Police State Gerry Spence 2015-09-08 How does America, founded on the promise of freedom for all, find itself poised to become a police state? In Police State, legendary "country lawyer" Gerry Spence reveals the unnerving truth of our criminal justice system. In his more than sixty years in the courtroom, Spence has never represented a person charged with a crime in which the police hadn't themselves violated the law. Whether by hiding, tampering with, or manufacturing evidence; by gratuitous violence and even murder, those who are charged with upholding the law too often break it. Spence points to the explosion of brutality leading up to the murder of Freddie Gray in Baltimore, insisting that this is the way it has always been: cops get away with murder. Nothing changes. Police State narrates the shocking account of the Madrid train bombings -how the FBI accused an innocent man of treasonous acts they knew he hadn't committed. It details the rampant racism within Chicago's police department, which landed teenager Dennis Williams on death row. It unveils the deliberately coercive efforts of two cops to extract a false murder confession from frightened and mentally fragile Albert Hancock, along with other appalling evidence from eight of Spence's most famous cases. We all want to feel safe. But how can we be safe when the very police we pay to protect us instead kill us, maim us, and falsify evidence against us. Can we accept the argument that cops may occasionally overstep their boundaries, but only when handling guilty criminals and never with us? Can we expect them to investigate and prosecute themselves when faced with allegations of misconduct? Can we believe that they are acting for our own good? Too many innocent are convicted; too many are wrongly executed. The cost has become too high for a free people to bear. In Police State, Spence issues a stinging indictment of the American justice system. Demonstrating that the way we select and train our police guarantees fatal abuses of justice, he also prescribes a challenging cure that stands to

restore America's promise of liberty and justice for all.

**Impersonators Anonymous** Rick Lenz 2018-09-19 "That guy's got to stop ... He'll see us." -- James Dean's last words "Being dead is no more educational than being a movie star." -- John Wayne, Impersonators Anonymous "You think you're the only crazy one in this family, but you're not." -- Emily Bennett, Impersonators Anonymous Late Seventies: Young, would-be movie producer Emily Bennett doesn't believe Have Gun Will Travel star, Richard Boone, when he tells her about a 2/3 completed film, starring James Dean and John Wayne. But when she meets the old film editor who stole the master negative of the legendary Showdown, she finds two uncannily gifted celebrity impersonators and with the aid of emerging computer technology sets out to complete the movie. Filming Showdown, Emily and her stars portray characters entangled in an ambiguous love triangle with Oedipal overtones that mirrors their real life dynamic. On top of this and distrusting her prima donnaish director, Emily and her brother (three face lifts) struggle with unresolved issues about their dying father. All these flawed characters find themselves in the titular showdown of their lives when their interwoven back-stories coalesce in a stormy climax that reveals their hidden animosities and demons.

Bloodthirsty Bitches and Pious Pimps of Power Gerry Spence 2007-10-30 Ann Coulter. Laura Ingraham. Nancy Grace. Bill O'Reilly. Sean Hannity. Pat Robertson. Their faces and voices are ubiquitous: the shrill shrieks and strident bellowings that drown out all debate and set every listener on edge, using God's and Jesus's names to justify oppression and ignorance, and spread falsehoods as if they were facts. They occupy the bully pulpit of the new American hate culture: the television and radio programs watched and heard by millions of people that shape the opinions and set the agendas of churches, school boards, political action groups, and ultimately those we have elected to represent all of us. Gerry Spence takes dead aim at the media demagogues who wield their power with such virulent effect. Using the full force of his own rhetorical skill—developed through decades as a legendary defense attorney—Spence exposes the people behind the words, and carves their arguments with the rough edge of his tongue. Anyone who has had it up to here will cheer to see these bullies met and conquered on their own turf.

Say Nothing Patrick Radden Keefe 2019 NEW YORK TIMES BESTSELLER \* From the author of Empire of Pain--a stunning, intricate narrative about a notorious killing in Northern Ireland and its devastating repercussions "Masked intruders dragged Jean McConville, a 38-year-old widow and mother of 10, from her Belfast home in 1972. In this meticulously reported book--as finely paced as a novel--Keefe uses McConville's murder as a prism to tell the history of the Troubles in Northern Ireland. Interviewing people on both sides of the conflict, he transforms the tragic damage and waste of the era into a searing, utterly gripping saga." --New York Times Book Review Jean McConville's abduction was one of the most notorious episodes of the vicious conflict known as The Troubles. Everyone in the neighborhood knew the I.R.A. was responsible. But in a climate of fear and paranoia, no one would speak of it. In 2003, five years after an accord brought an uneasy peace to Northern Ireland, a set of human bones was discovered on a beach. McConville's children knew it was their mother when they were told a blue safety pin was attached to the dress--with so many kids, she had always kept it handy for diapers or ripped clothes. Patrick Radden Keefe's mesmerizing book on the bitter conflict in Northern Ireland and its aftermath uses the McConville case as a starting point for the tale of a society wracked by a violent guerrilla war, a war whose consequences have never been reckoned with. The brutal violence seared not only people like the McConville children, but also I.R.A. members embittered by a peace that fell far short of the goal of a united Ireland, and left them wondering whether the killings they committed were not justified acts of war, but simple murders. From radical and impetuous I.R.A. terrorists such as Dolours Price, who, when she was barely out of her teens, was already planting bombs in London and targeting informers for execution, to the ferocious I.R.A. mastermind known as The Dark, to the spy games and dirty schemes of the British Army, to Gerry Adams, who negotiated the peace but betrayed his hardcore comrades by denying his I.R.A. past--Say Nothing conjures a world of passion, betrayal, vengeance, and anguish. Look for Patrick Radden Keefe's latest bestseller, Empire of Pain

**Richard Nixon** John A. Farrell 2017-03-28 From a prize-winning biographer comes the defining portrait of a man who led America in a time of turmoil and left us a darker age. We live today, John A. Farrell shows, in a world Richard Nixon made. At the end of WWII, navy lieutenant "Nick" Nixon returned from the Pacific and set his cap at Congress, an idealistic dreamer seeking to build a better world. Yet amid the turns of that now-legendary 1946 campaign, Nixon's finer attributes gave way to unapologetic ruthlessness. The story of that transformation is the stunning overture to John A. Farrell's magisterial biography of the president who came to embody postwar American resentment and division. Within four years of his first victory, Nixon was a U.S. senator; in six, the vice president of the United States of America. "Few came so far, so fast, and so alone," Farrell writes. Nixon's sins as a candidate were legion; and in one unlawful secret plot, as Farrell reveals here, Nixon acted to prolong the Vietnam War for his own political purposes. Finally elected president in 1969, Nixon packed his staff with bright young men who devised forward-thinking reforms addressing health care, welfare, civil rights, and protection of the environment. It was a fine legacy, but Nixon cared little for it. He aspired to make his mark on the world stage instead, and his 1972 opening to China was the first great crack in the Cold War. Nixon had another legacy, too: an America divided and polarized. He was elected to end the war in Vietnam, but his bombing of Cambodia and Laos enraged the antiwar movement. It was Nixon who launched the McCarthy era, who played white against black with a "southern strategy," and spurred the Silent Majority to despise and distrust the country's elites. Ever insecure and increasingly paranoid, he persuaded Americans to gnaw, as he did, on grievances--and to look at one another as enemies. Finally, in August 1974, after two years of the mesmerizing intrigue and scandal of Watergate, Nixon became the only president to resign in disgrace. Richard Nixon is a gripping and unsparing portrayal of our darkest president. Meticulously researched, brilliantly crafted, and offering fresh revelations, it will be hailed as a master work.

*Court of Lies* Gerry Spence 2019-02-19 From Gerry Spence, one of America's greatest trial attorneys and the New York Times bestselling author of *How to Argue and Win Every Time*, comes an explosive courtroom thriller of murder, passion, and the twists and treachery of law and justice. Gerry Spence is one of the greatest trial lawyers of our time. He has not lost a jury trial in fifty years and has never lost a criminal or a capital case. He has also represented many celebrated defendants and appeared on countless national TV talk shows. Spence now presents us with beautiful Lillian Adams, who is going on trial for the murder of her wealthy husband before Judge John Murray. The prosecutor, Haskins Sewell, however, is consumed by political ambition. He plans to advance his own career by framing Lillian for murder one and by railroading the judge into prison. A fast-paced, up-all-night courtroom thriller, *Court of Lies* is also a harsh indictment of today's legal system. The country has 2.3 million people behind bars and 7.5 million more on parole or probation. A major reason for so much mass incarceration is the dominance of politically motivated prosecutors, who over-sentence defendants for the sake of winning votes in their own elections and advancing their careers.

*My Life in Court* Louis Nizer 2016-11-11 In this electrifying bestseller, the shrewd and voluble trial lawyer Louis Nizer, who made a long career of representing famous people in famous cases, recounts some of his significant civil and criminal cases. Nizer rose to national fame with his real-life accounts of tension-filled courtrooms and the fervor of the advocate, and "My Life in Court" proved to be no exception: it rose to the top of the Times's best-seller list on its publication in 1961 and logged 72 weeks as a sales leader. The book is an in-depth collection of some of Mr. Nizer's court case success stories, including his client Quentin Reynolds' famous libel action against the columnist Westbrook Pegler, which would also become the basis of the 1963 Broadway play "A Case of Libel." Praised by critics as "entertaining and philosophically instructive, an unusual combination," Nizer's movie-like plots of real-life courtroom drama will keep you captivated until the very last page.

Life of a Roadie Ronnie Rush 2013-03 In all of Rock 'n Roll, it was the least of all cool jobs, but everyone who did it, wanted no other job: Roadie. No show ended or started without them; they were there hours before and hours after a concert. It paid minimum wage with no benefits. But if you toured with the right group, you were dead in the middle of history. Few Roadies write their history, their personal stories, their pain and joy. But in Ronnie Rush's book, we see a slice of Rock history that does not try to bridge all of rock 'n roll music; the words place a small stone in the foundation of the growth of one group's life and travels. (Ross du Clair, Chief Engineer, Clear Channel Radio, Sacramento, CA) I've been to hell and back and shook hands with the devil, and I'm still walking tall without the smell of smoke upon me. -Ronnie Rush This book is about my experiences in the music business, starting from when I was a roadie with all the experiences I had with the artists I worked for and continuing through my times in radio until my retirement. The title, Life of a Roadie: the Gypsy in Me, describes how it was that early on, even while growing up, I had a gypsy-like personality that gave me the capacity to travel the United States. Life of a Roadie also tells about how I grew up and who I am, the history and personality that drove me to be able to handle the road and the success I experienced. I'll be taking the reader on a true-life journey that was mostly brought on by luck, circumstance, experience, and personal drive to succeed. There are three things I have always told people when I was approached and asked for advice while I was in the music business: Never give up, never give up, never give up!

*Mountain Man* Hiram Cody Tegart 2019-09-06 Life was one big adventure for Hiram Cody Tegart. At times unbelievable and others just downright impressive, *Mountain Man* is the celebration of a legend of a man and a legendary way of life that is quickly disappearing. Cody was born in 1950 on a ranch in BC's Columbia Valley. The bush that surrounded his family's farm was the best playground any kid could ask for. Growing up with wildlife, guns and one misadventure after another, Cody quickly gained the skills he needed to help his father manage their guiding and outfitting operation. Located around the Palliser River, his father's guiding territory extended to the Kootenay National Park and Alberta border. Cody eventually purchased the hunting business and built it into one of the most prosperous in BC. By 1984 he had an unprecedented success rate of 85 percent in elk hunts and an amazing 100 percent in goat hunts. This entertaining memoir is a collection of Cody's most unruly, shocking and hilarious escapades. Cody sums up his well-lived outdoor life with his favourite saying: "Get tough or die!" In *Mountain Man*, co-author and friend Andrew Bruce Richards collects tales written by Cody, but also includes his own memories and stories from other hunters, guides and friends to give a full account of this remarkable life. *Mountain Man* is an ode to Cody and a way of life that celebrates the thrill of a bull elk bugling on a frosty morning, the excitement of a hunt and the satisfaction of sitting in a smoky cabin with a strong drink afterwards and the smell of elk steaks on the grill lingering in the air.

Joan Benny, daughter of comedian, Jack Benny, one of America's greatest entertainment icons of the 20th century, whose career included vaudeville, radio, movies and television. "A nice compilation of essays on film stars who made the transition from the stage to early talkies with essays on Al Jolson, Mae West, Eddie Cantor, Harpo Marx, Spencer Tracy, Clark Gable, Charley Grapewin, Ed Wynn, and the Morgans (Frank and Ralph). Some essays were much better than others - I loved the one on the Morgans, Burns and Allen, Harpo Marx, and Katharine Hepburn... I would highly recommend the book as it gives you a good idea what vaudeville and the Broadway stage was like in the early 20's and what it was about these stars that allowed them to make the transition." -Librarything.com "...big stars as well as a raft of character actors, and decorated with dozens of striking photos...perceptive close-ups that make for vibrant film criticism...engaging profiles of Old Hollywood icons..." - Kirkus "Performers attempting to breakthrough will find this book inspirational!" - An Aspiring Actor Motion pictures with recorded sound --known as "talking pictures", or "talkies"--signaled the end of silent films and created some of the greatest entertainment icons of the twentieth century. We Pointed Them North E.C. "Teddy Blue" Abbott 2015-02-16 E. C. Abbott was a cowboy in the great days of the 1870's and 1880's. He came up the trail to Montana from Texas with the long-horned herds which were to stock the northern ranges; he punched cows in Montana when there wasn't a fence in the territory; and he married a daughter of Granville Stuart, the famous early-day stockman and Montana pioneer. For more than fifty years he was known to cowmen from Texas to Alberta as "Teddy Blue." This is his story, as told to Helena Huntington Smith, who says that the book is "all Teddy Blue. My part was to keep out of the way and not mess it up by being literary.... Because the cowboy flourished in the middle of the Victorian age, which is certainly a funny paradox, no realistic picture of him was ever drawn in his own day. Here is a

self-portrait by a cowboy which is full and honest." And Teddy Blue himself says, "Other old-timers have told all about stampedes and swimming rivers and what a terrible time we had, but they never put in any of the fun, and fun was at least half of it." So here it is—the cowboy classic, with the "terrible" times and the "fun" which have entertained readers everywhere. First published in 1939, *We Pointed Them North* has been brought back into print by the University of Oklahoma Press in completely new format, with drawings by Nick Eggenhofer, and with the full, original text.

out its riddle for forty-two, and been keeping diaries of clues to that riddle for the last thirty-five. Notes about successes and failures, joys and sorrows, things that made me marvel, and things that made me laugh out loud. How to be fair. How to have less stress. How to have fun. How to hurt people less. How to get hurt less. How to be a good man. How to have meaning in life. How to be more me. Recently, I worked up the courage to sit down with those diaries. I found stories I experienced, lessons I learned and forgot, poems, prayers, prescriptions, beliefs about what matters, some great photographs, and a whole bunch of bumper stickers. I found a reliable theme, an approach to living that gave me more satisfaction, at the time, and still: If you know how, and when, to deal with life's challenges—how to get relative with the inevitable—you can enjoy a state of success I call “catching greenlights.” So I took a one-way ticket to the desert and wrote this book: an album, a record, a story of my life so far. This is fifty years of my sights and seens, felts and figured-outs, cools and shamefuls. Graces, truths, and beauties of brutality. Getting away withs, getting caughts, and getting wets while trying to dance between the raindrops. Hopefully, it's medicine that tastes good, a couple of aspirin instead of the infirmary, a spaceship to Mars without needing your pilot's license, going to church without having to be born again, and laughing through the tears. It's a love letter. To life. It's also a guide to catching more greenlights—and to realizing that the yellows and reds eventually turn green too. Good luck.
