Exploring Ordinary Theology Leslie J. Francis 2016-04-15 'Ordinary theology' characterizes the reflective God-talk of the great majority of churchgoers, and others who remain largely untouched by the assumptions, concepts and arguments that academic theology takes for granted. Jeff Astley coined the phrase in his innovative study, *Ordinary Theology: Looking, Listening and Learning in Theology*, arguing that 'speaking statistically ordinary theology is the theology of God's Church'. A number of scholars have responded to this and related conceptualizations, exploring their theological implications. Other researchers have adopted the perspective in examining a range of Church practices and contexts of Christian discipleship, using the tools of empirical study. Ordinary theology research has proved to be key in uncovering people's everyday lay theology or ordinary dogmatics. *Exploring Ordinary Theology* presents fresh contributions from a wide range of authors, who address the theological, empirical and practical dimensions of this central feature of ordinary Christian existence and the life of the Church.

How to Read Karl Barth George Hunsinger 1993 This critical study decodes the most cryptic and elusive patterns of Karl Barth's dialectic. Hunsinger not only offers a new and authoritative interpretation of Barth's mature theology, but also places Barth's work in relation to contemporary discussions of truth, justified belief, double agency, and religious pluralism. Through a fresh and compelling reading of Church Dogmatics, Hunsinger offers a new account of the coherence of that work as a whole.

From Chaos To Mission Gerald A. Arbuckle 1996-01-10 Formation is a rite of passage or initiation ritual. This book draws on the findings of social anthropological studies of initiation rituals and contemporary biblical studies of rites of passage. Since initiation rituals are of critical importance in the life journeys of individuals and groups, the book's central theme is relevant to educationalists and ritual leaders in the Church and secular society. Most religious congregations founded since the thirteenth century were formed for prophetic ministry to a world in change, yet for centuries before Vatican II, their candidates were rarely trained explicitly for this task. Through years of quasi-indoctrination and voluntary incarceration they were taught, in a monastic atmosphere of unchanging order, that the world was evil and to be avoided. Conformity to a theological, ecclesiastical and pastoral status quo was the most esteemed value in a candidate. This emphasis was contrary to the very nature of active religious life. Religious must be prophetic challengers of the status quo within the Church and society. Training for membership in active religious congregations, therefore, must now be radically reformed, but there are no road maps available to direct educationalists in developing programmes that would stimulate candidates to be radically creative in ministry. From Chaos to Mission creates a framework for radical thinking and practical action about the critical issue of formation of religious for mission today.

Vera Philosophia Giulio D'Onofrio 2008 This volume includes a collection of reworked articles which the author, during the last twenty years, dedicated to the origins and conditions constitutive of Christian philosophical-theological thought. From the earliest centuries of the Christian era, human reason was submitted to a particular formal conditioning, in so far as it was necessarily obliged to confront the contents of a divine revelation recognized as necessarily 'true'. The medieval Latin scholar was induced by the social and cultural peculiarities of his time to confront a model of thought which imposes a decisive subordination of natural knowledge - demonstrated to be imperfect and inconclusive - to the certainties assured by the faith. The production of this model of philosophia, sensibly different from the dominant paradigms in the classical period, rooted itself in the critical redimensioning of reason introduced into the West by Cicero. Departing from the observation of the failure of the philosophical aspirations of antiquity, the Christian intellectuals effected an operative 'overturning' of the conditions of veridical knowledge. The new wisdom was not the result of a pure interference of religion in the field of rational science; it was, however, directed by a conscious 'conversion' of the philosophers and fulfilled on two sides: on that of the faith, which requires earthly knowledge in order to defend itself from misunderstandings and heresies; and on that of reason, which allows itself to draw upon supernatural revelation for the possession of regulatory principles which guide it in the study of natural things. This book investigates the development of this approach during the course of the centuries which precede, in the West, the rediscovery of Aristotelian epistemology: from Augustine to Boethius, from John Scottus Eriugena to Anselm of Aosta. It moves to the point of describing

the return of this methodological approach, at the end of the Medieval Scholastic period, in the results of the anti-Aristotelian critique carried out by the men of the Renaissance in the recovering of a model of thought which had dominated in the Patristic and Early Medieval periods.

Briefe und Tagebücher Franz Rosenzweig 2014-04-21 Das Erscheinen der Gesammelten Schriften Franz Rosenzweigs stellt ein Ereignis von besonderem geistigen Rang dar. Denn es ist ganz unbestritten, daß Franz Rosenzweig zu den bedeutendsten jüdischen Denkern unseres Jahrhunderts gehört, ja, daß er vermutlich sogar weit über unsere Epoche hinaus von Bedeutung sein wird. E. Levinas hat Rosenzweig nicht zu Unrecht Gestalten wie Blaise Pascal und Sören Kierkegaard an die Seite gestellt. Gleichwohl ist das Werk Rosenzweigs bis jetzt nur schwer zugänglich gewesen. Und zwar nicht nur aus den Gründen, deren wegen auch sonst ein Werk, das Entscheidendes zu sagen hat, seine Zeit braucht, bis es zugänglich wird, sondern auch deshalb, weil sich dem Schicksal des Werkes Rosenzweigs die leidvollen Spuren der jüdischen Emigration deutlich eingegraben haben. Franz Rosenzweig starb 42-jährig im Dezember 1929, drei Jahre vor dem Ausbruch der braunen Diktatur. Edith Rosenzweig, seine Gattin, konnte zwar 1935 und 1937 noch die kleineren Schriften und eine Auswahl aus Rosenzweigs Briefen veröffentlichen. Die beiden Bände gehören zu den wenigen umfangreicheren von Juden verfaßten Büchern, deren Druck in jenen Jahren möglich war. An weitere Veröffentlichungen war damals aber nicht zu denken. Der handschriftliche Nachlaß Rosenzweigs wurde zum Teil Glatzernach den Vereinigten Staaten, zum Teil durch Nahum N.

One Human Minute Stanislaw Lem 2012-07-18 Essays by the author of *Solaris*: "Lem's delightful sense of humor accentuates his essential seriousness about humanity's possible fate" (Publishers Weekly). In *One Human Minute*, Stanislaw Lem takes a hard look at our world and technology—what it means now and what dire implications it could have for the future—in satirical, wise, and biting prose. With this collection of three essays, Lem targets some of the most pressing issues humanity faces, from our unsettling origins to the cybernetic future of our weaponry. "The Upside-Down Evolution" chronicles the Earth's military evolution from nuclear stockpiles to deadly, robotic microweapons. "The World as Cataclysm" examines how humankind's dominance on Earth is the result of the extermination of another species just as qualified to rule the world. And the title essay presents a disturbing

and fascinating snapshot of every single thing happening on the planet in a sixty-second span. Effortlessly blurring the lines between fiction and nonfiction, scientific essay and fantastical short story, cynical reproach and wry humor, Lem's One Human Minute combines the best elements of the renowned science fiction author and Kafka Prize winner's writing into one irreverent and intellectually stimulating package.

The Parables of Jesus Luise Schottroff A premier New Testament scholar explores how Jesus' trial and execution are portrayed in the New Testament and how that portrayal has affected biblical studies, Christian theology, and Jewish-Christian relations through history. Tomson has written an accessible, responsible analysis of the biblical accounts of Jesus' death, demonstrating how, through compounded misunderstandings, they contributed to anti-Jewish sentiment in the early church and later history. Tomson's question of how Jesus is to be understood in his first-century Judean context is a critical one not only for biblical scholars, but for anyone concerned about human rights and interreligious dialogue today.

@ Worship Teresa Berger 2017-07-14 A host of both very old and entirely new liturgical practices have arisen in digital mediation, from the live-streaming of worship services and "pray-as-you-go" apps, to digital prayer chapels, virtual choirs and online pilgrimages. Cyberspace now even hosts communities of faith that exist entirely online. These digitally mediated liturgical practices raise challenging questions: Are worshippers in an online chapel really a community at prayer? Do avatars that receive digital bread and wine receive communion? @ Worship proposes a nuanced response to these sometimes contentious issues, rooted in familiarity with, and sustained attention to, actual online practices. Four major thematic lines of inquiry form the structure of the book. After an introductory chapter the following chapters look at digital presence, virtual bodies, and online participation; ecclesial communities in cyberspace; digital materiality, visuality, and soundscapes; and finally the issues of sacramental mediation online. A concluding chapter brings together the insights from the previous chapters and maps a way forward for reflections on digitally mediated liturgical practices. @ Worship is the first monograph dedicated to exploring online liturgical practices that have emerged since the introduction of Web 2.0. Bringing together the scholarly tools and insights of liturgical studies, constructive theology and digital media theories, it is vital reading for scholars of Theology and Religion with as well as Sociology and Digital Culture more generally.

Becoming Friends of Time John Swinton 2018-01-15 Time is central to all that humans do. Time structures days, provides goals, shapes dreams--and limits lives. Time appears to be tangible, real, and progressive, but, in the end, time proves illusory. Though mercurial, time can be deadly for those with disabilities. To participate fully in human society has come to mean yielding to the criterion of the clock. The absence of thinking rapidly, living punctually, and biographical narration leaves persons with disabilities vulnerable. A worldview driven by the demands the clock makes on the lives of those with dementia or profound neurological and intellectual disabilities seems pointless. And yet, Jesus comes to the world to transform time. Jesus calls us to slow down, take time, and learn to recognize the strangeness of living within God's time. He calls us to be gentle, patient, kind; to walk slowly and timefully with those whom society desires to leave behind. In *Becoming Friends of Time*, John Swinton crafts a theology of time that draws us toward a perspective wherein time is a gift and a calling. Time is not a commodity nor is time to be mastered. Time is a gift of God to humans, but is also a gift given back to God by humans. Swinton wrestles with critical questions that emerge from theological reflection on time and disability: rethinking doctrine for those who can never grasp Jesus with their intellects; reimagining discipleship and vocation for those who have forgotten who Jesus is; reconsidering salvation for those who, due to neurological damage, can be one person at one time and then be someone else in an instant. In the end, Swinton invites the reader to spend time with the experiences of people with profound neurological disability, people who can change our perceptions of time, enable us to grasp the fruitful rhythms of God's time, and help us learn to live in ways that are unimaginable within the boundaries of the time of the clock. --Stanley Hauerwas, Gilbert T. Spirituality of the Psalms Walter Brueggemann Using a model of orientation - disorientation - new orientation, Brueggemann explores how the genres of the Psalms can be viewed in terms of their function. This results in fresh readings of these ancient songs that illumine their spiritual depth. The voices of the Psalms come through in all their bold realism.

Latinxs, the Bible, and Migration Efraín Agosto 2018-10-27 This book examines the conjunction between migration and biblical texts with a focus on Latinx histories and experiences. Essays reflect upon Latinxs, the Bible, and migration in different ways: some consider how the Bible is used in the midst of, or in response to, Latinx experiences and histories of migration; some use Latinx histories and experiences of migration to examine Biblical texts in both First and Second Testaments; some consider the "Bible" as a phenomenological set of texts that respond to and/or compel migration. Cultural, literary, and

postcolonial theories inform the analysis, as does the exploration of how migrant groups themselves scripturalize their biblical and cultural texts.

Secularization and the World Religions Klaus Wiegandt 2009-01-01 This volume concerns itself with the connections between religions and the social world and with the extent, limits, and future of secularization. Dealing with the major religious traditions and their explicit or implicit ideas about the individual, social, and political order, as well as offering an overview of the religious situation in important geographical areas, *Secularization and the World Religions* analyzes the legal organization of the relationship between state and religion—as well as the role of the natural sciences—in a global perspective. Contributors include such internationally renowned scholars as Winfried Brugger, José Casanova, Hans Joas, and Hans Kippenberg.

Value-Free Science Harold Kincaid 2007-03-15 It has long been thought that science is our best hope for realizing objective knowledge, but that, to deliver on this promise, it must be value free. Things are not so simple, however, as recent work in science studies makes clear. The contributors to this volume investigate where and how values are involved in science, and examine the implications of this involvement for ideals of objectivity.

The Shared Parish Brett C. Hoover 2014-08-15 As faith communities in the United States grow increasingly more diverse, many churches are turning to the shared parish, a single church facility shared by distinct cultural groups who retain their own worship and ministries. The fastest growing and most common of these are Catholic parishes shared by Latinos and white Catholics. Shared parishes remain one of the few institutions in American society that allows cultural groups to maintain their own language and customs while still engaging in regular intercultural negotiations over the shared space. This book explores the shared parish through an in-depth ethnographic study of a Roman Catholic parish in a small Midwestern city demographically transformed by Mexican immigration in recent decades. Through its depiction of shared parish life, the book argues for new ways of imagining the U.S. Catholic parish as an organization. The parish, argues Brett C. Hoover, must be conceived as both a congregation and part of a centralized system, and as one piece in a complex social ecology. *The Shared Parish* also posits that the search for identity and adequate intercultural practice in such parishes might call for new approaches to cultural diversity in U.S. society, beyond assimilation or multiculturalism. We must imagine a religious organization that accommodates both the need for safe space within distinct groups and for social networks that connect these groups as they struggle to respectfully co-exist.

Framing in Discourse Deborah Tannen 1993 The concept of framing has been pivotal in research on social interaction among anthropologists, sociologists, psychologists, and linguists. This collection shows how the discourse analysis of frames can be applied to a range of social contexts. Tannen provides a seminal theoretical framework for conceptualizing the relationship between frames and schemas as well as a methodology for the discourse analysis of framing in interaction. Each chapter makes a unique theoretical contribution to frames theory while showing how discourse analysis can elucidate the

linguistic means by which framing is accomplished in a particular interactional setting. Applied to such a wide range of contexts as a medical examination, psychotic discourse, gender differences in sermon performance, boys' sportscasting their own play, teasing among friends, a comparison of Japanese and American discussion groups, and sociolinguistic interviews, the discourse analysis of framing emerges here as a fruitful new avenue for interaction analysis.

Christians in Asia before 1500 Ian Gilman 2013-01-11 The history of Christianity in Asia is little dealt with either by Church historians or by historians of religion. It is generally unknown, even amongst theologians, that there was a long history of Christianity in Persia, India, Central Asia and China before the appearance on the scene of the first missionaries from the West. A systematic history of the Christian Church in Asia before 1500 is needed. Drawing on material hitherto unknown in the English speaking world, this is a timely and important book because there is a heightened interest today in the early forms of Asian Christianity. The Church in Asia today seeks to find forms of religious expression that are in harmony with Asian culture as was the case in the earlier period. The book covers the period up to 1500 CE. The geographical areas dealt with are Palestine, Syria, Mesopotamia, Persia, India, Central and South East Asia, China and Japan. The book takes into account the outward development of the Church in these areas as well as the inner, theological issues.

Studies in the Synoptic Problem William Sanday 1911

A Church of Our Own R. Stephen Warner 2005 In this definitive collection of essays, R. Stephen Warner traces the development of the "new paradigm" interpretation of American religion. Originally formulated in the 1990s in response to prevailing theories of secularization that focused on the waning plausibility of religion in modern societies, the new paradigm reoriented the study of religion to a focus on communities, subcultures, new religious institutions, and the fluidity of modern religious identities. This perspective continues to be one of the most important driving forces in the field and one of the most significant challenges to the idea that religious pluralism inevitably leads to religious decline. Chapters examine evangelicals and Pentecostals, gay and lesbian churches, immigrant religious institutions, Hispanic parishes, and churches for the deaf in terms of this framework. Newly written introductory and concluding essays set these groups within the broad context of the developing field.
