Cinematic Independence Noah Tsika 2022-02-22 A free open access ebook is available upon publication. Learn more at www.luminosoa.org. **Cinematic Independence** traces the emergence, demise, and rebirth of big-screen film exhibition in Nigeria. Film companies flocked to Nigeria in the years following independence, beginning a long history of interventions by Hollywood and corporate America. The 1980s and 1990s saw a shuttering of cinemas, which were almost entirely replaced by television and direct-to-video movies. However, after 1999, the exhibition sector was revitalized with the construction of multiplexes. **Cinematic Independence** is about the periods that straddle this disappearing act: the immediate decades bracketing independence in 1960, and the years after 1999. At stake is the Nigerian postcolony's role in global debates about the future of the movie theater. That it was eventually resurrected in the flashy form of the multiplex is not simply an achievement of commercial real estate, but also a testament to cinema's persistence—its capacity to stave off annihilation or, in this case, come back from the dead.

The I-search Paper Ken Macrorie 1988 This revised and retitled edition of Searching Writing includes two additional I-Search papers, one by a teacher, and a new chapter entitled "The Larger Context," which shows how the I Search concept can work throughout the whole curriculum in school and college. As with the first edition, The I-Search Paper is more than just a textbook; it's a new form of instructional help -- a context book -- that shows students what authority is in matters of learning and invites them to join the author and teacher in the educational movement called "Writing to Learn." To put this book in the hands of all the students in the course is not only to help them carry out an I-Search but to introduce them in a delightful way to the resources and tools of intellectual inquiry -- but one that never forgets the emotional or physical side of human activity. This is a rare textbook that treats students as partners in learning. It shows what it is to take charge of one's own learning and suggests that this move is one that productive people keep making throughout their lives.

Against Expression Craig Dworkin 2011-01-17 Charles Bernstein has described conceptual "poetry pregnant with thought." *Against Expression*, the premier anthology of conceptual writing, presents work that is by turns thoughtful, funny, provocative, and disturbing. Editors Craig Dworkin and Kenneth Goldsmith chart the trajectory of the conceptual aesthetic from early precursors such as Samuel Beckett and Marcel Duchamp through major avant-garde groups of the past century, including Dada, Oulipo, Fluxus, and language poetry, to name just a few. The works of more than a hundred writers from Aasprong to Zykov demonstrate a remarkable variety of new ways of thinking about the nature of texts,

information, and art, using found, appropriated, and randomly generated texts to explore the possibilities of non-expressive language.

The Busiest Man in England P. Morton 2005-04-15 This book is a critical biography of Grant Allen, (1848-1899), the first for a century, based on all the surviving primary sources. Born in Kingston, Ontario, into a cultured and affluent family, Allen was educated in France and England. A mysterious marriage while he was an Oxford undergraduate wrecked his academic career and radicalized his views on sexual and marital questions, as did a three-year teaching stint in Jamaica. Despite his lifelong ill health and short life, Allen was a writer of extraordinary productivity and range. About half - more than 30 books and many hundreds of articles - reflects interests which ran from Darwinian biology to cultural travel guides. His prosperity, however, was underpinned by fiction; more than 30 novels, including *The Woman Who Did* , which has attracted much recent attention from feminist critics and historians. *The Better End of Grub Street* uses Allen's career to examine the role and status of the freelance author/journalist in the late-Victorian period. Allen's career delineates what it took to succeed in this notoriously tough profession.
