Being Interprofessional Marilyn Hammick 2009-06-22 Working interprofessionally is an essential part of successful health and social care provision in the twenty-first century. This engaging and easy-to-follow new text highlights the need for collaboration between practitioners from all branches of health and social care. It offers an indispensable guide to learning and working better together, and shows what being interprofessional really means. The book encourages students to sharpen their understanding of concepts and theories surrounding collaborative practice, with a clear emphasis on theory, policy and practice. Chapter-by-chapter, the book takes readers through the most important and relevant issues in contemporary health and social care, including working in teams, learning from others, policy issues, working with children and adults, and specialist practice. Through student-friendly case studies and thoughtful learning exercises, it also considers ways of applying these ideas to the real world. It covers

work across the statutory, voluntary and community sectors, drawing on the insights and experiences of a wide range of service users, carers and a variety of practitioners. Being Interprofessional will be essential reading for students and practitioners in all branches of health and social care, such as nursing, social work, midwifery and youth work. Whatever their background, it will inspire readers to find new ways of working together to meet the needs of patients and clients.

Equity Sarah Worthington 2006-08-17 This second edition of Sarah Worthington's *Equity* maintains the clear ambitions of the first. It sets out the basic principles of equity, and illustrates them by reference to commercial and domestic examples of their operation. The book comprehensively and succinctly describes the role of equity in creating and developing rights and obligations, remedies and procedures that differ in important ways from those provided by the common law itself. Worthington delivers a complete reworking of the material traditionally described as equity. In doing this, she provides a thorough examination of the fundamental principles underpinning equity's most significant incursions into the modern law of property, contract, tort, and unjust enrichment. In addition, she exposes the possibilities, and the need, for coherent substantive integration of common law and equity. Such integration she perceives as crucial to the continuing success of the modern common law legal system. This book provides an accessible and elementary exploration of equity's place in our modern legal system, whilst also tackling the most taxing and controversial questions which our dual system of law and equity raises.

Coaching and Mentoring for Academic Development Kay Guccione 2021-03-30 Learning through dialogue brings a powerful opportunity to navigate professional demands and meet the challenges of a turbulent world. Written for all who mentor or coach in universities, this book addresses a critical question: how can mentoring and coaching be an effective and accessible way to support researcher and academic development?

Professional Identity and Social Work Stephen A. Webb 2017-06-26 How are identities formed among social workers, many of whom perform complex, challenging and ambiguous public sector functions on a regular basis? Why does identity come to matter for professional social work? This book, the first of its kind in the field, examines professional identity in relation to social work by asking how practitioners think of themselves as a "social worker", a professional self-concept often entangled in a range of relations, beliefs, values and experiences. Bringing together the perspectives of an internationally renowned group of specialists, the collection addresses a range of issues associated with professional identity construction and "being professional" in the context of a rapidly changing inter-professional environment. It introduces new concepts to social work, including materiality, enactment, performance, affect, entanglement, capital and worth, to consider the vexed issues surrounding matters of professional identity in social work. This will be an essential guide to all those keen to debate the challenges and possibilities confronting contemporary social work through the lens of professional identity, whether they are students, educators, practitioners, researchers, managers, policy-makers or associated professionals. It will also appeal to those interested in social theory, organisational sociology and leadership as well as anyone working in related fields of health and education.

Writing for Biomedical Sciences Students Harry Witchel 2020-02-14 This book will equip readers with all the skills needed to write convincing and polished assignments in biomedical sciences. The first part introduces the idea of writing for one's audience and enables readers to understand what's expected of them from different types of assignment. Part two provides detailed guidance on specific writing and presentation tasks, with individual chapters on essays, lab reports, reflective writing, posters and presentations. Parts three and four cover all of the key skills needed for successful writing in the biomedical sciences and help students develop a critical eye when selecting and researching information

and create clear, well-structured assignments. Chapters contain top tips, examples and helpful summaries of key points, and three annotated sample assignments are provided in an appendix. This is an essential companion to any student studying biomedical science or related disciplines such as physiology, biomedical engineering, pharmacy, medicine and dentistry.

Film Theory Robert Lapsley 1988 An account of film theory aimed at the cinemagoer and the student. It ranges from the late 1960s to the present, a period in which a number of conceptual strands were woven together. The authors chart the construction of this synthesis and its subsequent fragmentation, and elucidate the various intellectual currents contributing to it. The authors trace the shift from Althusserian Marxism to Lacanian psychoanalysis as the dominant paradigms for discussing aesthetic questions.-- From book jacket.

Mentoring and Supervision in Healthcare Neil Gopee 2011-04-30 This practical and accessible book examines the knowledge base, skills and attitudes required for mentoring in the context of healthcare. Revised and updated to take account of the latest developments in healthcare, the text explores theories and research on mentoring by analysing their strengths and weaknesses. To complement his analytical style, Neil Gopee has introduced more interactive features to emphasise the application of theories and principles to various clinical settings. He also draws on the most recent standards and competencies for mentors and supervisors, and examines how they can be applied in day-to-day mentoring and clinical practice activities. Key features include: - Comprehensive content - examines learning styles; different learning environments; evidence-based care; principles of assessment; the mentor's leadership; evaluation of teaching. - Practice-oriented - case studies offer links to 'real-life' and the chapters provide effective frameworks for mentoring in practice. - Interactive - activities and think points encourage the reader to explore and apply concepts to their practice and roles. - Up-to-date - firmly based on current knowledge in the field. *Mentoring and Supervision in Healthcare* is a core text for mentor preparation courses in nursing, midwifery and across the healthcare sector. It supports learning and ongoing professional development for all healthcare professionals.

Beginning Reflective Practice Melanie Jasper 2003 Chapters: - what is reflective practice? - knowing ourselves - frameworks for reflection - entering the clinical environment - ways of reflecting on your own - ways of reflecting with others [from table of contents].

Becoming a Midwife Rosemary Mander 2009-09-10 What is the reality of being a midwife at the beginning of the twenty-first century? What is it like to help and support women throughout pregnancy and childbirth and into motherhood? What roles can midwives play in society? *Becoming a Midwife* explores what it is to be a midwife, looking at the factors that make midwifery such a special profession, as well as some of the challenges. The chapters cover a variety of settings and several different stages in a woman's pregnancy. Each one is narrated by a midwife who introduces their own theme, recounts a vignette that throws light on their understanding of midwifery and reasons for becoming a midwife and any subsequent career moves. Drawing together these insights, the editors show what it means to be a midwife today. Suitable for those contemplating a career in midwifery and providing an opportunity for reflection for more experienced midwives, this thought-provoking book is an invaluable contribution to midwifery.

How to Write a Thesis Rowena Murray 2002 "How to Write a Thesis can be read with profit by anyone who writes professionally, whether proposals, reports, monographs or a thesis. It is oriented to someone writing a PhD thesis, but has a lot to say about writing in general. It deals with the process of writing rather than detailed content, and is applicable regardless of discipline" SRA "This is the book that all PhD supervisors and their students have been waiting for: the first comprehensive overview of the many different writing practices, and processes, involved in the production of a doctoral thesis. Crammed full of explanations, shortcuts and tips, this book demystifies academic writing in one fell swoop. Everyone who reads it will be massively enabled as a writer." Professor Lynne Pearce, Associate Dean for Postgraduate Teaching, University of Lancaster "Rowena Murray's down-to-earth approach both recognises and relieves some of the agony of writing a PhD. The advice in this book is both practical and motivational; sometimes it's 'PhD-saving' too. By using Rowena Murray's techniques of regular snacking, instead of occasional bingeing, I managed to rescue my PhD from near-death at a time of work overload." Christine Sinclair, Part-time PhD student and lecturer in Educational Development, University of Paisley This book evolved from fifteen years' experience of teaching thesis writing. The contents have been tried and tested with postgraduates and academics. Early chapters explore the ambiguities and subtleties of thesis writing in detail. Later chapters are more compact, listing steps in the writing process. All chapters provide examples to illustrate techniques and activities to progress writing.

Strategies for Facilitating Inclusive Campuses in Higher Education Jaimie Hoffman 2019-07-25 This volume provides educators with a global understanding of the successes and challenges associated with facilitating inclusive campuses in higher education amidst the growing diversity of students by providing evidence-based strategies and ideas for implementing equity and inclusion at higher education institutions around the world.

Crusoe's Books Bill Bell 2021-10-21 This is a book about readers on the move in the age of Victorian empire. It examines the libraries and reading habits of five reading constituencies from the long nineteenth century: shipboard emigrants, Australian convicts, Scottish settlers, polar explorers, and troops in the First World War. What was the role of reading in extreme circumstances? How were new meanings made under strange skies? How was reading connected with mobile communities in an age of expansion? Uncovering a vast range of sources from the period, from diaries, periodicals, and literary culture, Bill Bell reveals some remarkable and unanticipated insights into the way that reading operated within and upon the British Empire for over a century.

Social Entrepreneurship Constant Beugré 2016-11-03 Social entrepreneurship differs from traditional forms of entrepreneurship in that the primary goal of the social venture is to address social problems and needs that are as yet unmet. The driving force of such ventures is social value creation. This new textbook aims to provide a comprehensive, cutting edge resource for students, introducing them to the unique concerns and challenges that face social ventures through a comparison with the principles of traditional entrepreneurship. The book consists of fourteen chapters covering all aspects of venture creation and management—from writing a business plan, to financing, people management, marketing, and social impact measurement. Social Entrepreneurship uses real-life examples and sources to expose students to contemporary developments in the field, encouraging them to think critically about the issues faced by social ventures across the globe, and experiential exercises and assignments are included to provide students with hands-on experience in creating and managing their own social ventures. Also containing review and application questions, illustrative cases, definitions of key terms, and a comprehensive companion website, Social Entrepreneurship is the essential guide to this rapidly

emerging field. Visit the companion website at www.routledge.com/cw/beugre to find: For Instructors
