**Struggles for Self-Determination** Josiah Brownell 2021-12-02 Katanga, Rhodesia, Transkei and Bophuthatswana: four African countries that, though existing in a literal sense, were, in each case, considered by the international community to be a component part of a larger sovereign state through which all official communications and interactions were still conducted. This book is concerned with the intertwined histories of these four right-wing secessionist states in Southern Africa as they fought for but ultimately failed to win sovereign recognition. Along the way, Katanga, Rhodesia, Transkei, and Bophuthatswana each invented new national symbols and traditions, created all the trappings of independent statehood, and each proclaimed that their movements were legitimate expressions of national self-determination. Josiah Brownell provides a unique comparison between these states, viewed together as a common reaction to decolonization and the triumph of anticolonial African nationalism. Describing the ideological stakes of their struggles for sovereignty, Brownell explores the international political controversies that their drives for independence initiated inside and outside Africa. By combining their stories, this book draws out the relationships between the emergence of these four pseudo-states and the fragility of the entire postcolonial African state structure.

**University Builder** John B. Boles 2012-05-31 Rice University, one of America's preeminent institutions of higher education, grew out of the vision, direction, and leadership of one man: Edgar Odell Lovett (1871--1957). *University Builder* is the fascinating story of this extraordinary educator and the unique school he created. Widely acknowledged, almost from its founding in 1912, as one of America's best universities, Rice is distinguished as both the smallest and the youngest institution in the top tier of American universities. In telling the tale of Lovett and his innovative, enduring vision for Rice, John Boles

provides both a compelling biographical narrative and a refreshing new view of American higher education in the first half of the twentieth century. Lovett was not a Texan; he was not even a southerner. Rather, with two Ph.D.'s in hand, he was a rising star at Princeton University when the trustees of the newly founded Rice Institute--chartered in 1891 by wealthy Houston merchant William Marsh Rice--called him in 1907 to be the school's first president. Working with a significant endowment, a vague charter, a supportive board, and a visionary's gift for planning, Lovett set out on a fact-finding tour of educational institutions around the globe. He transformed the idea of the Institute into a complete university, one that emphasized research as much as teaching and aspired to world-class status. He sought the best architect available to design the campus, lured distinguished faculty from leading universities across the globe to Texas, and constructed a far-reaching vision of a small, carefully planned, elite university that incorporated the most advanced educational practices and shaped Rice's development for the next century. Lovett served as president of Rice for nearly forty years, proving himself to be an exemplary and charismatic leader who inspired two generations of students. He was the creator of Rice University in practically every way. Indeed, perhaps no other American university has been so shaped by its founder's vision. Boles's exceptional account of Lovett's remarkable academic achievement is a vital contribution to the legacy of Rice University and an important addition to the historiography of education in the early twentieth-century South.

Social Usage and Protocol Handbook Department of the Navy 2001-06-15 Members of the naval service will find that at all points in their careers they can expect to be involved to some extent in the planning and execution of official ceremonies and social events. Protocol is a code of established guidelines on proper etiquette and precedence which, when followed, lays the foundation for a successful event. From this foundation, the host should consider the facets which make a particular situation unique, and from there, use imagination to design a memorable occasion. The most important consideration in planning should always be the comfort of one's guests. A clever host/hostess is able to reach a proper mixture of protocol and common sense that will enable guests to enjoy themselves completely. If this is accomplished, an event is truly successful.

*The Challenge of African Potentials* Yaw Ofofu-Kusi 2020-02-07 This collection of articles is based on presentations and discussions at the 2018 African Potentials Forum, held in Accra, Ghana. This forum was a part of the African Potentials Project, which aims to clarify the latent problem-solving abilities, ways of thinking, and institutions that have been created, accumulated, unified, and deployed in the everyday experiences of Africans. The notion of Africa's latent power/potential is not related to romanticisation of the traditional knowledge of African society and its institutions as fixed, essentialised 'magic wands'. This notion also raises objections against political dogmas that seek to smoke out and eliminate thought and values originating in Western modernity. The keyword of the Accra Forum was futurity. Africa's future is laden with possibilities, latent power, and potential. It is bright and hopeful but, simultaneously, bleak and thought-provoking. For nascent democracies and economically challenged communities, the value of this potential lies not in its static qualities but in how these qualities can be harnessed and translated into beneficial practical outcomes. As a concept, 'potential' connotes a time to come; a futurity that is full of known and

unknown possibilities, challenges, and opportunities.

Reforming the UK's Citizenship Test Brooks, Thom 2022-04-29 How many questions could you answer in a pub quiz about British values? Designed to ensure new migrants have accepted British values and integrated, the UK's citizenship test is often portrayed as a bad pub quiz with answers few citizens know. With the launch of a new post-Brexit immigration system, this is a critical time to change the test. Thom Brooks draws on first-hand experience of taking the test, and interviews with key figures including past Home Secretaries, to expose the test as ineffective and a barrier to citizenship. This accessible guide offers recommendations for transforming the citizenship test into a 'bridge to citizenship' which fosters greater inclusion and integration.

The Hermit King Chung Min Lee 2019-11-05 North Korea is poised at the crossroads of history. Which direction will its leader take? Throughout the world, oppressive regimes are being uprooted and replaced by budding democracies, but one exception remains: The People's Republic of North Korea. The Kim family has clung to power for three generations by silencing dissidents, ruling with an iron fist, and holding its neighbors hostage with threats of war. Under the leadership of Kim Jong Un, North Korea has come closer than ever to creating a viable nuclear arsenal, but widespread famine and growing resistance are weakening his regime's stability. In The Hermit King, Asian geopolitical expert Chung Min Lee tells the story of the rise of the Kim Dynasty and its atrocities, motivations, and diplomatic goals. He also discusses the possible outcomes of its aggressive standoff with the world superpowers. Kim Jong Un is not a crazed "Rocket Man" or a bumbling despot; he has been groomed since birth to take control of his country and stay in power at all costs. He is now at a fateful crossroads. Will he make good on decades of threats, liberalize North Korea and gain international legitimacy, or watch his regime crumble around him? Lee analyzes the likelihood and consequences of each of these possibilities, cautioning that in the end, a humanitarian crisis in the region is all but unavoidable. The Hermit King is a thoughtful and compelling look at the most complicated diplomatic situation on Earth.

World of Tomorrow Kristen Lee Evelyn Moore is just another disenfranchised American girl, trying to scrape by with the help of her best friend, Lily, during the Depression in New York City. When a tumultuous event cascades into a roller coaster series of them a few short weeks before the grand opening of the much anticipated 1939 World's Fair, Evelyn worries how she'll survive, even more so when she realizes that her every near miss ends up that way by the deliberate effort of her new and complicated boss, Andrew James. Cool, collected and complicated, Andrew James is the wunderkind behind much of his family and employer's success but knowing the ropes so well you can always pull all the strings is only so rewarding. When Evelyn unexpectedly tumbles into his life, he finds himself pushed outside his wheelhouse and peering into a new and delightfully intriguing unknown, one with a future he relishes. A world of tomorrow.

**In the Shadows of the Holocaust and Communism** Alena Heitlinger 2017-07-12 When traumatic historical events and transformations coincide with one's entry into young adulthood, the personal and historical significance of life-course transitions interact and intensify. In this volume, Alena Heitlinger examines identity formation among a generation of Czech and Slovak Jews who grew up under communism, coming of age during the de-Stalinization period of 1962-1968. Heitlinger's main focus is on the differences and similarities within and between generations, and on the changing historical and political circumstances of state socialism/communism that have shaped an individual's consciousness and identity—as a Jew, assimilated Czech, Slovak, Czechoslovak and, where relevant, as an emigre or an immigrant. The book addresses a larger set of questions

about the formation of Jewish identity in the midst of political upheavals, secularization, assimilation, and modernity: Who is a Jew? How is Jewish identity defined? How does Jewish identity change based on different historical contexts? How is Jewish identity transmitted from one generation to the next? What do the Czech and Slovak cases tell us about similar experiences in other former communist countries, or in established liberal democracies? Heitlinger explores the official and unofficial transmission of Holocaust remembering (and non-remembering), the role of Jewish youth groups, attitudes toward Israel and Zionism, and the impact of the collapse of communism. This volume is rich in both statistical and archival data and in its analysis of historical, institutional, and social factors. Heitlinger's wide-ranging approach shows how history, generational, and individual biography intertwine in the formation of ethnic identity and its ambiguities.

**The Use of English in Institutional and Business Settings** Giuliana Garzone 2007  
This book explores the intercultural problems related to the widespread use of English in written and oral communication by native and non-native speakers in institutional and business settings. Each chapter looks at a different set of issues emerging from the confrontation of cultures across national, institutional and organizational discourse communities, taking an intercultural or cross-cultural approach. The focus is on workplace settings, both in institutional and business contexts (e.g. politics, public services, media, international corporate communication, advertising, business negotiations, etc.). The theme is all the more interesting today not only in consideration of the sheer magnitude of this phenomenon and its capillary spread, but above all on account of the pervasive penetration of English into professional and workplace contexts as a communication language also for local/internal communication. The complexity of intercultural communication as an object of research is reflected in the variety of the topics explored, the range of settings investigated, and the diversity of methodological approaches taken.
