Ontologie der Grenzen ausgedehnter Gegenstände Lukas Benedikt Kraus 2016-09-26 Die Debatte zur Ontologie der Grenzen kreist um eine Vielzahl bisher nicht befriedigend gelöster Probleme. Es ist beispielsweise nicht klar, welchem von zwei aneinander grenzenden ausgedehnten Gegenständen die gemeinsame Grenze zugerechnet werden soll. Erhebliche Schwierigkeiten treten zudem bei der Beschreibung von Spaltungen und Kontakt ereignissen auf. In der vorliegenden Studie werden alle diese Probleme auf eine einzige, weit verbreitete Grundannahme zurückgeführt: Grenzen sind äußerste Teile ausgedehnter Gegenstände. Durch eine Klassifikation der bisher vorgeschlagenen Lösungsoptionen zu den genannten Problemen wird es möglich, verschiedene Theorien zur Ontologie der Grenzen miteinander zu vergleichen und zu bewerten. Die historisch wirkmächtigen Theorien von Bernard Bolzano und Francisco Suárez sowie zentrale Beiträge der modernen Debatte werden eingehend untersucht und in den neu entwickelten systematischen Rahmen eingeordnet. Der Autor plädiert dafür, die den Problemen zugrundeliegende Annahme durch eine relationale Sicht auf Grenzen zu ersetzen. Das Buch bietet eine systematische Problemanalyse und eine detaillierten Darstellung wichtiger Positionen zur Ontologie der Grenze sowie einen völlig neuartigen Lösungsvorschlag.

Hungarian Soldier vs Soviet Soldier Péter Mujzer 2021-07-22 On 26 June 1941, unidentified bombers attacked the Hungarian town of Kassa, prompting Hungary to join its Axis partners in Operation Barbarossa, Hitler's invasion of the Soviet Union. Hungary's contribution to Barbarossa was designated the Carpathian Group, its most powerful component being the Mobile Corps, which fielded motorized rifle, cavalry, bicycle and light armoured troops. The Hungarians faced Soviet forces belonging to the Kiev Military District, deployed in four armies along a 940km-long front. On the defeated side in World War I, Hungary had seen its borders redrawn and its armed forces constrained by treaty, but was determined to recover territories lost to adjoining countries. When Hungary decided to participate in Operation Barbarossa, however, the Royal Hungarian Army was deployed in the Soviet Union and not against its neighbours. Meanwhile, the Red Army, while remaining among the most formidable armies of the era, had been seriously weakened by successive purges, its shortcomings exposed by the Winter War against Finland in 1939-40. During the opening battles (4-13 July), the Hungarian motorized rifle and armoured units clashed with the withdrawing Red Army forces. In the battle for Uman (15 July-8 August) the Hungarians blocked the Soviet troops' efforts to break out from encirclement. During the Hungarian defensive operation at the River Dniepr (30 August-6 October), counter-attacking Soviet units exerted heavy pressure on the defending Hungarians. Both sides would seek to draw lessons from these opening battles as the war in the East continued to rage into 1942. Fully illustrated, this book investigates the Hungarian and Soviet soldiers who fought in three battles of the Barbarossa campaign, casting new light on the role played by the forces of Nazi Germany's allies on the Eastern Front.

Stolze Kühe, krumme Rüebli Rico Kessler 2022-03-31 Magazine wie «Landlust» oder «Landliebe», mit Bildern von üppigen Gärten und heimeligen Bauernhäusern, sind beliebt. Aber sieht so der bäuerliche Alltag aus? Rico Kessler und seine Frau Claudia Staubli sind Kleinbauern. Als Historiker und gelernte Landwirtin starteten sie 1998 voller Enthusiasmus ihr Abenteuer: auf dem kleinen Hof Berg im Baselbiet biologische Landwirtschaft betreiben. Was sie dabei in den vergangenen zwanzig Jahren erlebt haben, erzählt Rico Kessler anschaulich. Er berichtet von Eiern, die es niemals in die Regale der Grossverteiler schaffen würden, von üppigen Direktzahlungen und ökologischen Zweifeln. Manches klingt romantisch, doch dieses Buch feiert nicht die ländliche Idylle. Der Autor bettet seine persönliche Geschichte ein in den grösseren Zusammenhang der Schweizer Agrarpolitik und der ländlichen Entwicklung. Ein unterhaltsames, engagiertes Buch, in dem selbstkritisch erzählt wird, was es im Jahr 2021 bedeutet, ein Schweizer Kleinbauer mit einem grossen Herz für die Natur zu sein.

Seventy Years of Farm Tractors 1930-2000 Brian Bell 2020-02-20 By the end of the twentieth century there were some half-million tractors on British farms - more machines than people to drive them. Brian Bell's encyclopaedic book traces the evolution of the farm tractor from the days of starting handle and pan seat to current 4-wheel drive machines with air-conditioned cabs and computer management systems. He deals in particular with developments of the classic period from the 1950s to the 1990s. The book is arranged alphabetically by manufacturer from Allis-Chalmers to Zetor, one hundred marques in total. These are all machines to be found on British farms irrespective of their country of manufacture. Brian runs concisely through the histories of the companies and their major models, illustrated with a wealth of photographs and extracts from sales literature. He adds some special features on items such as hydraulic systems and cold-starting aids. He includes a glossary and full index. This book replaces the author's earlier, successful, *Fifty Years of Farm Tractors*. Many of the photographs are new and the text has been brought up to date to include developments of the early twenty-first century.

Global Strategy Mike W. Peng 2021-01-01 The world's best-selling global business strategy text, Peng's GLOBAL STRATEGY, 5E uses a reader-friendly approach to present strategic management from a truly global perspective. This edition emphasizes strategy around the globe using evidence-driven explanations with the latest research. A unique strategy tripod perspective presents three leading views - industry-based, resource-based and institution-based views - in each chapter. A conversational style emphasizes the story behind the stories, while timely debates address strategic issues, such as globalization versus de-globalization, offshoring versus non-offshoring and social media freedom of speech versus censorship. You also examine building an antitrust case against Big Tech and reducing income inequality via corporate social responsibility (CSR). Strategy-in-action boxes, numerous chapter cases and brief, to-the-point integrative cases present current global topics. GLOBAL STRATEGY, 5E is available as a printed book or ebook. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Heaven and Earth, Law and Love Étan Levine 2000 In der Reihe Beihefte zur Zeitschrift für die alttestamentliche Wissenschaft (BZAW) erscheinen Arbeiten zu sämtlichen Gebieten der alttestamentlichen Wissenschaft. Im Zentrum steht die Hebräische Bibel, ihr Vor- und Nachleben im antiken Judentum sowie ihre vielfache Verzweigung in die benachbarten Kulturen der altorientalischen und hellenistisch-römischen Welt.
