Paul's Community Formation Preaching in 1 Thessalonians Kwang-Hyun Cho 2017-10 This book increases awareness about Paul's community formation preaching which has been widely ignored in the contemporary homiletical field where the New Homiletic has exerted a strong influence. By drawing on the sociological concept of symbolic boundaries, the author demonstrates that Paul in his preaching of 1 Thessalonians used three symbolic resources in order to create boundaries for the formation of the Thessalonian community: the kerygmatic narrative, local narratives, and ethical norms. This interdisciplinary study suggests that contemporary preachers, who face the task of forming Christian communities in a post-Christian society, should preach shared narratives and communal norms for the creation of boundaries as Paul did.

Spiritual News Yoel Cohen 2018-04 The media's coverage of religion is an important question, given the central role which news media play in ensuring that people are up-to-date with religion news developments. The book SPIRITUAL NEWS: Reporting Religion Around the World examines it in different countries.

Challenging Life: Existential Questions as a Resource for Education Jari Ristiniemi 2018 There is an increasing recognition today that young people need to have knowledge about religions and world views in order to live and work in diverse societies. What kind of 'maps' are they provided with through religious, values and ethics education? Does education address the challenging existential questions that children and adolescents ask about life and the world? This volume addresses different aspects of how existential questions have been dealt with in educational research. It especially draws attention to the Swedish research tradition of focusing on life questions and the interpretation of life in education, but with contemporary international research added. It also addresses issues of ethics education and

discusses possible options for the future of existential questions as a resource for education.

Textual Linguistic Theology in Paul Ricoeur Xavier Lakshmanan 2016-02-24 In this work,

Xavier Lakshmanan argues for a textual linguistic approach to Christian theology. The book takes its shape in conversation with Paul Ricoeur's philosophical thought, demonstrating how Ricoeur's hermeneutic philosophy can inform the way Christians interpret and appropriate biblical narratives without delimiting the potential of the text or eroding the distinctiveness of its language. The text can be appropriated in ways that address the fundamental questions of life. New meanings are constantly generated from the same text in order to describe and redescribe existence, and form human identity. The self is linked inseparably with narrative; every interpretation of narrative is at the same time a reinterpretation of the self and of its possibilities. In such interpretative processes, the reader interprets the text and the text interprets the reader at the same time through an interactive reading. Accordingly, the aim of interpreting the narratives is to open up the world of the text in front of the text and in front of the reader. Here what the text uncovers is the «textual» structure of existence itself. The reality that unfolds through language discloses the possibilities of existence, and in this way the text creates a future. A revised identity emerges against the horizon of that future to give a coherent and dynamic account of the self against a horizon of hope.

Eine Kritik der kommunitaristischen Moralphilosophie Harald Stelzer 2016-04-18 In Eine Kritik der kommunitaristischen Moralphilosophie analysiert und kritisiert Harald Stelzer die grundlegenden Aspekte der normativen Theorien von kommunitaristischen Autoren wie MacIntyre, Sandel, Taylor und Walzer und er entwickelt ein alternatives Verständnis von Moral als Problemlösungsprozess. In A Critique of the Moral Philosophy of Communitarianism Harald Stelzer analyses and criticizes the main aspects of communitarian moral thought by authors like MacIntyre, Sandel, Taylor, and Walzer, and develops an alternative account of a problem solving ethics.

The Lord of the Gospel of John Paul C.J. Riley 2019-01-14 In the Gospel of John, one aspect of Jesus' divinity is his lordship. Paul C.J. Riley examines Jesus' lordship through the use of one Christological title, *kyrios*, a word which can be translated as Lord, master, owner or sir. Because *kyrios* is often used by characters in the narrative, Riley considers it from a narrative perspective. As a result, the first question he examines is how *kyrios* functions. In addition, due to textual variation for some occurrences of *kyrios*, the next question addressed is where *kyrios* is. From a firm narrative and textual foundation, the final question the author asks is what *kyrios* means. The answers to these three questions provide a comprehensive understanding of Jesus' divine lordship in the Gospel of John.

Wild and Free Jess Connolly 2016-05-03 You don't have to be everything to everyone. You don't have to try so hard to button it up and hold it together. Join best friends and coauthors Jess Connolly and Hayley Morgan as they reveal how women today can walk in the true liberty we already have in Jesus. For all the fullness of God available to his daughters, we often feel limited by two defining insecurities: "I am too much" and "I am not enough." Jess and Hayley felt the same until one essential question turned the tables: If God is wild and free and he created women, what does this mean for us today? Wild and Free is an invitation to find freedom from the cultural captivity that holds us back, and freedom to step into God's wild and holy call in our lives. Jess and Hayley answer difficult questions that so many women have asked them over the years, including: How do I compete with the burden of expectation of what women are "supposed" to be? Where do I actually fit in? How can I start living out my God-given identity every day of my life? With fresh biblical insight tracing all the way back to Eve and a treasury of practical application, Jess and Hayley reveal how women today can walk in the true liberty we already have in Jesus--because you certainly don't have to quiet the voice that God gave you when he created you to sing. Wild and Free will help you shake off the lies of insecurity in your life and step forward to maximize your God-given influence for his glory and the world's good.

Kracauer Jörg Später 2020-06-11 Siegfried Kracauer was one of the most important German thinkers of the twentieth century. His writings on Weimar culture, mass society, photography and film were groundbreaking and they anticipated many of the themes later developed members of the Frankfurt School and other cultural theorists. No less remarkable were the circumstances under which he made these contributions. After his early years as a journalist in Germany, the rise of the Nazis forced Kracauer into exile – first in Paris and then, after a protracted flight via Marseilles and Lisbon, to the United States. The existential challenges, personal losses and unrelenting hardship Kracauer faced during these years of exile formed the backdrop against which he offered his acute observations of modern life. Jörg Später provides the first comprehensive biography of this extraordinary man. Based on extensive archival research, Später’s biography expertly traces the key influences on Kracauer’s intellectual development and presents his most important works and ideas with great clarity. At the same time, Später ably documents the intensity of Kracauer’s personal relationships, the trauma of his flight and exile, and his embrace of his new homeland, where, finally, the ‘groundlessness’ of refugee existence gave way to a more stable life and, with it, some of the intellectually most fruitful years of Kracauer’s career. The result is a vivid portrait of a man driven both by an urge to capture reality – to attend to the things that are ‘overlooked or misjudged’, that still ‘lack a name’, as he put it – and by a need to find his place in a hostile, threatening world.

The Gospel of Matthew Bartosz Adamczewski 2017 This monograph demonstrates that the Gospel of Matthew is a sequentially organized reworking of the Acts of the Apostles. The strictly sequential, hypertextual dependence on Acts explains the Matthean relocations of the Marcan and Lucan material, numerous Matthean modifications thereof, and many surprising features of the Matthean Gospel.

Experiments in Ethics Kwame Anthony Appiah 2010-03-30 In the past few decades, scientists of human nature—including experimental and cognitive psychologists, neuroscientists, evolutionary theorists, and behavioral economists—have explored the way we arrive at moral judgments. They have called into question commonplaces about character and offered troubling explanations for various moral intuitions. Research like this may help explain what, in fact, we do and feel. But can it tell us what we ought to do or feel? In *Experiments in Ethics*, the philosopher Kwame Anthony Appiah explores how the new empirical moral psychology relates to the age-old project of philosophical ethics. Some moral theorists hold that the realm of morality must be autonomous of the sciences; others maintain that science undermines the authority of moral reasons. Appiah elaborates a vision of naturalism that resists both temptations. He traces an intellectual genealogy of the

burgeoning discipline of “experimental philosophy,” provides a balanced, lucid account of the work being done in this controversial and increasingly influential field, and offers a fresh way of thinking about ethics in the classical tradition. Appiah urges that the relation between empirical research and morality, now so often antagonistic, should be seen in terms of dialogue, not contest. And he shows how experimental philosophy, far from being something new, is actually as old as philosophy itself. Beyond illuminating debates about the connection between psychology and ethics, intuition and theory, his book helps us to rethink the very nature of the philosophical enterprise.

Presocratics and Papyrological Tradition Christian Vassallo 2019-10-08 The papyri transmit a part of the testimonia relevant to pre-Socratic philosophy. The ‘Corpus dei Papiri Filosofici’ takes this material only partly into account. In this volume, a team of specialists discusses some of the most important papyrological texts that are major instruments for reconstructing pre-Socratic philosophy and doxography. Furthermore, these texts help to increase our knowledge of how pre-Socratic thought – through contributions to physics, cosmology, ethics, ontology, theology, anthropology, hermeneutics, and aesthetics – paved the way for the canonic scientific fields of European culture. More specifically, each paper tackles (published and unpublished) papyrological texts concerning the Orphics, the Milesians, Heraclitus, Empedocles, Anaxagoras, the early Atomists, and the Sophists. For the first time in the field of pre-Socratics studies, several papers are devoted to the Herculanean sources, along with others concerning the Graeco-Egyptian papyri and the Derveni Papyrus.

From Memory to Marble Elizabeth Rankin 2020-09-07 For the first time, the 92-metre frieze of the Voortrekker Monument in Pretoria, one of the largest historical narratives in marble, has been made the subject of a book. The pictorial narrative of the Boer pioneers who conquered South Africa’s interior during the ‘Great Trek’ (1835-52) represents a crucial period of South Africa’s past. Conceptualising the frieze both reflected on and contributed to the country’s socio-political debates in the 1930s and 1940s when it was made. The book considers the active role the Monument played in the rise of Afrikaner nationalism and the

development of apartheid, as well as its place in post-apartheid heritage. The frieze is unique in that it provides rare evidence of the complex processes followed in creating a major monument. Based on unpublished documents, drawings and models, these processes are unfolded step by step, from the earliest discussions of the purpose and content of the frieze, through all the stages of its design, to its shipping to post-war Italy to be copied into marble from Monte Altissimo, up to its final installation in the Monument. The book examines how visual representation transforms historical memory in what it chooses to recount, and the forms in which it is depicted. The second volume expands on the first, by investigating each of the twenty-seven scenes of the frieze in depth, providing new insights into not only the frieze, but also South Africa's history. François van Schalkwyk of African Minds, co-publisher with De Gruyter writes: *From Memory to Marble* is an open access monograph in the true sense of the word. Both volumes of the digital version of the book are available in full and free of charge from the date of publication. This approach to publishing democratizes access to the latest scholarly publications across the globe. At the same time, a book such as *From Memory to Marble*, with its unique and exquisite photographs of the frieze as well as its wealth of reproduced archival materials, demands reception of a more traditional kind, that is, on the printed page. For this reason, the book is likewise available in print as two separate volumes. The printed and digital books should not be seen as separate incarnations; each brings its own advantages, working together to extend the reach and utility of *From Memory to Marble* to a range of interested readers.

Language – Literature – the Arts: a Cognitive-Semiotic Interface Elzbieta Chrzanowska-Kluczewska 2017-02-08 The book offers an interdisciplinary discussion of the cognitive-semiotic interface between language, literature, and the arts, with a special focus on creativity and imagination. It brings together international contributors suggesting a wide range of innovative perspectives on the correlation between verbal discourse and creative artefacts. The book reveals the specificity of such phenomena as parallax, transparency, corporeal imagination, and multimodality. Alongside interpreting artistic texts, the contributors search for cognitive and semiotic manifestations of creativity in political and everyday discourse.

About Love Josef Pieper 1974

How Prophecy Works William L. Kelly 2019-12-09 There is a longstanding scholarly debate on the nature of prophecy in ancient Israel. Until now, no study has based itself on the semantics of the Hebrew lexeme *nābî'* ("prophet"). This investigation by William L. Kelly discusses the nature and function of prophecy in the corpus of the Hebrew book of Jeremiah. It analyses all occurrences of *nābî'* in Jeremiah and performs a close reading of three primary texts, Jeremiah 1.4-19, 23.9-40 and 27.1-28.17. The result is a detailed explanation of how prophecy works, and what it meant to call someone a *nābî'* in ancient Israel. Combining the results of the semantic analysis and close readings, the study reaches conclusions for six main areas of study: (1) the function and nature of prophecy; (2) dreams and visions; (3) being sent; (4) prophets, priests and cult; (5) salvation and doom; and (6) legitimacy and authority. These conclusions explain the conceptual categories related to *nābî'* in the corpus. I then situate these findings in two current debates, one on the definition of *nābî'* and one on cultic prophecy. This study contributes to critical scholarship on prophecy in the ancient world, on the book of Jeremiah, and on prophets in ancient Israel. It is the first major study to analyse *nābî'* based on its semantic associations. It adds to a growing consensus which

understands prophecy as a form of divination. Contrary to some trends in Jeremiah scholarship, this work demonstrates the importance of a close reading of the Masoretic (Hebrew) text. This study uses a method of a general nature which can be applied to other texts. Thus there are significant implications for further research on prophecy and prophetic literature.

Optimal Variability for Effective Motor Learning Jürgen Birklbauer 2019-01-21 This thesis addresses different manifestations and practical implementations of movement variability in respect to their beneficial effects on movement coordination and learning. The focal point of this topic is formed by the comparison between the contextual interference paradigm and the differential learning approach, representing two variable practice strategies found to improve motor learning performance under certain conditions. The theoretical backgrounds and empirical findings of each approach are thoroughly reviewed in the first part of this work. These theoretical concepts, and their resultant practical training approaches, arrive at the notion of an optimal magnitude and structure of movement variability that should be encouraged during practice. The second part of this work presents a parallelgroup study designed to contrast the effects of a high contextual interference and schema-based practice regime with two variants of differential training on the adoption of two indoor hockey skills in beginners.

The Book Burkhard Spinnen 2018 Have you ever mourned the destruction of the Library of Alexandria and the innumerable manuscripts that perished when it burned? Do you dream of

owning a first edition of *The Great Gatsby*, *The Adventures of Tom Sawyer*, or *The Sun Also Rises* to cradle in your arms and admire on your shelf? Have you gleaned wisdom from an old copy of *Fahrenheit 451* that you never returned to your high school library? Do you sometimes, just for a second, regret the introduction of the internet and e-mail? German author Burkhard Spinnen revisits these moments of bibliophilia mixed with anguish through a personal and historical journey of the books we encounter and the places we meet them. With anecdotes of serendipitously finding vintage copies of literary classics and bemoaning the loaned book you'll never get back, Spinnen reminds us that even if the eBook has made reading during a commute easier, it will never bring us as much pride as a well-stocked shelf. Or recover the smell of ink on paper, or the pleasure of good margins and letter-spaced capitals. For those wanting to keep their hard copies close and chat with friends about the joy books have brought into their lives, *The Book* offers up a kindred spirit. There's a hole in the heart of humanity that only books like *The Book* can fill. This condensed history of the printed word along with the dashing and mildly provocative line-cut illustrations of Line Hoven will embolden you to speak out and insure its future.

The Prairie James Fenimore Cooper 2020-03-05 The final novel in Cooper's epic *Leatherstocking Tales*, filled with excitement and thrill, which follows the adventures of Natty Bumppo and Dr. Bat, the latter of whom spends his time in discovering new animals and plants in the prairie. The book subtly highlights various issues of that era like the annihilation of nature and dislocation of American Indians. It provides pure reading pleasure through its vibrant details and vivid characterization. Engrossing!

The Second Princess Hiawyn Oram 1995 *The Second Princess* tries to get rid of her sister, the *Fist Princess*, until she learns that her parents love them both equally. Suggested level: junior.

The Crisis of Representation Kurt Appel 2019-01-21 The term "Crisis of Representation" rose to fame through Michel Foucault. The crisis, in the context of this issue, has not only a political and economic dimension, but a cultural, aesthetic and religious one as well. Thus, a serious inquiry into this complex and multidimensional phenomenon requires an interdisciplinary approach. The issue targets the phenomena at hand through 15 contributions - all with unique and innovative approaches to the topic. One common aim that holds the issue together is the analysis of the nature of the crisis, which helps to find suitable theoretical frameworks. On the other hand, the term itself functions as a tool that enables the analysis of specific societal developments. Contributing authors brought with them expertise from their respective fields including philosophy, political sciences, theology, Islamic studies and religious studies. This allowed for a cross-disciplinary approach on the phenomenon with special foci on politics, religions, societies and finance, as well as theoretical developments on current philosophical and post-colonial discourses.

An Encyclopedia of Communication Ethics Ronald C. Arnett 2018 The purpose of this collection is to overview key figures whose work assists our understanding of the development and influence of communication ethics.

Anti/Idealism Juliana Albuquerque 2019-10-08 The late 18th century is characterized by two crucial events: the rise of Goethe as a dominating literary figure and the emergence of Kant's critical philosophy and its productive reception not only in the philosophical but also literary

discourse of the time. While the Tübingen School creatively adopted Kant's philosophy as a system of ideas, they also critically responded to its intellectualising impulse by positing the equiprimordiality of world and Self, of art and reason. Adhering to the self-critical impulse of Kant's philosophy by positing the equiprimordiality of both the empirical world and the intelligible subject, and trying to overcome the "chorismos" between them through the classicist model of aesthetic Bildung, they argued for the co-extensiveness of the reality of both philosophy and literature. The authors investigate how the latent antagonism between these divergent traditions of the so-called Goethezeit creates the thrust behind the intellectual firework of divergent literary and philosophical discourses from around 1800, throughout the 19th and into the 20th century.

The World is Triangular Horst Czichos 2020-12-14 This book gives a short presentation of the triad philosophy–physics–technology against the background of the common origin in ancient times. This is the first English edition of this book, previously published in German. The emergence of the book has been described in the foreword of the first German edition. This edition is updated and extended, whereby new physical research results and technological innovations were included: - The physics of space and time after the experimental detection of gravitational waves (Nobel Prize for Physics 2017). - The New International System of Units (SI) for Physics and Technology which is completely based on natural constants and entered into force on World Metrology Day, 20 May 2019. - Actual overview of basic technologies: Material, Energy, Information. - Technologies for the "Digital World" of information and communication. - Mechatronic and Cyber-physical systems for Industry 4.0. The significance of technology for the world in the 21st century is discussed in the final section of the book.

Developing Intra-Regional Exchanges Through the Abolition of Commercial and Tariff Barriers / L'abolition Des Barrières Commerciales Et Tarifaires Dans la Région de L'Océan Indien Otmar Seul 2016-12-06 This book is related to the development of intraregional commercial exchanges in the region of the Indian Ocean. This issue is addressed from an economic as well as from a legal point of view. The contributions, in English and French, aim to present an overview of the economic, customs-related, technical, legal and cultural restraints that hinder the creation of a free trading area. Cet ouvrage est consacré au développement des échanges commerciaux intrarégionaux dans la région de l'Océan Indien. Cette question est examinée sous un angle politique, économique et juridique. Les différentes contributions, en anglais et en français, visent à établir un état des lieux des freins économiques, douaniers, techniques, juridiques et culturels à la création d'un espace de libre échange.
