Esperanza 64 Julien Centaure 2017-05-21 Tout frais émoulus de l'École de l'Espace, Nil, Mila, Élisabeth et bien d'autres, sont en train de rejoindre l'Esperanza 64 en orbite. Comme son nom l'indique, le vaisseau est le 64e du nom et, à l'instar de ses prédécesseurs, il va, sous deux mois, être lancé vers une étoile proche dans le cadre du programme Exodus. Manoeuvré par un équipage de 4 000 hommes et femmes, il mettra des milliers d'années pour atteindre sa destination. Il emporte dans sa soute 25 000 000 de caissons, communément appelés cercueils, où sont conservés, congelés, les futurs colons de l'hypothétique exoplanète viable sur laquelle il faudra s'arrêter et s'implanter. Tous ces colons ont été désignés au hasard. Le programme Exodus est un projet totalement fou, violemment critiqué, d'autant plus qu'Exodus impose un secret absolu sur ce qui se passe à bord des Esperanzas. Il est sensé permettre, à terme, d'évacuer la moitié de la population d'une Terre exsangue, rétablissant ainsi l'équilibre des besoins et des ressources. Mais les Esperanzas ont-ils réellement une chance de réussir ? Très vite, l'équipage de l'Esperanza 64 va être confronté à la terrible réalité de l'espace.

Esperanza 64 Tome 3 : Sécession Julien Centaure 2019-01-20 20 ans après l'arrivée de l'Esperanza 64 en orbite de Terra, tous les colons, qui dormaient dans ses soutes, vivent désormais sur la planète. Chacun possède un logement, un travail et mange à sa faim. La mission, confiée par Exodus à l'équipage du grand vaisseau, peut donc être considérée comme accomplie. Cependant, ce succès se doit d'être relativisé, car la grande majorité des colons abhorrent le système en place. Ils voudraient retrouver les fondements, si adaptés au genre humain, que sont la démocratie, la propriété privée et la liberté d'entreprendre. La révolution couve et Élisabeth, acculée, cherche désespérément une solution.

Arts-Based Research in Education Melisa Cahnmann-Taylor 2013-10-08 This text introduces readers to definitions and examples of arts-based educational research, presents tensions and questions in the field, and provides exercises for practice. It weaves together critical essays about arts-based research in the literary, visual, and performing arts with examples of artistic products of arts-based research (arts for scholarship's sake) that illuminate by example. Each artistic example is accompanied by a scholar's statement that includes reflection on how the work of art relates to the scholar's research interests and practices. *Arts-Based Research in Education: Foundations for Practice* helps the reader understand what arts-based research is – tracing the history of the field and providing examples; includes end-of-chapter questions to engage students in practicing arts-based inquiry and to generate class discussion about the material; features a diverse range of contributors -- very established scholars in educational and social science research as well those new to the field; represents a variety of voices – scholars of color, queer and straight orientations, different ages, experience, and nationalities; and presents beautiful illustrations of visual art, data-based poems, plays, short stories, and musical scores. First-of its kind, this volume is intended as a text for arts-based inquiry, qualitative research methods in education, and related courses, and as a resource for faculty, doctoral students, and scholars across the field of social science research methods.

Exclusion and Embrace, Revised and Updated Miroslav Volf 2019-08-20 Life in the twenty-first century presents a disturbing reality. Otherness, the simple fact of being different in some way, has come to be defined as in and of itself evil. Miroslav Volf contends that if the healing word of the gospel is to be heard today, Christian theology must find ways of speaking that address the hatred of the other. Is there any hope of embracing our enemies? Of opening the door to reconciliation? Reaching back to the New Testament metaphor of salvation as reconciliation, Volf proposes the idea of embrace as a theological response to the problem of exclusion. Increasingly we see that exclusion has become the primary sin, skewing our perceptions of reality and causing us to react out of fear and anger to all those who are not within our (ever-narrowing) circle. In light of this, Christians must learn that salvation comes, not only as we are reconciled to God, and not only as we "learn to live with one another," but as we take the dangerous and costly step of opening ourselves to the other, of enfolding him or her in the same embrace with which we have been enfolded by God. Volf won the 2002 Louisville Grawemeyer Award in Religion for the first edition of his book, *Exclusion & Embrace: A Theological Exploration of Identity, Otherness, and Reconciliation* (Abingdon, 1996). In that first edition, professor Volf, a Croatian by birth, analyzed the civil war and "ethnic cleansing" in the former Yugoslavia, and he readily found other examples of cultural, ethnic, and racial conflict to illustrate his points. Since September 11, 2001, and the subsequent epidemic of terror and massive refugee suffering throughout the world, Volf revised *Exclusion and Embrace* to account for the evolving dynamics of inter-ethnic and international strife.

Cultural Encounters Mary Elizabeth Perry 2018-08-14 More than just an expression of religious authority or an instrument of social control, the Inquisition was an arena where cultures met and clashed on both shores of the Atlantic. This pioneering volume examines how cultural identities were maintained despite oppression. Persecuted groups were able to survive the Inquisition by means of diverse strategies—whether Christianized Jews in Spain preserving their experiences in literature, or native American folk healers practicing medical care. These investigations of social resistance and cultural

persistence will reinforce the cultural significance of the Inquisition. Contributors: Jaime Contreras, Anne J. Cruz, Jesús M. De Bujanda, Richard E. Greenleaf, Stephen Haliczzer, Stanley M. Hordes, Richard L. Kagan, J. Jorge Klor de Alva, Moshe Lazar, Angus I. K. MacKay, Geraldine McKendrick, Roberto Moreno de los Arcos, Mary Elizabeth Perry, Noemí Quezada, María Helena Sanchez Ortega, Joseph H. Silverman This title is part of UC Press's Voices Revived program, which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice, reach, and impact. Drawing on a backlist dating to 1893, Voices Revived makes high-quality, peer-reviewed scholarship accessible once again using print-on-demand technology. This title was originally published in 1995.

Trade, Plunder and Settlement Kenneth R. Andrews 1984-11-29 Traces the maritime expansion of England through descriptions of a multitude of sea voyages from 1480 through 1630. Analyzes exploration, trading enterprise ventures and piracy and reveals how the attempts to create British settlements overseas resulted in the founding of the first New World colonies.

Christ Our Hope Paul O'Callaghan 2011 Christ Our Hope is a masterful reflection on Christian eschatology, in a textbook of twelve accessible chapters.

Esperanza Speaks Gloria Rudolf 2021-04-15 This short, engaging book details the life history of Esperanza Ruiz and four generations of her family. Their stories recount a century of change in a poor highland community in Panama, and how ordinary people struggle, survive, and impact history.

La esperanza pedagógica en la experiencia vivida de los educadores Raquel Ayala Carabajo 2021-11-18 El interés por la fenomenología hermenéutica aplicada no solo está vigente, sino que cobra cada vez más fuerza en el contexto hispanoamericano. El propósito que guía el trabajo de la autora es el de ofrecer orientaciones que contribuyan a un planteamiento coherente y significativo de esta forma de investigación, a la par que una profundización rigurosa en los significados de la experiencia vivida educativa. Así, este libro recoge la investigación sobre la esperanza pedagógica en la experiencia vivida de los educadores, que constituyó el primer estudio fenomenológico hermenéutico aplicado en español —y en una tesis doctoral—; y, al mismo tiempo, la primera introducción sistemática, profunda y exhaustiva a la metodología fenomenológico-hermenéutica de Max van Manen en el contexto hispanoamericano. Respondiendo a las solicitudes de académicos, desde diferentes ámbitos geográficos, para que el texto fenomenológico sea difundido; y, comprendiendo que hoy más que nunca resulta necesario explorar en profundidad los significados y sentidos de la esperanza pedagógica en la experiencia vivida de los educadores, se ofrece el documento íntegro del apartado correspondiente a los resultados de la investigación doctoral, culminada en marzo de 2009 (Departamento de Pedagogía Sistemática y Social, Universidad Autónoma de Barcelona).

Neotropical Birds of Prey David Whitacre 2013-05-15 Until recently, surprisingly little has been known

Downloaded from avenza-dev.avenza.com
on September 27, 2022 by guest

about the biology and behavior of tropical forest raptors, including such basic aspects as diets, breeding biology, habitat requirements, and population ecology, information critical to the development of conservation efforts. The Peregrine Fund conducted a significant eight-year-long research program on the raptor species, including owls, in Tikal National Park in Guatemala to learn more about Neotropical birds of prey. Impressive and unprecedented in scale, this pioneering research also involved the development of new methods for detecting, enumerating, and studying these magnificent but often elusive birds in their forest home. Beautifully illustrated with photographs of previously little-known species, the resulting book is the most important single source for information on the lowland tropical forest raptor species found in Central America. *Neotropical Birds of Prey* covers twenty specific species in depth, including the Ornate Hawk-Eagle, the Barred Forest-Falcon, the Bat Falcon, and the Mexican Wood Owl, offering thorough synopses of all current knowledge regarding breeding biology and behavior, diet, habitat use, and spatial needs. Contributors to this landmark work also show how the populations fit together as a community with overlapping habitat and prey needs that can put them in competition with reptiles and mammalian carnivores as well, yet differ from one another in their nesting or feeding behaviors and population dynamics. The work's substantive original data offer interesting comparisons between tropical and temperate zone species, and provide a basis for establishing conservation measures based on firsthand research. Making available for the first time new data on the biology, ecology, behavior, and conservation of the majestic owls and raptors of the New World tropics, this book will appeal to a wide ornithological readership, especially the many raptor enthusiasts around the world.
