The Ultimate Grade 4 Math Workbook (IXL Workbooks) IXL Learning 2019-12

*4th Grade Jumbo Math Success Workbook* Amy Kraft 2019-03-26 Success in math requires children to make connections between the real world and math concepts in order to solve problems. Extra practice can help young problem solvers advance to more complex topics with confidence. The activities in this workbook are designed to help your children catch up, keep up, and get ahead. Best of all, they'll have lots of fun doing it! Some of the great features you'll find inside are: BASIC MATH Cash Crunch Calculating the value of money provides practical practice in adding and subtracting decimals. The Mighty Marlock Guessing any weight is The Mighty Marlock's gig, but sometimes he guesses wrong. Students decide where Marlock goes astray, reinforcing their knowledge of standard and metric measurement. MATH GAMES & PUZZLES Number Factory Numbers go into the machine, but what numbers will come out? Students crunch the numbers to solve the puzzle. Secret Location Students find points on a map, write the names of those countries, and then unscramble highlighted letters to determine the secret location. MATH IN ACTION Skateboard Sort From a dozen skateboards with different designs and patterns, students determine the fraction of striped skateboards, skateboards with

flames, skateboards with blue wheels, and other groupings. Favorite Flavors Ira at Ira's Ice Cream Shop is thinking about changing ice cream flavors. From a graph of the flavors people bought on a hot afternoon, students determine the most popular flavor, which ones sold in equal amounts, the fraction of people who bought Fudge Ripple, and which flavor should be replaced. Give your child's confidence in math a boost with 4th Grade Super Math Success.

Go Math! Grade 4 Houghton Mifflin Harcourt 2011-07-14

One-Sheet-A-Day Math Drills Neki C. Modi This One-Sheet-A-Day math drill workbook is for 4th grade students who want extra practice with two digit multiplication. It contains 200 math practice sheets, one for each school day of the year. Upon completion, the student will be more competent in 4th grade mathematics and ready to proceed with more difficult exercises. Unlike other math drill books, this is one of 24 workbooks created to establish a daily routine for each student to practice on their own from grades 1 through 7. It is specifically designed to gradually increase mathematic ability with the least amount of stress for both parent and student. Kids need to practice at home to support what they are learning in school, but finding resources to help with that goal can be daunting. It takes a lot of time searching online for free resources to print or for books with enough exercises. Beyond that, the options include going to libraries, enrolling them in an afterschool class or hiring a personal tutor. Who has the time and money for all of that? The answer is, not many parents. Each and every parent wants to provide enough practice work to their kids, but on top of the challenges in finding resources, questions remain about how much practice a child needs to boost educational success: twenty sheets of practice work a day? One sheet a week? What's the optimum practice work during a whole academic year? Confused? The authors have a decade of classroom expertise and have spent a large amount of time researching and wasting resources trying all the options for their own kids. Now you can benefit from what they have learnt. The result is finding out that "ONE-SHEET-A-DAY" is the optimum way to support classroom learning, and it is amazingly simple. This book eliminates the need to take home prints or run around franchises, bookstores and libraries trying to find enough material. It also prevents you from overwhelming your kids with too many math drill worksheets. There are approximately 200 school days a year. Simply have your child complete ONE per day. Work is far easier when it is part of a routine, especially for kids. The One-Sheet-per-Day program is an easy routine to start and maintain because it takes less than 20 minutes per day, using basic skills your child already knows. Simply take one sheet from the book, ask your child to complete it in a quiet place, and return it to you to check the answers, a painless routine for you and your child, and instant feedback for both of you. Geared to follow most math curriculums, most kids can do the appropriate sheet on their own based on what they are learning at school. "One-Sheet-A-Day" math practice drills will give your child practice they need to score higher on test day, and build confidence in their math abilities.
