Oxford Picture Dictionary Jayme Adelson-Goldstein 2009-06 The OPD Second Canadian Edition English/Chinese is an illustrated, theme-based dictionary for second-language learners. This four-colour dictionary defines words through pictures, and presents each new word in context. The OPD English/Chinese, along with the monolingual workbooks and many other components, can be used as a reference book or as text for high school or adult ESL students at the beginner level. For years, the first monolingual Canadian edition of the OPD has been the industry leader among picture dictionaries. The second edition expands on the topics covered, providing more depth of vocabulary in the areas that matter most to students and offers Chinese speakers the additional advantage of having words and phrases defined in their native language. The illustrations have been completely updated in a more realistic style that is visually appealing to adult learners. The second edition also contains two new features: Introductory Pages and Story Pages. The Introductory Pages have been added to the beginning of each theme to give lower-level students a basic overview of key vocabulary words, and to give a starting point for discussion and an introduction to the theme for more advanced students. The Story Pages consist of a two-page spread at the end of each theme to help students use the words in context and practise their reading skills. The OPD English/Chinese is designed for use both in and out of the classroom. Speaking exercises are presented throughout the OPD to allow students to practise new vocabulary in pairs or small groups, while the pronunciation guide in the index allows students to check their pronunciation when they are studying on their own.

Doing School Denise Clark Pope 2008-10-01 This book offers a highly revealing and troubling view of today's high school students and the ways they pursue high grades and success. Denise Pope, veteran teacher and curriculum expert, follows five motivated and successful students through a school year, closely shadowing them and engaging them in lengthy reflections on their school experiences. What emerges is a double-sided picture of school success. On the one hand, these students work hard in school, participate in extracurricular activities, serve their communities, earn awards and honours, and appear to uphold school values. But on the other hand, they feel that in order to get ahead they must compromise their values and manipulate the system by scheming, lying, and cheating. In short, they do school, that is, they are not really engaged with learning nor can they commit to such values as integrity and community. The words and actions of these five students - two boys and three girls from diverse ethnic and socioeconomic backgrounds - underscore the frustrations of being caught in a grade trap that pins future success to high grades and test scores. Their stories raise critical questions that are too important for parents, educators, and community leaders to ignore. Are schools cultivating an environment that promotes intellectual curiosity, cooperation, and integrity? Or are they fostering anxiety, deception, and hostility? Do today's schools inadvertently impede the very values they claim to embrace? Is the success that current assessment practices measure the kind of success we want for our children?

Persian (Farsi)-English Transliterated Dictionary Yavar Dehghani 2018-02-24 This dictionary uses transliteration as the basis for the word entries and makes it easier for the language learners who are not familiar with the Persian script or are not skilled enough in using it. In those few dictionaries which use transliterations, since the alphabetical order is based on Persian script, it is very difficult and in some cases impossible for a non-native speaker to find the word, especially for those who are at the first stages of learning the language. However, in this method, they would be able to find the transliteration as quick as the English word and they can match it with the equivalent word in the script. So, this dictionary is the first one which can be used by those who even do not know writing and reading in Persian script.
