Lament in Jewish Thought Ilit Ferber 2014-10-10 Lament, mourning, and the transmissibility of a tradition in the aftermath of destruction are prominent themes in Jewish thought. The corpus of lament literature, building upon and transforming the biblical Book of Lamentations, provides a unique lens for thinking about the relationships between destruction and renewal, mourning and remembrance, loss and redemption, expression and the inexpressible. This anthology features four texts by Gershom Scholem on lament, translated here for the first time into English. The volume also includes original essays by leading scholars, which interpret Scholem's texts and situate them in relation to other Weimar-era Jewish thinkers, including Walter Benjamin, Franz Rosenzweig, Franz Kafka, and Paul Celan, who drew on the textual traditions of lament to respond to the destruction and upheavals of the early twentieth century. Also included are studies on the textual tradition of lament in Judaism, from biblical, rabbinic, and medieval lamentations to contemporary Yemenite women's laments. This collection, unified by its strong thematic focus on lament, shows the fruitfulness of studying contemporary and modern texts alongside the traditional textual sources that informed them.

sunlight. If Lamentations and Ecclesiastes have much to say about languishing in pits of agony and anguish, Esther shows how the will to survive can turn the tables on evil that relies on lies. To restore a measure of equilibrium opens the door to engaging the Song of Songs with its soaring proclamation that love is as fierce as death. The journey toward recovery culminates with Ruth's transitioning from trauma to triumph and her stalwart conviction that resilience and hope are vital components of humanity's spiritual DNA. Catastrophe to Hope adds several inspirational stories to punctuate its message of mending and healing. They include works by Shakespeare, Elizabeth Barret Browning, Elie Wiesel, Cynthia Ozick, and the life of Joseph P. Kennedy.

George Herbert's "Holy Patterns" Greg Miller 2007-06-10 George Herbert's "Holy Patterns": Reforming Individuals in Community explores Herbert's understanding of full individuality in community. Living communities depend upon imagined histories and futures. Like his mother Lady Magdalen Danvers and her friend John Donne, and unlike many of his Anglican contemporaries, Herbert imagined significant continuity with the pre-Reformation past; that imagination was tied

to a prophetic imagining of the future triumph of Christ's universal and apostolic church. Herbert's project was to 'purify' a unified national church from within, this purification taking place through lives lived communally in self-scrutiny, self-regulation, sacrifice, and loving service. Such 'holy patterns' of living were imagined as leading to the purification of the whole church, the spread of the Gospel, human advancement through what we would call scientific knowledge, and international peace.
