Vertigo: Clinical Practice and Examination Philip Rajan Devesahayam 2012-12-30 Vertigo is the feeling that everything around is moving or spinning and is usually caused by a problem with the balance mechanisms in the inner ear. It can also be caused by problems in certain parts of the brain or vision disorders. This concise handbook is a quick reference introducing the key concepts of vertigo. Beginning with an explanation of the key terms and the causes of dizziness, the following chapters discuss the examination, diagnosis and management of vestibular (parts of the inner ear and brain that process the sensory information involved with controlling balance and eye movements) disorders. An ancillary DVD of 27 videos demonstrates clinical neuro-otologic examination techniques and clinical findings. Key Features Concise introduction to key concepts of vertigo Explains key terms, causes, examination, diagnosis and management Includes DVD demonstrating clinical examination techniques and findings

A New Youth? Elisabetta Ruspini 2016-03-16 *A New Youth?* provides a cross-cultural perspective on the challenges and problems posed by young people's transition to adulthood. The authors address questions such as: What are the experiences of being young in different European countries? What can we learn about the differences of being young in non-European countries? Are young people developing new attitudes towards society? What are the risks associated with the transition of youth to adulthood? Can we identify new attitudes about citizenship? On a more general level, are there experiences and new social meanings associated with youth? The volume is comparative between various European and non-European countries in order to identify the emerging models of transition. These characteristics are connected with broader social, political and cultural changes: changes related to extended education, increasing women's participation in the labour market, changing welfare regimes, as well as changes in political regimes and in the representation and construction of individual identities and biographies, towards an increasing individualization. The work offers critical reflections in the realm of sociology of youth by

providing broader understandings of the term 'youth'. The detailed analysis of new forms of marginality and social exclusion among young people offers valuable insight for policy development and political debate.

Emerging Technologies and Ethical Issues in Engineering National Academy of Engineering 2004-10-02 Engineers and ethicists participated in a workshop to discuss the responsible development of new technologies. Presenters examined four areas of engineering--sustainability, nanotechnology, neurotechnology, and energy--in terms of the ethical issues they present to engineers in particular and society as a whole. Approaches to ethical issues include: analyzing the factual, conceptual, application, and moral aspects of an issue; evaluating the risks and responsibilities of a particular course of action; and using theories of ethics or codes of ethics developed by engineering societies as a basis for decision making. Ethics can be built into the education of engineering students and professionals, either as an aspect of courses already being taught or as a component of engineering projects to be examined along with research findings. Engineering practice workshops can also be effective, particularly when they include discussions with experienced engineers. This volume includes papers on all of these topics by experts in many fields. The consensus among workshop participants is that material on ethics should be an ongoing part of engineering education and engineering practice.

Europa jenseits des Konvergenzparadigmas Christian Scholz 2019-05-27 Konvergenz im Sinne von Standardisierung und Harmonisierung ist in der Europäischen Union stets leitendes politisches Paradigma gewesen, um die europäischen Gesellschaften zu mehr Einheit, mehr Wohlstand und Solidarität zu führen. Der Nutzen für wirtschaftliche und währungspolitische Bereiche, den Handel oder den Klimaschutz liegt auf der Hand. Der interdisziplinäre Band, der sich an Forscher*innen, Studierende, aber auch die Politik und die interessierte Öffentlichkeit

richtet, stellt dieses Konvergenz-Paradigma konstruktiv in Frage: Welche Dynamiken existier(t)en in Europäisierungsprozessen, die zu Divergenz führen? Welche Potenziale wurden dadurch möglicherweise freigesetzt? Welche Mechanismen steuern diese Prozesse? Das Herausgeberteam aus dem Europa-Schwerpunkt der Universität des Saarlandes stellt Perspektiven auf (regional-)politische, rechtliche, wirtschaftliche, (sozio-)kulturelle und sprachpolitische Prozesse einander gegenüber. Mit Beiträgen von Tobias Chilla, Philippe Cossalter, Uwe Eisenbeis, Hans-Jürgen Lüsebrink, Roland Marti, Claudia Polzin-Haumann, Ettore Recchi, Christian Scholz, Volker Stein, Georg Wenzelburger, Arnd Wiedemann

Quantum Concepts in Physics Malcolm Longair 2013-01-31 Written for advanced undergraduates, physicists, and historians and philosophers of physics, this book tells the story of the development of our understanding of quantum phenomena through the extraordinary years of the first three decades of the twentieth century. Rather than following the standard axiomatic approach, this book adopts a historical perspective, explaining clearly and authoritatively how pioneers such as Heisenberg, Schrodinger, Pauli and Dirac developed the fundamentals of quantum mechanics and merged them into a coherent theory, and why the mathematical infrastructure of quantum mechanics has to be as complex as it is. The author creates a compelling narrative, providing a remarkable example of how physics and mathematics work in practice. The book encourages an enhanced appreciation of the interaction between mathematics, theory and experiment, helping the reader gain a deeper understanding of the development and content of quantum mechanics than any other text at this level.

Human Resource Management in Europe Christian Scholz 2008-08-18 The European Union is expanding. Wide cultural, political and economic differences within the Union have a significant impact on the management of human resources, so crucial to the success of any enterprise. Businesses within the EU have regularly tried to re-evaluate the context in which they work, and for investors from other continents, notably the US and Asia, the potential for expensive mistakes is only too real. In this comprehensive new book, the varied and particular challenges for human resource management in the EU are fully explored. Written in conjunction with the European Association for Personal Management (EAPM), the book offers country-by-country analysis from native authors, assessing the contexts faced by businesses working in thirteen different states: from founding EU members like France and Germany, to relatively new entrants like Latvia and Poland. The book also includes a chapter on Turkey, an emerging economy currently outside the Union. The key issues are addressed from both theoretical and practical perspectives, whilst each chapter is also complimented by best practice case studies.

Lifestyles of the Damned Thomas J. Misuraca 2009-06-01 MOM ... DAD ... I'M A VAMPIRE: Peter Stephano thought things would get easier once he became one of the undead. But when he comes out of the coffin to his family, their inability to accept his "choice of lifestyle" puts a damper on his homecoming. His father disowns him, his mother drags him to group therapy and his sister thinks it's all a delusion. On top of that, Peter is a misfit among the typical vampire crowd. He doesn't sleep in a coffin, hang at the vampire bars or dress in all black. He is searching for a happy medium between his vampirism and the life he wants to ... uhm ... live. ABOUT THE AUTHOR: Tom Misuraca was born and raised outside of Boston, Massachusetts. He received a BFA in writing from Emerson College, where his first short story, *If You Look At It, You May Die*, was published in their *Hyena Magazine*. After graduation, Tom moved to Los Angeles and continued studying writing at UCLA. Over eighty of his short stories have been accepted for publication in literary magazines all over the world. FirstStage L.A. in Hollywood has stage read some of his full-length and one-act plays. He also co-wrote the film, *Happy Holidays*. When he's not writing, he works as a graphic designer. Paranormal Journeys Paul Cagle 2010-10 They lurk in the darkest corners of a forgotten cemetery, within the shadows of a forlorn country hotel, among the swaying branches surrounding Devil Worshippers Mountain and inside the long corridors of an abandoned hospital. They are watching us, trying to make contact from the other side. They exist within a world between ours and the next. Take this journey with paranormal investigator Paul Cagle as he encounters supernatural phenomena while searching for the ultimate truth. It is a journey you will never forget.

Social Recruitment in HRM Monica Fait 2016-09-20 This book was born from the desire to analyze the role of social recruitment in human resources management. The first chapter analyzes theoretical background of social media communication and focuses on the trend to make use of these instruments in SMEs and public and non-profit sectors. The second chapter explores an analysis of social sphere through three perspectives: a) how it has changed the identity of individuals; b) the relationship between social media and aspects of personality; c) the correlation between social media and cultural dimensions. The third chapter, focuses on the advantages and limitations of social recruitment and examines how employer branding can be used strategically in order to attract potential candidates. The relationship between social network and recruitment has been analyzed through empirical research on public and non-profit sector and SMEs (using Cranet data) in the fourth chapter. The last chapter analyzes the competitive advantage which social recruitment can generate

Managing the Ageing Workforce in the East and the West Matt Flynn 2017-11-21 Employers all over the world are engaged with implementing human resource management (HRM) policies in order to encourage and facilitate longer working lives for an aging workforce. While there has been some scholarly investigation into workplaces challenges and changes in both Europe and North America, there has been less engagement with the significant challenges facing Asian businesses and little assessment of the common themes and regional differences. *Managing the Ageing Workforce in the East and the West* brings together HRM specialists from both Eastern and Western perspectives in a unique collaboration. Each chapter explores the universal relevance of human resource interventions into extending

working life, including phased retirement, healthy work environments and lifelong learning. The book assesses issues of implementation in differing cultural, intergenerational, institutional and family contexts. Rooted in a cross-cultural approach, the authors draw on a range of data from different geographic workforce contexts in order to identify over 150 variables relating to specific types of careers, including job content, employer policies, human capital, retirement plans, and quality of life expectations. Central to the study is measuring the complex relationship between individual workers' work and retirement expectations in relation to the differences in employer practices in the West and the East. The book will be essential reading for students and scholars of HRM and organizational studies, as well as human resource professionals, employers and chief executives, and employment and business consultants.

My Dear Charlotte Hazel Holt 2009-07-01 My Dear Charlotte is a British murder mystery that takes place in the Regency period. Unlike other popular Regency mysteries and romances, My Dear Charlotte is based on the letters of Jane Austen to her sister Cassandra. While the story is new, the details having to do with balls, dinners, and other social events are given in the words of Jane Austen herself, making this a historical mystery novel of extraordinary veracity.

What is Europe? Anna Triandafyllidou 2015-11-02 Europe is imbued with a multitude of social, cultural, economic and political meanings. The authors of this comprehensive text present an authoritative yet accessible introduction to understanding Europe today, moving beyond accounts of European integration to provide a holistic and nuanced study of contemporary Europe and its historical development. This book explores evolving definitions of Europe from antiquity, to the Cold War, right through to Europe in the midst of the Eurozone and global financial crises. By examining the different roles and meanings that Europe has held inside and outside of the continent, including the European Union's 'branding' of Europe, the text grounds its analysis in an understanding of Europe's plural. Chapters explore concepts of Europe as civilization, Europe as progress, Europe as unity and Europe as diversity. How do Europeans think of themselves and their respective national identities in a multicultural and multi-ethnic age? How has modernity and the pre- and post-industrial values of Europe affected the Europe of now and what are the political legacies of Europe? To what extent are notions of social solidarity shared across the continent? This is the first text to systematically answer these questions, and others, in order to better determine 'what is Europe?'

Work in the 21st Century Peter K. Ross 2017-07-13 This book provides practical guidance for policy makers, managers and workers trying to better understand the processes underpinning changing work environments and labour markets, while further developing academic perspectives and theoretical debate on the changing nature of work and workplaces in the 21st century.

Motion Sickness Lynne Tillman 2014-04-22 For the narrator of Motion Sickness, life is an unguided tour. Adrift in Europe, she improvises a life and a self. In London, she's befriended by an expatriate American Buddhist and her mysterious husband, or may or may not be stalking her. In Paris, she shacks up with Arlette, an art historian obsessed with Velazquez's painting "Las Meinas." In Amsterdam, she teams up with a Belgian friend, who is studying prostitutes, and she tours Italy with deeply mismatched English brothers. And, as with an epic journey, the true trajectory is inwards, ever inwards, into her own dreams and desires...
