Forbidden Music Michael Haas 2013-04-15 DIV With National Socialism's arrival in Germany in 1933, Jews dominated music more than virtually any other sector, making it the most important cultural front in the Nazi fight for German identity. This groundbreaking book looks at the Jewish composers and musicians banned by the Third Reich and the consequences for music throughout the rest of the twentieth century. Because Jewish musicians and composers were, by 1933, the principal conveyors of Germany's historic traditions and the ideals of German culture, the isolation, exile and persecution of Jewish musicians by the Nazis became an act of musical self-mutilation. Michael Haas looks at the actual contribution of Jewish composers in Germany and Austria before 1933, at their increasingly precarious position in Nazi Europe, their forced emigration before and during the war, their ambivalent relationships with their countries of refuge, such as Britain and the United States and their contributions within the radically changed post-war music environment. /div

German Pop Literature Margaret McCarthy 2015-04-24 Pop literature of the 1990s enjoyed bestselling success, as well as an extensive and sometimes bluntly derogatory reception in the press. Since then, less censorious scholarship on pop has emerged to challenge its flash-in-the-pan status by situating the genre within a longer history of aesthetic practices. This volume draws on recent work and its attempts to define the genre, locate historical antecedents and assess pop's ability to challenge the status quo. Significantly, it questions the 'official story' of pop literature by looking beyond Ralf Dieter Brinkmann's works as origin to those of Jürgen Ploog, Jörg Fauser and Hadayatullah Hübsch. It also remedies the lack of attention to questions of gender in previous pop lit scholarship and demonstrates how the genre has evolved in the new millennium via expanded thematic concerns and new aesthetic approaches. Essays in the volume examine the writing of well-known, established pop authors – such as Christian Kracht, Andreas Neumeister, Joachim Lottman, Benjamin Lebert, Florian Illies, Feridun Zaimoğlu and Sven Regener – as well as more recent works by Jana Hensel, Charlotte Roche, Kerstin Grether, Helene Hegemann and songwriter/poet Peter Licht.

Contemporary German Crime Fiction Thomas W. Kniesche 2019-10-21 A companion to contemporary German crime fiction for English-speaking audiences is overdue. Starting with the earlier Swiss “classics” Glauser and Dürrenmatt and including a number of important Austrian authors, such as Wolf Haas and Heinrich Steinfest, this volume will cover the essential writers, genres, and themes of crime fiction written in German. Where necessary and appropriate, crime fiction in media other than writing (TV-series, movies) will be included. Contemporary social and political developments, such as gender issues, life in a multicultural society, and the afterlife of German fascism today, play a crucial role in much of recent German crime fiction. A number of contributions to this volume will comment on the literary reflection of these issues in the texts. The goal of the volume is to make available to English-speaking audiences, to students, teachers and to a wider circle of interested readers, a series of articles on genres, topics, authors, and texts that will help them understand the scope and depth of German crime fiction, its ties to international traditions and also the specificity of the German context, its historical development and contemporary situation.

Karl Marx Gareth Stedman Jones 2016-10-03 Gareth Stedman Jones returns Karl Marx to his nineteenth-century world, before later inventions transformed him into Communism's patriarch and fierce lawgiver. He shows how Marx adapted the philosophies of Kant, Hegel, Feuerbach, and others into ideas that would have—in ways inconceivable to Marx—an overwhelming impact in the twentieth century.

Animation Under the Swastika Rolf Giesen 2012-08-02 Among their many idiosyncrasies, Adolf Hitler and Joseph Goebbels, the Nazi minister of propaganda, remained serious cartoon aficionados throughout their lives. They adored animation and their influence on German animation after World War II continues to this day. This study explores Hitler and Goebbels' efforts to establish a German cartoon industry to rival Walt Disney's and their love-hate relationship with American producers, whose films they studied behind locked doors. Despite their ambitious dream, all that remains of their efforts are a few cartoon shorts—advertising and puppet films starring dogs, cats, birds, hedgehogs, insects, Teutonic dwarves, and other fairy-tale ensemble. While these pieces do not hold much propaganda value, they perfectly illustrate Hannah Arendt's controversial description of those who perpetrated the Holocaust: the banality of evil.
