Brooklyn Blood Paul Levitz 2018-07-17 In Brooklyn, a serial killer is on the loose--and when strange clues lead down a paranormal path, a detective confronts his inner demons to solve the case. After returning from a tour in Afghanistan, detective Billy O'Connor returns home to a Brooklyn he doesn't recognize. As he tries to return to his normal routines, his PTSD is easily triggered and he suffers severe hallucinations. Once he begins to work a gruesome homicide case, however, O'Connor has difficulty sorting out what's real--and after he uncovers some strange clues, he'll have to face the unthinkable to bring the killer to justice. From New York Times Bestselling

authors Paul Levitz (75 Years of DC Comics: The Art of Modern Myth-Making) and Tim Hamilton (Ray Bradbury's Fahrenheit 451: The Authorized Adaptation), this volume collects all sixteen chapters originally serialized in Dark Horse Presents Volume 3 #17-#22 and #24-#33!

**Gaudí, 1852-1926** Rainer Zerbst 2005 Gaudí's complete works: The inspiring, visionary buildings by the "Dante of architecture" Anyone who visits Barcelona today will come across the works of Antoni Gaudí--the architect who has attracted art-lovers from all over the world to Spain. It was here, in the capital of Catalonia, that the famous master of architecture produced nearly all of his works, including villas for the well-to-do bourgeoisie, the expansive Güell Park (which today is open to the public), and the famous church designed in honour of the Holy Family--a project which was begun over 100 years ago and has yet to be completed. Antoni Gaudí's life was full of contradictions. As a young man he joined the Catalan nationalist movement and was critical of the church; toward the end of his life he devoted himself completely to the construction of one single church. As a young man Gaudí had a liking for the glamour of social life and the looks of a dandy; in old age, on the other hand, he lived a spartan life. Gaudí never married and devoted his life entirely to his art: architecture. His works have been acclaimed as "soothing oases in a desert of functional buildings," as "precious gems in the uniform grey of rows of houses," and the master himself was acclaimed as the "Dante of architecture". This book provides a sweeping study of his entire career, presenting his complete works via texts and illustrations.

Perfect Day 2020 While popular culture beguiles us with the myth of an untamed nature in which to get away from the frustrations of our daily lives, our most habitual experience keeps us tied either to mass tourism or to fleeting escapes to places that are simply what is left of the landscape: vestiges of what was once countryside, now overrun by industry, housing developments and superstores. Appropriated out of necessity and transformed through sheer resilience, these places have been rescued from their inhospitable dimension to become plausible options in which we can still enjoy a bit of free time in the sunshine, well away from the bustle of the city. It is precisely these sites of leisure in post-industrial society that interest Txema Salvans, whose shots of them bring out all their surreal banality and sharpen the funny sense of strangeness they engender. Most of the pictures were taken on the beach or near the sea and yet the sea is always invisible, because Salvans positions himself between the water and the characters, reversing the direction of their gaze. As a result, what the camera shows us is the degraded prospect that the characters want to turn their backs on. To turn one's back on something is to ignore it, even to pretend that it does not exist. Salvans's work speaks to us, then, of this collective delusion that leads us to fantasize these transient scraps of paradise. Since we have no way of knowing if any other paradise is possible, we content ourselves with these moments of tranquillity and even happiness amidst the concrete and the factories.

**The Boundaries of Europe** Pietro Rossi 2015-04-24 Europe's boundaries have mainly been shaped by cultural, religious, and political conceptions rather than by geography. This volume of bilingual essays from renowned European scholars outlines the transformation of Europe's boundaries from the fall of the ancient world to the age of decolonization, or the end of the explicit endeavor to "Europeanize" the world. From the decline of the Roman Empire to the polycentrism of today's world, the essays span such aspects as the confrontation of Christian Europe with Islam and the changing role of the Mediterranean from "mare nostrum" to a frontier between nations. Scandinavia, eastern Europe and the Atlantic are also analyzed as boundaries in the context of exploration, migratory movements, cultural exchanges, and war. The Boundaries of Europe, edited by Pietro Rossi, is the first installment in the ALLEA book series Discourses on Intellectual Europe, which seeks to explore the question of an intrinsic or quintessential European identity in light of the rising skepticism towards Europe as an integrated cultural and intellectual region.

**Forever Saul Leiter** Saul Leiter 2021-10-14 A new collection of Saul Leiter's work, much of it published here for the first time. Saul Leiter remained relatively unsung until he was rediscovered by curators and critics in his early 80s, and his work has been drastically re-evaluated over the last two decades. Leiter's painterly images evoked the flow and rhythm of life on the mid-century streets of New York in luminous colour, at a time when his contemporaries were shooting in black and white. His complex and impressionistic photographs are as much about evoking an atmosphere as nailing the decisive moment. In recent years, Leiter has been in the spotlight more and more with a series of exhibitions and publications. His studio in New York's East Village, where he had lived since 1952 until his death in 2013, is now the home of the Saul Leiter Foundation. The foundation has begun a full-scale survey and organization of his more than 80,000 works, with the aim of compiling the 'complete' archive. This volume contains works discovered through this process, valuable documents that reveal the secrets of Saul Leiter's creation, unpublished works, popular colour works and black-and-white works that have not been published so far, as well as works that trace the memories of those closest to him taken in private. As Saul Leiter said, 'Photographs are often treated as capturing important moments, but they are really small fragments and memories of the world that never ends.' This is Forever Saul Leiter.

*Letizia Battaglia: Anthology* Letizia Battaglia 2016 Mario Puzo may have written the book and Coppola may have made the film about mafia, but only Letizia Battaglia told the real story; the plain, harsh story. Letizia Battaglia (Palermo, 1935) is a Sicilian photographer and photojournalist. Although her photos document a wide spectrum of Sicilian life, she is best known for her work on the Mafia. This is an anthology of Letizia Battaglia's extraordinary photographic work, from 1971 to 2016. A large selection of her iconic black and white images are published here, showing viewers one of post-war Italy's darkest periods.

**Living Under the Evil Pope** Martina Mampieri 2019-12-12 In *Living under the Evil Pope*, Martina Mampieri presents the Hebrew Chronicle of Pope Paul IV, written in the second half of the sixteenth century by the Italian Jewish moneylender Benjamin Neḥemiah ben Elnathan (alias Guglielmo di Diodato) from Civitanova Marche. The text remained in manuscript for about four centuries until the Galician scholar Isaiah Sonne (1887-1960) published a Hebrew annotated edition of the chronicle in the 1930s. This remarkable source offers an account of the events of the Papal States during Paul IV's pontificate (1555-59). Making use of broad archival materials, Martina Mampieri reflects on the nature of this work, its historical background, and contents, providing a revised edition of the Hebrew text as well as the first unabridged English translation and commentary.

*From My Land to the Planet* Sebastiao Salgado 2014 Sebastião Salgado's photographs have been shown around the world. In *From my land to the Planet* the photographer tells us the story of his most famous reportages: from the black and white portraits of unknown men and women, workers or refugees, to the more recent Genesis project, a portrait of the most uncontaminated places of our planet. With a kindness and a disarming simplicity, Salgado rebuilds his path, exposes his beliefs, makes us witnesses of his emotions. In this volume his talent as a storyteller and the authenticity of a man who knows how to combine activism and professionalism, talent and generosity, clearly emerge. The reader will discover fascinating stories of every corner of the world, both near and remote, from Africa to the Americas, and then again the birth of the Instituto Terra, of the Genesis project, of Magnum Photos and Amazonas Images.

*Living in Mexico* Barbara Stoeltie 2011 The colors of Mexico: Diverse interiors from Costa Careyes to the Yucatan Peninsula Barbara and René Stoeltie, the dynamic writer and photographer duo, have struck gold again--this time with a truly breathtaking look at Mexico's most remarkable abodes. The Stoelties have traveled far and wide, from Costa Careyes to the Yucatan Peninsula, seeking out homes to surprise, delight, and inspire you. The contrast between Constructivist architect Luis Barragán's home, a restored 16th century hacienda, and traditional Mayan thatched-roof dwellings is telling of the vibrant palette of textures and hues to be found with the pages of this book. This diverse selection of villas, casitas, haciendas, cabanas, and palapas paints a lively and colorful picture of Mexican style. Text in English, French, and German

is the most comprehensive collection of Ansel Adams' photographs of America's national parks and wilderness areas. For many people, Yosemite, Yellowstone, Glacier National Park, and other iconic American wildlands exist in the mind's eye as Ansel Adams photographs. The legendary photographer explored more than forty national parks in his lifetime, producing some of the most indelible images of the natural world ever made. One of the twentieth century's most ardent champions of the park and wilderness systems, Adams also helped preserve additional natural areas and protect existing ones through his photographs, essays, and letter-writing campaigns. Edited and with commentary by Andrea G. Stillman, the foremost expert on Adams' work, this landmark publication includes quotations by Adams on the making of numerous photographs and essays by Wallace Stegner, William A. Turnage of The Ansel Adams Trust, and journalist and critic Richard B. Woodward. This is a must-own for Ansel Adams fans and all those who, like Adams, treasure America's wilderness.

Jews on trial Katherine Aron-Beller 2020-02-28 This electronic version has been made available under a Creative Commons (BY-NC-ND) open access license. Jews on trial concentrates on Inquisitorial activity during the period which historians have argued was the most active in the Inquisition's history: the first forty years of the tribunal in Modena, from 1598 to 1638, the year of the Jews' enclosure in the ghetto. Scholars have in the past tended to group trials of Jews and conversos in Italy together. This book emphasises the fundamental disparity in Inquisitorial procedure, as well as the evidence examined, and argues that this was especially true in Modena where the secular authority did not have the power during the period in question to reject, or even significantly monitor, Inquisitorial trial procedure. It draws upon the detailed testimony to be found in trial transcripts to analyse Jewish interaction with Christian society in an early modern community. This book will appeal to scholars of inquisitorial studies, social and cultural interaction in early modern Europe, Jewish Italian social history and anti-Semitism.

**Com'era il futuro** Frederik Pohl 2021-04-13 Fantascienza - saggio (344 pagine) - Una storia della fantascienza nell'autobiografia di un protagonista assoluto del genere Dagli Anni venti e le prime riviste di fantascienza create da Hugo Gernsback, dai primi gruppi di appassionati, dai primi scrittori che sopravvivevano scrivendo per uno o due centesimi a parola, fino al boom del genere negli anni sessanta e settanta. Passando per l'era di Campbell, la rivoluzione di Astounding, le convention e le worldcon. E passando per la Grande Depressione, l'attivismo comunista, la Seconda Guerra mondiale. La storia personale di un grande protagonista del genere letterario più affascinante, che diventa la storia del genere stesso e della nazione in cui fiorisce, gli Stati Uniti. Una storia narrata con ironia, arguzia, curiosità, visione, prospettiva, come solo un grande scrittore come Frederik Pohl poteva raccontarla. In questo libro scoprirete: • com'era Isaac Asimov a 19 anni • la verità sulla grande guerra della Worldcon di New York del 1939 • come una ragazzino imberbe scosse il mondo delle riviste pulp • gli strani riti di accoppiamento delle comunità della fantascienza • come diventare agente di tutti i migliori autori e andare lo stesso in bancarotta "C'era una volta un

mondo fatato di cui nessuno sapeva nulla, a parte noi. Frederik Pohl lo ha ricreato perché tutti lo possano conoscere" – Isaac Asimov "Frederik Pohl si dimostra ancora una volta un grande narratore, con una superba autobiografia che diventa una bellissima storia da leggere" – Frank Herbert "Chiunque si interessi di fantascienza troverà questo libro affascinante. È uno strano miscuglio di umiltà e orgoglio, con lampi di umorismo. Un appassionante ma sincera ode alla fantascienza scritta dall'uomo che ne è stato il cuore pulsante per tantissimi anni" – Clifford Simak "Non riuscivo a interrompere la lettura! Fred Pohl ha trasformato la sua storia personale in un libro stupendo. Non solo una narrazione vivida e personale, ma un confortevole umorismo e talvolta una tagliente franchezza, che rivela anche un po' della nostra storia culturale" – Jack Williamson Acclamato scrittore, pluripremiato curatore di riviste fin da ragazzo, fan, antologista, potentissimo agente letterario: Frederik Pohl (1919-2013) ha attraversato il mondo della fantascienza attraverso tutte le strade possibili, sempre da protagonista. Non sempre con successo economico, anzi, ma sempre apprezzato e ammirato, capace di dare una spinta propulsiva per decenni al genere di cui era appassionato. Autore di grandi romanzi come La porta dell'infinito, Uomo più, Jem, spesso in collaborazione con altri autori come Cyril M. Kornbluth (I mercanti dello spazio e Gladiatore in legge), Jack Williamson (Le scogliere dello spazio), Arthur C. Clarke (L'ultimo teorema), ha vinto sette premi Hugo (tre come curatore di If, tre per opere letterarie e uno nel 2010 per il suo blog), due Nebula, due John W. Campbell Memorial, un National Book Award; è stato incluso nella Hall of Fame della fantascienza e insignito del titolo di Grand Master nel 1993.

**Migrations** Sebastião Salgado 2000 First published in April 2000, Migrations and its companion volume, The Children, have been garnering tremendous international attention ever since. Exhibited across the globe, from Brazil to Paris and Germany to New York, Sebastião Salgado's photographs continue to tour and to transform the perceptions of those who view them. As a testament to both their power and their relevance, a major exhibition of photographs from The Children was mounted as part of the United Nations Millennium Assembly in 2000. In Migrations, internationally renowned photographer Sebastião Salgado turns his attention to the staggering phenomenon of mass migration. In photographs taken over seven years and across more than thirty-five countries, this volume documents the epic displacement of the world's people at the close of the twentieth century. Wars, natural disasters, environmental degradation, explosive population growth, and the widening gap between rich and poor have resulted in over one hundred million international migrants, a number that has doubled in the span of a decade. This extraordinary level of demographic change is unparalleled in human history, and presents profound challenges to the most basic notions of nation, culture, community, and citizenship.
