Cluster Munition Monitor 2010

A History of the Small Arms Made by the Sterling Armament Company Peter Laidler 2020-07-30 An in-depth history of the small arms made by the Sterling Company of Dagenham, Essex, England, from 1940 until the company closed in 1989. The Lanchester and the Patchett Machine Carbines were both developed at Sterling Engineering Co Ltd during World War II. With the appearance of the earliest Patchett prototypes the military began testing them in ever more rigorous trials, wherein the Patchett kept proving its merits. This led to limited UK adoption of the MkII Patchett as the L2A1 in 1953, and the "first Sterling," the MkII, as the L2A2 in 1955. Then came Sterling's "Crown Jewel," the superb Mk4, adopted as the general-issue UK "Gun, Sub-Machine, L2A3" in September, 1955. Manufactured briefly but intensively by ROF Fazakerley (1955-1959) and by Sterling for over 30 years, nearly 4,000,000 were made. Unlike wraparound bolt designs like the UZI, the Sterling was capable of being truly silenced with standard 9mm ball ammunition (as opposed to being merely "suppressed"). The excellent silenced Sterling-Patchett Mk5, adopted as the UK L34A1 in 1967, is the only Sterling remaining in British Service. All prototypes, military Marks, commercial and licensed production models

of the Sterling are described, including the Canadian C1 SMG and the Indian 1A Carbine. Contains notes on manufacturing methods and procedures as used at Sterling, ROF Fazakerley, Canadian Arsenals Limited and the Indian Small Arms Factory, Kanpur (Cawnpore), plus extensive notes on inter-model interchangeability, serial number ranges, quantities produced, client-country purchases of the various Sterling Marks, and accessories. Praise for A History of the Small Arms made by the Sterling Armament Company "If you have an interest in small arms then this is a book that belongs in your library or book shelf. The book does a great job of providing the reader with the story of the weapons that evolved into the Sterling sub-machine gun and the changes in design that took place over that history. The result was a weapon that served in many fields of conflict and performed admirably."

—Armorama

India's Quest for Security Lorne J. Kavic 2021-01-08 This title is part of UC Press's Voices Revived program, which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice, reach, and impact.
