Direct Action Ann Hansen 2001 "Direct Action captures the excitement and indignation of the counterculture of the early '80s. Missile tests were fuelling a new arms race. Reckless megaprojects threatened the global environment. Alienation, punk rock, and militancy were on the rise. Hansen and her fellow urban guerillas believed that sabotaging government and corporate property could help turn things around. To prove their point, they bombed the Litton Systems plant in Toronto, where components for Cruise Missiles were being made."

The National Highway Traffic Safety Administration's Rating System for Rollover Resistance National Research Council (U.S.). Committee for the Study of a Motor Vehicle Rollover Rating System 2002 Explains that the static stability factor is an indicator of a vehicle's propensity to roll over, and that US government ratings for vehicles do not reflect differences in rollover resistance. This report states that the 5-star system should allow discrimination among vehicles and incorporate results from road tests that measure vehicle control.

The Bean Trees Barbara Kingsolver 1998-09-09 Clear-eyed and spirited, Taylor Greer grew up poor in rural Kentucky with the goals of avoiding pregnancy and getting away. But when she heads west with high hopes and a barely functional car, she meets the human condition head-on. By the time Taylor arrives in Tucson, Arizona, she has acquired a completely unexpected child, a three-year-old American Indian girl named Turtle, and must somehow come to terms with both motherhood and the necessity for putting down roots. Hers is a story about love and friendship, abandonment and belonging, and the discovery of surprising resources in apparently empty places. Available for the first time in mass-market, this edition of Barbara Kingsolver's bestselling novel, *The Bean Trees*, will be in stores everywhere in September. With two different but equally handsome covers, this book is a fine addition

to your Kingsolver library.

Stiff: The Curious Lives of Human Cadavers Mary Roach 2004-05-17 Beloved, best-selling science writer Mary Roach's "acutely entertaining, morbidly fascinating" (Susan Adams, Forbes) classic, now with a new epilogue. For two thousand years, cadavers - some willingly, some unwittingly - have been involved in science's boldest strides and weirdest undertakings. They've tested France's first guillotines, ridden the NASA Space Shuttle, been crucified in a Parisian laboratory to test the authenticity of the Shroud of Turin, and helped solve the mystery of TWA Flight 800. For every new surgical procedure, from heart transplants to gender confirmation surgery, cadavers have helped make history in their quiet way. "Delightful—though never disrespectful" (Les Simpson, Time Out New York), Stiff investigates the strange lives of our bodies postmortem and answers the question: What should we do after we die? "This quirky, funny read offers perspective and insight about life, death and the medical profession. . . . You can close this book with an appreciation of the miracle that the human body really is." —Tara Parker-Pope, Wall Street Journal "Gross, educational, and unexpectedly sidesplitting." —Entertainment Weekly

Unstoppable Yanni Raz 2016-06-09 Unstoppable is a word defined as "difficult or impossible to preclude or stop." As a human quality, it is something that we associate with people such as sports superstars, those who do whatever it takes to inspire others and lead teams to the greatest of victories. Sometimes, an idea or person can become unstoppable. Unstoppable, like Charles Lindbergh crossing the Atlantic in a solo flight when no one had thought it was possible, or track star Roger Bannister breaking the four-minute mile barrier. Not everyone can be an explorer or a great athlete, but anyone can be unstoppable in their chosen endeavors in life. If you are willing to possess an unwavering determination to succeed and a consistent willingness to learn and evolve, you can become unstoppable and triumph too. This book is about a personal struggle, one in which the author awoke from a coma after a terrible accident and faced a life of permanent paralysis. A long battle of driven determination resulted in Yanni Raz regaining his health and becoming a self-made millionaire after migrating from his native Israel to the United States. Through careers as a musician, a Starbucks barista, a salesman, a real estate whiz, a professional poker player and a hard money lender, Yanni learned reliable principles and the skills necessary for success. Unstoppable covers many topics including controlling your life, making the best

decisions, creating new opportunities, properly assessing signals, expertly negotiating, and succeeding by storytelling across the media landscape. You'll learn about integrity in business, asset diversification, and many other life tips that thousands of people learn from Yanni on a daily basis. It is time to become fearless and lead a powerful life. With Yanni's new book *Unstoppable*, you can do just that.

Film Remakes Constantine Verevis 2005-11-15 This is the first book to provide a comprehensive and systematic account of the phenomenon of cinematic remaking. Drawing upon recent theories of genre and intertextuality, *Film Remakes* describes remaking as both an elastic concept and a complex situation, one enabled and limited by the interrelated roles and practices of industry, critics and audiences. This approach to remaking is developed across three broad sections: the first, remaking as industrial category, deals with issues of production, including commerce and authors; the second, remaking as textual category, considers genre, plots and structures; and the third, remaking as critical category, investigates issues of reception, including audiences and institutions. The film remake emerges as a particular case of repetition, a function of cinematic and discursive fields that is maintained by historically specific practices, such as copyright law and authorship, canon formation and

media literacy, film criticism and re-viewing. These points are made through the lively discussion of numerous historical and contemporary examples, including the remaking of classics (Double Indemnity, All That Heaven Allows, Psycho), foreign art-films (Yojimbo, Solaris, Le Samourai), cult movies (Gun Crazy, Planet of the Apes, Dawn of the Dead), and television properties (Batman, The Addams Family, Charlie's Angels).

Summer of '42 Herman Raucher 2015-05-03 "SUMMER OF '42 is a charming and tender novel...The overall effect is one of high hilarity. Raucher is a comic-artist who is able to convey the fears and joys...of the boy and at the same time give older readers a wrench in the heart. " —PUBLISHERS WEEKLY A classic coming-of-age story and international bestseller. Captivating and evocative, Herman Raucher's semi-autobiographical tale has been made into a record-breaking Academy Award nominated hit movie, adapted for the stage, and enchanted readers for generations. In the summer of 1942, Hermie is fifteen. He is wildly obsessed with sex, and passionately in love with an "older woman" of twenty-two, whose husband is overseas and at war. Ambling through Nantucket Island with his friends, Hermie's indelible narration chronicles his frantic efforts to become a man, especially one worthy of the lovely Dorothy, as well as his glorious and heartbreaking initiation into sex.

Looptail Bruce Tip 2014-04-03 Looptail is Bruce Poon Tip's extraordinary first-person account of his entrepreneurial instincts to start and develop G Adventures, the highly successful international travel adventure company - and along the way he reveals his unusual management secrets that not only keep his employees fully engaged and energized but also keep his customers extremely happy. His unique approach has worked in marvellous ways. Poon Tip has created an entirely new and refreshing approach to management. For example, there is no CEO at G Adventures - instead, every employee is a CEO, empowered to make instantaneous decisions to help clients on the spot. But while there's no CEO, there is a company Mayor, who take the pulse of corporate morale. There's no HR department - but there is a Talent Agency and company Culture Club. It hasn't always been easy to try to balance his desire for a socially responsible company along with the desire to generate profits. But thanks to Poon Tip's vision, G Adventures has flourished and has done its best to maintain its looptail approach. In

short, it's been an extraordinary ride, and in many ways G Adventures is at the vanguard of what modern-day companies are beginning to look like.

An Introduction to Modern Vehicle Design Julian Happian-Smith 2001 An Introduction to Modern Vehicle Design starts from basic principles and builds up analysis procedures for all major aspects of vehicle and component design. Subjects of current interest to the motor industry - such as failure prevention, designing with modern material, ergonomics, and control systems - are covered in detail, with a final chapter discussing future trends in automotive design. Extensive use of illustrations, examples, and case studies provides the reader with a thorough understanding of design issues and analysis methods.

Reputation Charles J. Fombrun 1996 Good reputations, says Charles Fombrun, create wealth. In this thoroughly accessible book, Fombrun shows that by developing strong and consistent images, well-regarded companies generate hidden assets - or reputational capital - that give them a distinct advantage. Reputation examines how companies in a variety of industries, such as international fashion, investment banking, packaged goods, and even U.S. business schools, compete for prestige and achieve celebrity. Vital, relevant, and readable for professionals in public, community, investor, and employee relations as well as brand and marketing managers and senior executives.

Managing Brand Equity David A. Aaker 2009-12-01 The most important assets of any business are intangible: its company name, brands, symbols, and slogans, and their underlying associations, perceived quality, name awareness, customer base, and proprietary resources such as patents, trademarks, and channel relationships. These assets, which comprise brand equity, are a primary source of competitive advantage and future earnings, contends David Aaker, a national authority on branding. Yet, research shows that managers cannot identify with confidence their brand associations, levels of consumer awareness, or degree of customer loyalty. Moreover in the last decade, managers desperate for short-term financial results have often unwittingly damaged their brands through price promotions and unwise brand extensions, causing irreversible deterioration of the value of the brand name. Although several companies, such as Canada Dry and Colgate-Palmolive, have recently created an equity management position to be guardian of the value of brand names, far too few managers, Aaker concludes, really understand the concept of brand equity and how it must be implemented. In a fascinating and insightful examination of the phenomenon of brand equity, Aaker provides a clear and

well-defined structure of the relationship between a brand and its symbol and slogan, as well as each of the five underlying assets, which will clarify for managers exactly how brand equity does contribute value. The author opens each chapter with a historical analysis of either the success or failure of a particular company's attempt at building brand equity: the fascinating Ivory soap story; the transformation of Datsun to Nissan; the decline of Schlitz beer; the making of the Ford Taurus; and others. Finally, citing examples from many other companies, Aaker shows how to avoid the temptation to place short-term performance before the health of the brand and, instead, to manage brands strategically by creating, developing, and exploiting each of the five assets in turn
