here are greatly varied. Topics of particular interest include studies on the subject of historical and personal memory; representations of gender, race, and identity; and texts dealing with Spanish customs, traditions, and the current political situation in Spain. These overarching topics share many points of contact one with another, and this interrelationship (as well as the many points of divergence) is illustrative of the uniqueness, diversity, and paradoxes of literary and cultural production in modern-day Spain, thus illuminating our understanding of Spanish national consciousness in the present day.

*Queen of Angels* Greg Bear 2014-04-01 Hugo Award Finalist: A near-future novel of artificial intelligence, human nature, and mass murder that “succeeds on virtually every level” (The New York Times Book Review). In Los Angeles in 2047, advances in the science of psychology have made crime a rare occurrence. So it’s utterly shocking when eight bodies are detected in an apartment, and not long afterward the perpetrator is revealed as well: noted poet Emmanuel Goldsmith. The LAPD’s Mary Choy—who has had both her appearance and her police work enhanced by nanotechnology—is tasked with arresting the killer, while psychotherapy pioneer Martin Burke prepares to explore his mind. Meanwhile, Goldsmith’s good friend and fellow writer reels at the news—while, far from all of them, a space probe makes a startling discovery. This “excellent” novel about technology, identity, and the nature of consciousness is a thought-provoking stunner by the Nebula Award–winning author of the Eon series and the Forerunner Saga (Chicago Tribune).

*Spanish Society, 1348–1700* Teofilo F Ruiz 2017-06-26 Beginning with the Black Death in 1348 and extending through to the demise of Habsburg rule in 1700, this second edition of *Spanish Society, 1348–1700* has been expanded to provide a wide and compelling exploration of Spain's transition from the Middle Ages to modernity. Each chapter builds on the first edition by offering new evidence of the changes in Spain's social structure between the fourteenth and seventeenth century. Every part of society is examined, culminating in a final section that is entirely new to the second edition and presents the changing social practices of the period, particularly in response to the growing crises facing Spain as it moved into the seventeenth century. Also new to this edition is a consideration of the social meaning of culture, specifically the presence of Hermetic themes and of magical elements in Golden Age literature and Cervantes' *Don Quijote*. Through the extensive use of case studies, historical examples and literary extracts, *Spanish Society* is an ideal way for students to gain direct access to this captivating period.

A história apresenta-nos um ingênuo senhor rural que adorava ler livros de cavalaria e acreditava, de verdade, nas aventuras escritas. Assim, decide tornar-se um cavaleiro andante e passa a viver como se estivesse na Idade Média. **A Comparative History of Literatures in the Iberian Peninsula** Fernando Cabo Aseguinolaza 2010-05-26 A Comparative History of Literatures in the Iberian Peninsula is the second comparative history of a new subseries with a regional focus, published by the Coordinating Committee of the International Comparative Literature Association. As its predecessor for East-Central Europe, this two-volume history distances itself from traditional histories built around periods and movements, and explores, from a comparative viewpoint, a space considered to be a powerful symbol of inter-literary relations. Both the geographical pertinence and its symbolic condition are obviously discussed, when not even contested. Written by an international team of researchers who are specialists in the field, this history is the first attempt at applying a comparative approach to the plurilingual and multicultural literatures in the Iberian Peninsula. The aim of comprehensiveness is abandoned in favor of a diverse and extensive array of key issues for a comparative agenda. A Comparative History of Literatures in the Iberian Peninsula undermines the primacy claimed for national and linguistic boundaries, and provides a geo-cultural account of literary inter-systems which cannot otherwise be explained.

**Spanish Poetry of the Twentieth Century** Andrew Debicki 2021-12-14 Twentieth-century Spanish poetry has received comparatively little attention from critics writing in English. Andrew Debicki now presents the first English-language history published in the United States to examine the sweep of modern Spanish verse. More important, he is the first to situate Spanish poetry in the context of European modernity, to trace its trajectory from the symbolists to the postmodernists. Avoiding the rigid generational schemes and catalogs of names found in traditional Hispanic literary histories, Debicki offers detailed discussions of salient books and texts to construct an original and compelling view of his subject. He demonstrates that contemporary Spanish verse is rooted in the modern tradition and poetics that see the text as a unique embodiment of complex experiences. He then traces the evolution of that tradition in the early decades of the century and its gradual disintegration from the 1950s to the present as Spanish poetry came to reflect features of the postmodern, especially the poetics of text as process rather than as product. By centering his study on major periods and examining within each the work of poets of different ages, Debicki

develops novel perspectives. The late 1960s and early 1970s, for example, were not merely the setting for a new aestheticist generation but an era of exceptional creativity in which both established and new writers engendered a profound, intertextual, and often self-referential lyricism. This book will be essential reading for specialists in modern Spanish letters, for advanced students, and for readers interested in comparative literature.

Otherness in Hispanic Culture Teresa Fernandez Ulloa 2014-06-26 This book addresses contemporary discourses on a wide variety of topics related to the ideological and epistemological changes of the 19th, 20th and 21st centuries, and the ways in which they have shaped the Spanish language and cultural manifestations in both Spain and Hispanic America. The majority of the chapters are concerned with 'otherness' in its various dimensions; the alien Other – foreign, immigrant, ethnically different, disempowered, female or minor – as well as the Other of different sexual orientation and/or ideology. Following Octavio Paz, otherness is expressed as the attempt to find the lost object of desire, the frustrating endeavour of the androgynous Plato wishing to embrace the other half of Zeus, who in his wrath, tore off from him. Otherness compels human beings to search for the complement from which they were severed. Thus a male joins a female, his other half, the only half that not only fills him but which allows him to return to the unity and reconciliation which is restored in its own perfection, formerly altered by divine will. As a result of this transformation, one can annul the distance that keeps us away from that which, not being our own, turns into a source of anguish. The clashing diversity of all things requires the human predisposition to accept that which is different. Such a predisposition is an expression of epistemological, ethical and political aperture. The disposition to co-exist with the different is imagined in the de-anthropocentricization of the bonds with all living realms. And otherness is, in some way, the reflection of sameness (*mismidad*). The other is closely related to the self, because the vision of the other implies a reflection about the self; it implies, consciously or not, a relationship with the self. These topics are addressed in this book from an interdisciplinary perspective, encompassing arts, humanities and social sciences.
