Identical Ellen Hopkins 2008-08-26 Do twins begin in the womb? Or in a better place? Kaeleigh and Raeanne are identical down to the dimple. As daughters of a district-court judge father and a politician mother, they are an all-American family -- on the surface. Behind the facade each sister has her own dark secret, and that's where their differences begin. For Kaeleigh, she's the misplaced focus of Daddy's love, intended for a mother whose presence on the campaign trail means absence at home. All that Raeanne sees is Daddy playing a game of favorites -- and she is losing. If she has to lose, she will do it on her own terms, so she chooses drugs, alcohol, and sex. Secrets like the ones the twins are harboring are not meant to be kept -- from each other or anyone else. Pretty soon it's obvious that neither sister can handle it alone, and one sister must step up to save the other, but the question is -- who?

The Image of the City Kevin Lynch 1964-06-15 The classic work on the evaluation of city form. What does the city's form actually mean to the people who live there? What can the city planner do to make the city's image more vivid and memorable to the city dweller? To answer these questions, Mr. Lynch, supported by studies of Los Angeles, Boston, and Jersey City, formulates a new criterion--imageability--and shows its potential value as a guide for the building and rebuilding of cities. The wide scope of this study leads to an original and vital method for the evaluation of city form. The architect, the planner, and certainly the city dweller will all want to read this book.

She's been hearing things these days. Startling at loud noises. Imagining the worst-case scenario. It's what mothers do, she knows. But then the footsteps come again, and she catches a glimpse of movement. Suddenly Molly finds herself face-to-face with an intruder who knows far too much about her and her family. As she attempts to protect those she loves most, Molly must also acknowledge her own frailty. Molly slips down an existential rabbit hole where she must confront the dualities of motherhood: the ecstasy and the dread; the languor and the ferocity; the banality and the transcendence as the book hurtles toward a mind-bending conclusion. In *The Need*, Helen Phillips has created a subversive, speculative thriller that comes to life through blazing, arresting prose and gorgeous, haunting imagery. Helen Phillips has been anointed as one of the most exciting fiction writers working today, and *The Need* is a glorious celebration of the bizarre and beautiful nature of our everyday lives.

And walks around in clay-covered pajamas (yes, she is a sculptor, but still . . .). But things are about to get much, much worse. Laura has noticed that her mother is getting a little bit, well, fat. Then one night over dinner (at a restaurant, since she almost burned down the house trying to cook), her mother announces that she's going to have a baby. Now all the neighbors, including the gorgeous boy Laura has a crush on, will know her parents have been doing it. Maybe even in the house! There must be some way Laura can change her mother before her own life is completely, utterly ruined!
