The Cultural Turn in Late Ancient Studies Philip Rousseau 2005-04-07 The essays in this provocative collection exemplify the innovations that have characterized the relatively new field of late ancient studies. Focused on civilizations clustered mainly around the Mediterranean and covering the period between roughly 100 and 700 CE, scholars in this field have brought history and cultural studies to bear on theology and religious studies. They have adopted the methods of the social sciences and humanities—particularly those of sociology, cultural anthropology, and literary criticism. By emphasizing cultural and social history and considerations of gender and sexuality, scholars of late antiquity have revealed the late ancient world as far more varied than had previously been imagined. The contributors investigate three key concerns of late ancient studies: gender, asceticism, and historiography. They consider Macrina's scar, Mary's voice, and the harlot's body as well as Augustine, Jovinian, Gregory of Nazianzus, Julian, and Ephrem the Syrian. Whether examining how animal bodies figured as a means for understanding human passion and sexuality in the monastic communities of Egypt and Palestine or meditating on the almost modern epistemological crisis faced by Theodoret in attempting to overcome the barriers between the self and the wider world, these essays highlight emerging theoretical and critical developments in the field. Contributors. Daniel Boyarin, David Brakke, Virginia Burrus, Averil Cameron, Susanna Elm, James E. Goehring, Susan Ashbrook Harvey, David G. Hunter, Blake Leyerle, Dale B. Being the Change Peter Kalmus 2017-08-01 Life on 1/10th the fossil fuels turns out to be awesome. We all want to be happy. Yet as we consume ever more in a frantic bid for happiness, global warming worsens. Alarmed by drastic changes now occurring in the Earth's climate systems, the author, a climate scientist and suburban father of two, embarked on a journey to change his life and the world. He began by bicycling, growing food, meditating, and making other simple, fulfilling changes. Ultimately, he slashed his climate impact to under a tenth of the US average and became happier in the process. *Being the Change* explores the connections between our individual daily actions and our collective predicament. It merges science, spirituality, and practical action to develop a satisfying and appropriate response to global warming. Part one exposes our interconnected predicament: overpopulation, global warming, industrial agriculture, growth-addicted economics, a sold-out political system, and a mindset of separation from nature. It also includes a readable but authoritative overview of climate science. Part two offers a response at once obvious and unprecedented: mindfully opting out of this broken system and aligning our daily lives with the biosphere. The core message is deeply optimistic: living without fossil fuels is not only possible, it can be better. Peter Kalmus is an atmospheric scientist at Caltech / Jet Propulsion Laboratory with a Ph.D. in physics from Columbia University. He lives in suburban Altadena, California with his wife and two children on 1/10th the fossil fuels of the average American. Peter speaks purely on his own behalf, not on behalf of NASA or Jet Propulsion Laboratory.

The E-Giving Guide for Every Church Richard Rogers 2016-12-09 The purpose of this book is to help churches raise more money for ministry and mission by better using electronic media. Although philanthropy in the US is growing, churches continue to receive a declining portion of that philanthropy. Part of the challenge is that America is becoming significantly less dependent on paper currency (cash and checks) yet the church continues to count on paper currency as their primary media for donations. There have been warning signals for several years. Many churches face shrinking budgets and membership and are beginning to ask the right questions. The author's goal is to capture this teachable moment with a resource that will encourage pastors and church leaders to utilize tools already available to change the trajectory of their resourcing; because nothing is more important than what God has called them to do. The banking and electronic giving industries have not made it easy for churches to understand their services or fees. This book will take the confusion and fear away and open churches to new possibilities.

The Life You Can Save Peter Singer 2009-03-03 For the first time in history, eradicating world poverty is within our reach. Yet around the world, a billion people struggle to live each day on less than many of us pay for bottled water. In *The Life You Can Save*, Peter Singer uses ethical arguments, illuminating examples, and case studies of charitable giving to show that our current response to world poverty is not only insufficient but morally indefensible. *The Life You Can Save* teaches us to be a part of the solution, helping others as we help ourselves.

Expectation Hangover Christine Hassler 2016-01-15 When our expectations are met and things go according to plan, we feel a sense of accomplishment; we feel

safe, in control, and on track. But when life does not live up to our expectations, we end up with an Expectation Hangover. This particular brand of disappointment is profoundly uncomfortable and can cost us valuable time and energy if not treated and leveraged effectively. Christine Hassler has broken down the complex and overwhelming experience of recovering from disappointment into a step-by-step treatment plan. This book reveals the formula for how to process Expectation Hangovers on the emotional, mental, physical, and spiritual levels to immediately ease suffering. Instead of wallowing in regret, self-recrimination, or anger, we can see these experiences as catalysts for profound transformation and doorways that open to possibility. Often it is only when life throws us a curveball (or several) that we look in a different direction and make room for the kinds of unexpected things that lead more directly to a life we love. By the time you finish this book, you'll understand why your Expectation Hangover happened and have your own treatment plan – a clear course of action to pursue your goals while preventing future disappointment.

World Transformation Jawara D. King D. D. 2006-10-24 Human unconsciousness, which is identification with thought activity, human emotions, and the thinking mind, is the only source of ALL the evil on planet Earth. All evil is the result of humanity living in darkness, not knowing who they are in their essence, beyond their earthly names and physical forms, which cause them to identify with the world of materiality. The only solution to the darkness of humanity is the light of consciousness, which is disidentification from egoic mind structures, going with the flow of life instead of fighting against it, acceptance of what is, and surrendered action. As we continue to transform individually, the entire world is transformed, because in essence, we are all ONE. Each ONE affects the whole, causing World Transformation through the concept of ONENESS by way of the ONE spiritual energetic force that moves through ALL beings. All organized religions were created by men to condition the masses to think in a certain way, or to point beyond religious belief structures to the Infinite, the formless consciousness we call God. Accepting organized religion as the absolute truth instead of relative truth is the foundation for division and the destruction of the planet. Without the transformation of human consciousness, humans will destroy themselves, each other, and the planet, and are already doing so. If humanity continues to blindly believe the media, organized religion, and all the conditioning tools of the powerful ruling Elite who run the world, without doing their own research, they will be destroyed through lack of knowledge. World Transformation: A Guide To Personal Growth And Consciousness is a transformative book that discusses over 110 life-changing topics to help spiritual seekers in their journeys in consciousness. Learn to be the awareness that is aware of and doesn't become all that you observe. World Transformation begins one person at a time. As you change, the whole world changes, because you are a part of the ONE Consciousness. Gandhi said, "be the change you want to see in the world." As you follow his advice, you become a positive force in the world. "One of the most important books of this generation!" "One of the most profound spiritual books ever written!!" Humanity will destroy themselves if they continue to blindly believe and follow the media, politicians, and

organized religion, which are all used by the ruling Elite to control the masses. Most humans don't know what's going on because they allow entertainment, the media, and other brainwashing tools to control their thinking. Mark Twain said, "in religion and politics, people's beliefs and convictions are in almost every case gotten at second-hand, and without examination, from authorities who have not themselves examined the questions at issue, but have taken them at second-hand from other non-examiners, whose opinions about them were not worth a brass farthing." Social, religious, and other forms of conditioning control the minds of humanity and will destroy them if they continue to accept ideals without analyzation. It is a fact that none of the major religious figures of organized religion actually existed. Their historicity is an unverifiable opinion. Daniel Patrick Moynihan said, "everyone is entitled to their own opinion, but not their own facts." The existence of all the Saviour Gods are questionable. Humanity only believes in them because of religious conditioning. Humanity as a whole has lost their identity in the world of materiality, also known as the world of form, or the world of things. To identify with something means to mistake a person, place, or thing for who you are, the I AM before I AM a (teacher, lawyer, doctor, student, etc.) Humans have confused millions of forms for their identity. Your invisible indestructible eternal divine essence is consciousness. Common false identities humans mistake for who they are in essence are their jobs, cars, degrees, attractive spouse, belief systems, relationships, knowledge, physical appearance, education, clothes, jewelry, family history, brand names, social status, special ability, thoughts, residence, awards and achievements, race, religious or political affiliations, sports, music, and MILLIONS of other things in the external world. "Hello World! I am Jawara D. King, the writer of writers and the light at the end of the tunnel. There is NOT ONE human being alive that will not benefit from reading my book. Thankyou." 29 Gifts Cami Walker 2010-01-14 One month after her wedding day, thirty-three-year-old Cami Walker was diagnosed with multiple sclerosis, and the life she knew changed forever. Cami was soon in and out of L.A.s emergency rooms with alarming frequency as she battled the neurological condition that left her barely able to walk and put enormous stress on her marriage. Each day brought new negative thoughts: Im going to end up in a wheelchair. Marks probably going to leave me. My life is over. Why did this have to happen to me? Then, as a remedy for her condition, Cami received an uncommon prescription from a friend, an African medicine woman named Mbali Creazzo: Give away 29 gifts in 29 days. By giving, Mbali told her, you are focusing on what you have to offer others, inviting more abundance into your life. The gifts, she said, could be anything, but their giving had to be both authentic and mindful. At least one gift needed to be something she felt was scarce in her life. 29 Gifts is Camis poignant and unforgettable story of embracing the natural process of giving and receiving. Many of her gifts were simple a phone call, spare change, even a Kleenex. Yet the acts of kindness were transformative. By Day 29, not only had her health and happiness turned around, but she had also embarked on creating a worldwide giving movement. Including personal essays from members of the [29 Gifts.org](http://29Gifts.org)

online community whose lives changed for the better after taking the Challenge, 29 Gifts shows just how a simple, daily practice of altruism can dramatically alter your outlook on the world.
