Bone Deep Charles Henry Bosworth 2022-02-22 The explosive, first-ever insider's account of a case that continues to fascinate the public—the shocking wrongful conviction of Russell Faria for his wife's murder—a gripping read told by New York Times bestselling true crime expert Charles Bosworth Jr. and Joel J. Schwartz, the defense attorney who battled for justice, and ultimately prevailed. On December 27th, 2011, Russell Faria returned to his Troy, Missouri, home after his weekly game night with friends to an unthinkable, grisly scene: His wife, Betsy, lay dead, a knife still lodged in her neck. She'd been stabbed fifty-five times. First responders concluded that Betsy was dead for hours when Russ discovered her. No blood was found implicating Russ, and surveillance video, receipts, and friends' testimony all supported his alibi. Yet incredibly, police and the prosecuting attorney ignored the evidence. In their minds, Russ was guilty. But prominent defense attorney Joel J. Schwartz quickly recognized the real killer. The motive was clear. Days before her murder, the terminally ill Betsy replaced her husband with her friend, Pamela Hupp, as her life insurance beneficiary. Still, despite the

prosecution's flimsy case and Hupp's transparent lies, Russ was convicted—leaving Hupp free to kill again. Bone Deep takes readers through the perfect storm of miscalculations and missteps that led to an innocent man's conviction—and recounts Schwartz's successful battle to have that conviction overturned. Written with Russ Faria's cooperation, and filled with chilling new revelations and previously undisclosed evidence, this is the story of what can happen when police, prosecutor, judge, and jury all fail in their duty to protect the innocent—and let a killer get away with murder.

Buyology Martin Lindstrom 2010-02-02 NEW YORK TIMES BESTSELLER • “A fascinating look at how consumers perceive logos, ads, commercials, brands, and products.”—Time How much do we know about why we buy? What truly influences our decisions in today’s message-cluttered world? In *Buyology*, Martin Lindstrom presents the astonishing findings from his groundbreaking three-year, seven-million-dollar neuromarketing study—a cutting-edge experiment that peered inside the brains of 2,000 volunteers from all around the world as they encountered various ads, logos, commercials, brands, and products. His startling results shatter much of what we have long believed about what captures our interest—and drives us to buy. Among the questions he explores: • Does sex actually sell? • Does subliminal advertising still surround us? • Can “cool” brands trigger our mating instincts? • Can our other senses—smell, touch, and sound—be aroused when we see a product? *Buyology* is a fascinating and shocking journey into the mind of today’s consumer that will captivate anyone who’s been seduced—or turned off—by marketers’ relentless attempts to win our loyalty, our money, and our minds.
