Networking the Learner Deryn M. Watson 2013-11-11 Deryn Watson and Jane Andersen Editors
INTRODUCTION The role of a Preface is to introduce the nature of the publication. The book that emerges from an IFIP Technical Committee World Conference on Computers in Education is complex, and this complexity lies in the nature of the event from which it emerges. Unlike a number of other major international conferences, those organised within the IFIP education community are active events. A WCCE is unique among major international conferences for the structure that deliberately ensures that all attendees are active participants in the development of the debate. In addition to the major paper presentations and discussion, from international authors, there are panel sessions and professional working groups who debate particular themes throughout the event. There is no doubt that this was not a dry academic conference - teachers, lecturers and experts, policy makers and researchers, learners and manufacturers mingled and worked together to explore, reflect, discuss and plan for the future. The added value of this event was that we know that it will have an impact on future practice; networks will be formed, both virtual and real -ideas will change and new ones will emerge. Capturing the essence of this event is a challenge - this post-conference book has three parts. The first is the substantial number of theme papers.

Soccer. Scouting Notebook Wanceulen Notebooks 2019-08-23 Write the players' data of the matches you see. REGISTRATION TEMPLATES FOR 30 SOCCER MATCHES How to use it: Each MATCH consists of 4 registration pages: - The first two pages are for the registration of the players of each team: names, numbers, demarcation and basic general characteristics of each player. At the bottom of the page there are playfields to help us graphically place players. - The next two pages (3 and 4) include a table with boxes so you can take the notes you consider about the players that have excelled in each team and about which you think it is worth expanding the information basic that you have written down in the previous record sheet. - From each game you can also record the reference data: teams participating, category and competition, day and time, and field where the game is played. - It supposes a useful registry of data that you can file, before computerizing them, or before passing them to the archives or databases where you store the information of your observations.

Match Quarters Cody Alexander 2019-11-26 Split-field coverages are nothing new. Many coaches around the country run them at all levels of play, but there are not many resources on how to teach them. In Cody Alexander's third book, he breaks down how to teach the many varieties of Quarters coverage. From simple match-Quarters to defending Empty and Quads formations, Coach Alexander breaks it down and simplifies the concepts for any coach. Xs and Os are great, but the players must still execute and the coach must know when to use each scheme. *Match Quarters: A Modern Guidebook to Split-Field Coverages*, allows anyone interested in football to have a deeper understanding of the game itself and why each coverage is used. Along with the basics, Coach Alexander gives you multiple tags and

variations within each family (Cover 4 and Cover 2). Come learn the Art of X.

Fair Play Eve Rodsky 2019-10-01 A REESE'S BOOK CLUB PICK "A hands-on, real talk guide for navigating the hot-button issues that so many families struggle with."--Reese Witherspoon Tired, stressed, and in need of more help from your partner? Imagine running your household (and life!) in a new way... It started with the Sh*t I Do List. Tired of being the "shefault" parent responsible for all aspects of her busy household, Eve Rodsky counted up all the unpaid, invisible work she was doing for her family -- and then sent that list to her husband, asking for things to change. His response was... underwhelming. Rodsky realized that simply identifying the issue of unequal labor on the home front wasn't enough: She needed a solution to this universal problem. Her sanity, identity, career, and marriage depended on it. The result is Fair Play: a time- and anxiety-saving system that offers couples a completely new way to divvy up chores

and responsibilities. Rodsky interviewed more than five hundred men and women from all walks of life to figure out what the invisible work in a family actually entails and how to get it all done efficiently. With four easy-to-follow rules, 100 household tasks, and a series of conversation starters for you and your partner, Fair Play helps you prioritize what's important to your family and who should take the lead on every chore from laundry to homework to dinner. "Winning" this game means rebalancing your home life, reigniting your relationship with your significant other, and reclaiming your Unicorn Space -- as in, the time to develop the skills and passions that keep you interested and interesting. Stop drowning in to-dos and lose some of that invisible workload that's pulling you down. Are you ready to try Fair Play? Let's deal you in.

Legions of Rome Stephen Dando-Collins 2013-09-03 No book on Roman history has attempted to do what Stephen Dando-Collins does in *Legions of Rome*: to provide a complete history of every Imperial Roman legion and what it achieved as a fighting force. The author has spent the last thirty years collecting every scrap of available evidence from numerous sources: stone and bronze inscriptions, coins, papyrus and literary accounts in a remarkable feat of historical detective work. The book is divided into three parts: Part 1 provides a detailed account of what the legionaries wore and ate, what camp life was like, what they were paid and how they were motivated and punished. The section also contains numerous personal histories of individual soldiers. Part 2 offers brief unit histories of all the legions that served Rome for 300 years from 30BC. Part 3 is a sweeping chronological survey of the campaigns in which the armies were

involved, told from the point of view of particular legions. Lavish, authoritative and beautifully produced, Legions of Rome will appeal to ancient history enthusiasts and military history buffs alike.

Faithful Celebrations Sharon Ely Pearson 2018-10-17 • Activities for celebrating secular and sacred seasons of the year • For use in churches, schools, camps, at home Many of our experiences in life happen when several generations are together— at church, at home, in our communities. Holidays and family events are times for celebration, learning, rituals, food, and fun. This edition of Faithful Celebrations focuses on the months of January and February, when secular holidays can become times to think about how we live out the gospel message in celebrating national holidays with more than a day off from school or sending a greeting card. Each event to be celebrated includes key ideas; a cluster of activities to experience the key ideas; a list of materials needed; full instructions for implementation; background history and information; music; art; recipes; and prayer resources to use in a small, intimate, or large multi-generational group. For children, youth, adults, or any combination of ages, any of these activities can take place in any setting. Faithful Celebrations: Making Time for God in Winter includes New Year's Day, Martin Luther King Jr. Day, Super Bowl Sunday, Valentine's Day, and Snow days.

Security-Related Advanced Technologies in Critical Infrastructure Protection Tünde Anna Kovács

2022-09-05 This book collects the latest research results on security-related advanced technologies. The chapters contain relevant and interesting topics from numerous research. Data science and artificial intelligence research nowadays one of the most important topics for the industry and the security sectors. The autonomy and counter-autonomy research topic are also very interesting. Autonomous cars have become a part of the common days, but their safe and secure application is not assured. The research results in this field want to support and assure safe and secure autonomous applications in our quotidian life. Also, the safe and secure robotics in the industries and the defence assure a high standard of living and the given research results in this area can use to increase it. The researchers work on it and publish the results that can be interesting for the other researchers and the innovators, but also the industrial part members. The researchers work on it and publish the results that can be interesting for the other researchers and the innovators, but also the industrial part members. Communication is a part of our life, but the communication systems mesh all around the world. Communication is the basis of modern life because without it life stop. One other interesting and very important research area is the material sciences. Virtual life cannot exist without hardware and materials. The new technical applications require new materials, that can suffice the mechanical and physical, chemical properties demand. Nowadays a common requirement of the materials the high strength and lightweight. Researchers want to serve the industrial requests and innovate new composite materials or increase the properties of the material through a new technological process. The authors publish the latest results of the security-related research area including the newest innovations and technologies which rise the interest of the defence and the modern industries even the interest of other researchers.
