Universities As Transformative Social Spaces Andrea Kolbel 2022-08-23 The realm of higher education, much like everything else in a global and mobile world, has rapidly altered in the last few decades. More and more universities and seats of higher education are using strategies towards 'internationalization'; by increasing heterogeneity in rank, student composition, resource endowments, faculty profiles, and their social spaces. The essays in this volume take a critical look at universities across South Asia, more specifically, at the dynamics of student mobility and mobilizations existing in such localized social spaces, and compares these with their counterparts in universities across the world. While elite universities in South Asia, as elsewhere, have been caught in a stiff international competition and are aspiring for the highest ranks, students from the most excluded communities and remote parts of the country seek entry to badly endowed universities, facing obstacles during their courses, and upon seeking entry into employment. The volume evaluates such universities as spaces for mobility opportunity and mobilizations in a globally networked world. It combines local and international perspectives with thorough observations of the dynamics in localized university spaces while embedding them in transnational processes.

In this volume, black-letter Rules of Professional Conduct are followed by numbered Comments that explain each Rule's purpose and provide suggestions for its practical application. The Rules will help you identify proper conduct in a variety of given situations, review those instances where discretionary action is possible, and define the nature of the relationship between you and your clients, colleagues and the courts.
