Mercedes-Benz Grand Prix Race Cars 1934-1955 Louis Sugahara 2004 Louis Sugahara, whose fascination with Mercedes-Benz race cars began in childhood, combines his artistic

talent and automotive expertise to take readers back to the golden age of Grand Prix racing when the Silver Arrows dominated the circuits. From the W25 to the W196, Sugahara traces the evolution of the Mercedes-Benz Grand Prix race cars that competed between 1934 and 1955, including the renowned 300 SLR racing sports car. Using historical records, the author documents the ongoing modifications that were made to the cars due to formula rules, circuit conditions, and the racing styles of such legendary drivers as Caracciola, Lang, von Brauchitsch, Fagioli, Fangio, Herrmann, Moss, and Kling. The book captures the excitement of Mercedes' greatest victories as well as the dedication of racing manager Alfred Neubauer and the genius of the engineering team behind the Three-Pointed Star. The lively narrative is illustrated with rare historical photographs and more than one hundred original drawings by the author. These meticulous renderings of the vehicles, accompanied by detailed commentary, show how body styling and even minor exterior features, such as the radiator grille, windscreen, and rear-view mirror, were influenced by the constant process of modification and experimentation. Supplemented by an appendix containing circuit layouts, race results, and model specifications, this unique "picture book for grown-ups" conveys the enormous technical and emotional appeal of the invincible Mercedes.

Porsche 911 Randy Leffingwell 2005 For over 40 years, Porsche's legendary 911 has ruled the realm of sports cars. The Porsche 911 is the benchmark. The 911 recently celebrated its 40th anniversary, making it one of the longest-running models currently in production from any manufacturer. A leader on the race track as well as the street, it posted an outright, overall victory at the 24 Hours of Daytona in 2003, beating Corvettes, Ferraris, and even purpose-built Daytona Prototype race cars. This, despite the fact the 911's rear-engine configuration was long ago rejected by rivals. Why does it hold such a coveted spot at the pinnacle of the sports car world? In *Porsche 911: Perfection by Design*, best-selling author/photographer and noted Porsche historian Randy Leffingwell adeptly answers this question, tracing the amazing story of its development and rise to international success, from the 1963 Type 901 through 2005 models. In tandem, he weaves the racing 911's rich history, where it reigned victorious at Le Mans, Daytona and many more of the world's most prestigious races. With more than 350 pages and 300 vivid color and black and white photographs, this amazing hard-cover book showcases why the 911 continues to impress enthusiasts and engineers alike. Leffingwell interviewed dozens of former and current Porsche engineers, designers and executives - including Ferdinand "Butzi" Porsche, the father of the 911 - as well as Porsche competitors (who used the 911 as a benchmark for their own designs) to create a true, hands-on anecdotal history of the 911. Straight from the key players and decision-makers, he explains: "This book is an inside story of how the 911 came to be what it was, what it is now and how it moved through 40-plus years of evolution, growth and improvement." A jaw-dropping and unprecedented collection of 911s between two covers (Leffingwell and David Newhardt's stunning, full-page, color photography features more than 80 Porsche 911s) complements the text, enticing readers to an up-close-and-personal view of these exotic, wish-list cars.

young men have been channeling, chopping, and hopping up rods and customs, women - whether loyal girlfriends or trouble-seeking "bad girls" - have been an integral to their scene. In this unique portfolio evoking great 1950s pin-up artists like Vargas and Elvgren, talented photographer David Perry depicts models in and out of cherry-picked rods and customs wearing painstakingly chosen period dress and hairstyles. More than 100 photos present these modern-day pin-ups under three themes: Garage, Cruising, and Race. In addition, essays explore each topic and are also accompanied by pulp novel covers, period mags, and ads that place the photography in a historical context. Captions identify the car owners, photo location, and, where appropriate, interesting car specs and histories.

**Duesenberg** Dennis Adler 2004-03-14 Fred and Augie Duesenberg were a pair of driven, determined, nomadic masterminds. And to them, the automotive world will forever owe a great debt of gratitude. It took many years, and their achievements were hardly overnight successes, but eventually the brother created the ultimate in automotive engineering: the fabulous Duesenberg. Few were made, and only a relative handful remain. The Duesenbergs of the 1920s and '30s were so remarkable that they had little competition. With the help of E.I.Cord's fearless leadership and financial backing, the brilliant coachwork of the world's greatest bodybuilders, and Fred Duesenberg's mechanical genius, no two Duesenbergs were outfitted the same, and none have ever been truly rivaled. In Duesenberg, Dennis Adler has compiled the ultimate written and pictorial history of the car that was corrected billed as "The World's Finest Motor Car."

The stories of these and many other amazing feats of this 'barbarian' people are here brought vividly to life by Stephen Turnbull, from the birth of Genghis Khan in the wind-swept steppes of Mongolia, through the conquest of China and beyond.

Sailing by Starlight Alex Capus 2013-09-10 Capus takes us on an exploratory journey via the loss of a Spanish vessel laden with gold and jewels in the South Seas, the burial of treasure, an ancient map, and a long and dangerous voyage across the Pacific, to prove that Robert Louis Stevenson's "treasure island" actually exists; and that it exists in a place quite different from where hordes of treasure-hunters have been seeking it for generations. In fact, he posits, it was for this reason alone that Stevenson spent the last five years of his life in

Samoa. On a long trip round the Pacific islands with the idea of writing articles for American periodicals, Stevenson, travelling with his beloved wife, Fanny, and stepson Lloyd Osbourne, had no notion of stopping at Samoa when their ship made landfall in December 1889. Yet, only six weeks later, at the age of 39, he would invest all his available assets in a patch of impenetrable jungle and spend the rest of his life there. This book traces what led Stevenson to Samoa and the origins of his famous story. For facing him from this unlikely spot was another island - a conical isle, Tafahi, where legends abound, and it was, Capus suggests, this isle that would cause him to change the course of his life.
