A Natural History of the Piano Stuart Isacoff 2011-11-15 A beautifully illustrated, totally engrossing celebration of the piano, and the composers and performers who have made it their own. With honed sensitivity and unquestioned expertise, Stuart Isacoff—pianist, critic, teacher, and author of *Temperament: How Music Became a Battleground for the Great Minds of Western Civilization*—unfolds the ongoing history and evolution of the piano and all its myriad wonders: how its very sound provides the basis for emotional expression and individual style, and why it has so powerfully entertained generation upon generation of listeners. He illuminates the groundbreaking music of Mozart, Beethoven, Liszt, Schumann, and Debussy. He analyzes the breathtaking techniques of Glenn Gould, Oscar Peterson, Vladimir Ashkenazy, Arthur Rubinstein, and Van Cliburn, and he gives musicians including Alfred Brendel, Murray Perahia, Menahem Pressler, and Vladimir Horowitz the opportunity to discuss their approaches. Isacoff delineates how classical music and jazz influenced each other as the uniquely American art form progressed from ragtime, novelty, stride, boogie, bebop, and beyond, through Scott Joplin, Fats Waller, Duke Ellington, Bill Evans, Thelonious Monk, Chick Corea, Herbie Hancock, Cecil Taylor, and Bill Charlap. *A Natural History of the Piano* distills a lifetime of research and passion into one brilliant narrative. We witness Mozart unveiling his monumental concertos in Vienna's coffeehouses, using a special piano with one keyboard for the hands and another for the feet; European virtuoso Henri Herz entertaining rowdy miners during the California gold rush; Beethoven at his piano, conjuring healing angels to console a grieving mother who had lost her child; Liszt fainting in the arms of a page turner to spark an entire hall into hysterics. Here is the instrument in all its complexity and beauty. We learn of the incredible craftsmanship of a modern Steinway, the peculiarity of specialty pianos built for the Victorian household, the continuing innovation in keyboards including electronic ones. And most of all, we hear the music of the masters, from centuries ago and in our own age, brilliantly evoked and as marvelous as its most recent performance. With this wide-ranging volume, Isacoff gives us a must-have for music lovers, pianists, and the armchair musician.

Invisible Child Andrea Elliott 2021-10-05 PULITZER PRIZE WINNER • A “vivid and devastating” (The New York Times) portrait of an indomitable girl—from acclaimed journalist Andrea Elliott “From its first indelible pages to its rich and startling conclusion, *Invisible Child* had me, by turns, stricken, inspired, outraged, illuminated, in tears, and hungering for reimmersion in its Dickensian depths.”—Ayad Akhtar, author of *Homeland Elegies* ONE OF THE TEN BEST BOOKS OF THE YEAR: The New York Times • ONE OF THE BEST BOOKS OF THE YEAR: The Atlantic, The New York Times Book Review, Time, NPR, Library Journal In *Invisible Child*, Pulitzer Prize winner Andrea Elliott follows eight dramatic years in the life of Dasani, a girl whose imagination is as soaring as the skyscrapers near her Brooklyn shelter. As Dasani comes of age, New York City's homeless

crisis has exploded, deepening the chasm between rich and poor. She must guide her siblings through a world riddled by hunger, violence, racism, drug addiction, and the threat of foster care. A work of luminous and riveting prose, Elliott’s *Invisible Child* reads like a page-turning novel. SONOROUS No. 1 Harold Gutierrez 2016-09-01 SONOROUS No. 1 emphasizes the technical aspects of the first encounter of the young student with the piano. The first seven pieces are written with the primary elements: basic rhythm, coordination of fingers with their numbering response and hands alternation, over black keys. All these based on the principle in which rhythm is the foundation of music understanding; but always with interesting melodies and sophisticated harmonic implications. The next set of pieces includes more elements of music notation such as melodic contour, pitch direction and simple hand coordination, while reading in the staff around the middle C and on C position. Tempo marks, dynamics and accidentals are only used in the second half of the book after solidifying the basic elements. With the teacher's guidance and advice, the student will keep focus on the performance aspects and will build confidence about the new concepts understanding them through their practical use while listening to his/her musical achievements. Theory is not the main aspect in this book; it is not a method. Instead, "music making" is the primary goal acknowledging the capabilities of children in our current high-tech-digital modern era in which the young minds ?absorb? at an incredible pace. Friendly technical material (scales and exercises) can be found as bonus at the end of the book.

The Negro Motorist Green Book Victor H. Green The idea of "The Green Book" is to give the Motorist and Tourist a Guide not only of the Hotels and Tourist Homes in all of the large cities, but other classifications that will be found useful wherever he may be. Also facts and information that the Negro Motorist can use and depend upon. There are thousands of places that the public doesn't know about and aren't listed. Perhaps you know of some? If so send in their names and addresses and the kind of business, so that we might pass it along to the rest of your fellow Motorists. You will find it handy on your travels, whether at home or in some other state, and is up to date. Each year we are compiling new lists as some of these places move, or go out of business and new business places are started giving added employment to members of our race.
