The Great Exception Jefferson Cowie 2017-04-18 How the New Deal was a unique historical moment and what this reveals about U.S. politics, economics, and culture Where does the New Deal fit in the big picture of American history? What does it mean for us today? What happened to the economic equality it once engendered? In *The Great Exception*, Jefferson Cowie provides new answers to these important questions. In the period between the Great Depression and the 1970s, he argues, the United States government achieved a unique level of equality, using its considerable resources on behalf of working Americans in ways that it had not before and has not since. If there is to be a comparable battle for collective economic rights today, Cowie argues, it needs to build on an understanding of the unique political foundation for the New Deal. Anyone who wants to come to terms with the politics of inequality in the United States will need to read *The Great Exception*.

There Your Heart Lies Mary Gordon 2017-05-09 At nineteen, Marian Taylor cut herself off from her wealthy, conservative Irish Catholic family and left America to volunteer in the Spanish Civil War—an experience she has always kept to herself. Now in her nineties and diagnosed with cancer, Marian finally shares what happened to her during those years with her granddaughter Amelia, a young woman of good heart but only a vague notion of life's purpose. Marian's secret history—of personal and ethical challenges nearly unthinkable to Amelia's generation, of the unexpected gifts of true love and true friendship—compels Amelia to make her own journey to Spain to reconcile her grandmother's past with her own uncertain future. Moving and deeply felt, *There Your Heart Lies* explores how character is forged in a particular moment in history—and passed down through generations.

Cobra II Michael R. Gordon 2007-02-27 Written by the chief military correspondent of the New York Times and a prominent retired Marine general, this is the definitive account of the invasion of Iraq. A stunning work of investigative journalism, *Cobra II* describes in riveting detail how the American rush to Baghdad provided the opportunity for the virulent insurgency that followed. As Gordon and Trainor show, the brutal aftermath was not inevitable and was a surprise to the generals on both sides. Based on access to unseen documents and exclusive interviews with the men and women at the heart of the war, *Cobra II* provides firsthand accounts of the fighting on the ground and the high-level planning behind the scenes. Now with a new afterword that addresses what transpired after the fateful events of the summer of 2003, this is a peerless re-creation and analysis of the central event of our times.

Thomas Jefferson and Sally Hemings Annette Gordon-Reed 1998-03-29 When Annette Gordon-Reed's groundbreaking study was first published, rumors of Thomas Jefferson's sexual involvement with his slave Sally Hemings had circulated for two centuries. Among all aspects of Jefferson's renowned life, it was perhaps the most hotly contested topic. The publication of *Thomas Jefferson and Sally Hemings* intensified this debate by identifying glaring inconsistencies in many noted scholars' evaluations of the existing evidence. In this study, Gordon-Reed assembles a fascinating and convincing argument: not that the alleged thirty-eight-year liaison necessarily took place but rather that the evidence for its taking place has been denied a fair hearing. Friends of Jefferson sought to debunk the Hemings story as early as 1800, and most subsequent historians and biographers followed suit, finding the affair unthinkable based upon their view of Jefferson's life, character, and beliefs. Gordon-Reed responds to these critics by pointing out numerous errors and prejudices in their writings, ranging from inaccurate citations, to impossible time lines, to virtual exclusions of evidence—especially evidence concerning the

Hemings family. She demonstrates how these scholars may have been misguided by their own biases and may even have tailored evidence to serve and preserve their opinions of Jefferson. This updated edition of the book also includes an afterword in which the author comments on the DNA study that provided further evidence of a Jefferson and Hemings liaison. Possessing both a layperson's unfettered curiosity and a lawyer's logical mind, Annette Gordon-Reed writes with a style and compassion that are irresistible. Each chapter revolves around a key figure in the Hemings drama, and the resulting portraits are engrossing and very personal. Gordon-Reed also brings a keen intuitive sense of the psychological complexities of human relationships—relationships that, in the real world, often develop regardless of status or race. The most compelling element of all, however, is her extensive and careful research, which often allows the evidence to speak for itself. *Thomas Jefferson and Sally Hemings: An American Controversy* is the definitive look at a centuries-old question that should fascinate general readers and historians alike.

A Dictionary of English Surnames P. H. Reaney 1991 This classic dictionary explains the origins of over 16,000 names in current English use. It will be a source of fascination to everyone with an interest in names and their history. This classic dictionary answers questions such as these and explains the origins of over 16,000 names in current English use. It will be a source of fascination to everyone with an interest in names and their history.

A History of the Scottish Highlands Sir John Scott Keltie 1875

The Last Letter Karen Baum Gordon 2021-11-23 "Part of the Legacies of War series, *The Last Letter* is a family memoir that spans events from the 1930s and Hitler's rise to power, through World War II and the Holocaust, to the present-day United States. Karen Baum Gordon's gripping narrative opens on her father Rudy Baum's attempted suicide in 2002 at the age of eight-six and unfolds in an investigation of generational trauma within her extensive German Jewish family. Gordon grounds her research in eighty-eight letters written mostly by Julie Baum, Rudy's mother and Gordon's grandmother, to Rudy between November 1936 and October 1941. Gordon examines pieces of these worn, handwritten letters and other archival documents in order to recreate the fatal journeys of her grandparents in the camps and ghettos of the Third Reich and trace her father's efforts to save them an ocean away in America. Doing so, Gordon discovers the forgotten fragments of her family's history and a vivid sense of her own Jewish identity"--

District Tartans Gordon Teall 1992 District tartans have a longer pedigree than clan tartans but, although probably better supported from documented sources than clan tartans, they have received less attention over the past two centuries.

National Book Award and the Pulitzer Prize: "[A] commanding and important book." —Jill Lepore, *The New Yorker* This epic work—named a best book of the year by the Washington Post, Time, the Los Angeles Times, Amazon, the San Francisco Chronicle, and a notable book by the New York Times—tells the story of the Hemingses, whose close blood ties to our third president had been systematically expunged from American history until very recently. Now, historian and legal scholar Annette Gordon-Reed traces the Hemings family from its origins in Virginia in the 1700s to the family's dispersal after Jefferson's death in 1826.

Women of the Klan Kathleen M. Blee 2008-12-02 Ignorant. Brutal. Male. One of these stereotypes of the Ku Klux Klan offers a misleading picture. In *Women of the Klan*, sociologist Kathleen M. Blee dismantles the popular notion that politically involved women are always inspired by pacifism, equality, and justice. In her new preface, Blee reflects on how recent scholarship on gender and right-wing extremism suggests new ways to understand women's place in the 1920s Klan's crusade for white and Christian supremacy.

Nuclear Showdown Gordon G. Chang 2009-11-10 Nuclear Showdown published by Asia expert, Gordon Chang, was of the first books to explore the full extent of the North Korean nuclear threat, its origins, international implications, and solutions. The United States is the mightiest nation in history, yet for six decades one of the world's weakest states has challenged the superpower and kept it at bay. Today, that country also threatens to change the course of human events with an act of unimaginable devastation. *Nuclear Showdown* analyses the failed society that has become the gravest threat to America and international order: North Korea. Chang's insightful book reveals the full horror of the crisis threatening to turn Asia into the world's next battleground. How can North Korea be stopped? No one seems to have an answer. For more than half a century, policymakers have failed when it comes to subjugating Kim Il Sung and his son, Kim Jong Il. *Nuclear Showdown* proposes a solution that can defuse the standoff once and for all.

The Second Coming of the KKK: The Ku Klux Klan of the 1920s and the American Political Tradition Linda Gordon 2017-10-24 An urgent examination into the revived Klan of the 1920s becomes "required reading" for our time (*New York Times Book Review*). Extraordinary national acclaim accompanied the publication of award-winning historian Linda Gordon's disturbing and markedly timely history of the reassembled Ku Klux Klan of the 1920s. Dramatically challenging our preconceptions of the hooded Klansmen responsible for establishing a Jim Crow racial hierarchy in the 1870s South, this "second Klan" spread in states principally above the Mason-Dixon line by courting xenophobic fears surrounding the flood of immigrant "hordes" landing on American shores. "Part cautionary tale, part expose" (*Washington Post*), *The Second Coming of the KKK* "illuminates the surprising scope of the movement" (*The New Yorker*); the Klan attracted four-to-six-million members through secret rituals, manufactured news stories, and mass "Klonvocations" prior to its collapse in 1926—but not before its potent ideology of intolerance became part and parcel of the American tradition. A "must-read" (*Salon*) for anyone looking to understand the current moment, *The Second Coming of the KKK* offers "chilling comparisons to the present day" (*New York Review of Books*).

The Works of Tacitus Cornelius Tacitus 1889

A Dictionary of Jewish Names and Their History Benzion C. Kaganoff 1977

A History Of The Gordons Kenn Gordon 2020-12-22 This book will take an academic look at those who are of the Gordon name and clan. There are already quite a few books about the Gordons but they either skip over the lineage or romanticise battles and positions held. There are defining traits within the Gordon DNA that much is true, however that does not always make us 'good people'. We strive to be the absolute best, in our chosen fields. That could be taking the fore in battles or being the best musician, you can be. There are amazing acts of bravery that have been carried out by the Gordons along with substantial acts of cowardice. If that sounds like an oxymoron then you would be right, as we occupy both ends of the moral and social scales. The Gordons have fought for and against the Papacy. We fought on both sides of the Jacobite rebellion. We stood for and against England. The Gordons even as individuals have fought on both sides in World War 1 and 2. There were Gordons on either side of communism. We have been great scientists and doctors. I have one son who is a great Chef, and the other is a Quantum Physicist, whilst I am a Musician and Writer. So, we all do have a personal choice, but it is what and how you act upon us that will mark our places in the history of the Gordon name. I wrote this book in the year 2020 when the world was facing a global pandemic. Not only were our doctors and nurses fighting an invisible enemy (Covid 19) but worse was happening on the streets around the world. Racism seems to raise its ugly head when mankind is at its lowest ebb. 'Black Lives Matter' was a new movement. To an old problem. I feel that 'ALL' Lives matter. There are Gordons who are African, Indian, European, Australian, Asian, North American and South American. Those Gordons have every shade of skin colour that comes within the human range. We also follow every faith and no faith at all. If you go back far enough in any clan or race you will find some element of slavery. We Gordons have also been on both sides of that evil. We have been Slaves, Slave Owners and even Slave Traders. Slaves would normally keep their own first name but would also adopt the surname of the slave owner, hence not all Gordons are Celtic. Being involved in slavery is not a matter of pride to most Gordons, it is just a matter of historical fact. Tearing down statues or defacing buildings that bear the name of historical people, to me is pointless. It would be like tearing down the Auschwitz Museum. There was a holocaust and Auschwitz is testament to that horror and by it being there, it tells us not to forget. When people tried to tear down the statue of William Wallace saying that he was a racist. His statue is there because he fought for Scotland and its people. There were 12 presidents of the USA that owned slaves., Thomas Jefferson, James Madison, James Monroe, Andrew Jackson, Martin Van Buren, William Henry Harrison, John Tyler, James K. Polk, Zachary Taylor, Andrew Johnson, and Ulysses S Grant. You would have to tear down America and start building all over again, starting with Washington DC and the White House. We remember our history, the good along with the bad in order to learn from our mistakes. Consequently, in this book you will find all the great moments in the Gordon history since 66BC all the way up to 2020. You will also find the truth and the facts that point to unspeakable acts carried out sometimes in the name of the Gordon families, other times just out of coincidence to them bearing the name of Gordon. One such example would be the Highland clearances carried out by the Duke of Sutherland whose wife was Countess Elizabeth Gordon. He committed an act of ethnic cleansing in the north of Scotland.

begun to have dreams about Gordon Clan History. However, they weren't like any dreams he had ever had before. These dreams felt real and they didn't fade with time. The strangest part of it was that they were dreams of events that had really happened. Worried that he was losing his sanity Tom sought the help of the beautiful Erin Campbell, an aspiring Druid Priestess. Together, they sought answers for his dreams and along the way found love. Tom's dreams take him from Scotland to as far away as Japan following important episodes from Gordon history. He is witness to the triumphs and tragedies of the Gordon Clan.

Gordon anecdotes, a sketch of the career, with illustrations of the character of Charles George Gordon James Macaulay 1885

When Scotland Was Jewish Elizabeth Caldwell Hirschman 2015-05-07 The popular image of Scotland is dominated by widely recognized elements of Celtic culture. But a significant non-Celtic influence on Scotland's history has been largely ignored for centuries? This book argues that much of Scotland's history and culture from 1100 forward is Jewish. The authors provide evidence that many of the national heroes, villains, rulers, nobles, traders, merchants, bishops, guild members, burgesses, and ministers of Scotland were of Jewish descent, their ancestors originating in France and Spain. Much of the traditional historical account of Scotland, it is proposed, rests on fundamental interpretive errors, perpetuated in order to affirm Scotland's identity as a Celtic, Christian society. A more accurate and profound understanding of Scottish history has thus been buried. The authors' wide-ranging research includes examination of census records, archaeological artifacts, castle carvings, cemetery inscriptions, religious seals, coinage, burgess and guild member rolls, noble genealogies, family crests, portraiture, and geographic place names.
